The main building is large and commodious, (100 feet in length by 43 in breadth, and 3 stories high.) and is well furnished with everything necessary to convenience and comfort. The other buildings compose Bath Houses, &c., to the free use of which the pupils will have access at proper hours. The well known White Sulphur Springe rise within a few rods of the main building.

The object of the Institution is to fit young men for business, or for any of the highe classes of College. The course of instruction will be thorough and complete, more attention being given to the quality than to the quantity in the performance of the student. All the branches taught in the set academies will be used for illustration of the subjects that require it. Classes in Civil Engineering will enjoy the advantage of operations in the field with Transit, Compass, Chain, &c.;

The pupils will board in the Institution ander the immediate and constant supervision of the Principal, who will bestow garoful attention upon their convenience and the first the Principal, who will bestow carolia attention upon their convenience, and comfort. Each student will furnish his own towels, and have them and his clothes distinctly marked.

The academic year will be divided into sessions of twenty weeks each, commencing on the first of September. The regular vacation will occur in July and August. Owing to delay in completing the arrangements the first session of the present year will commence on TUES DAY the first day of October, as stated above. An easy access is afforded to students by means of the Cumberland Valley Rail Road to New'ile, and thence by coaches to the Academy. The Gettysburg and Lewistown State Road passes through the grounds.

For circulars containing full particulars and reference, address the Principal through the Newville P. O. Newyille, Sept. 16, 1850-3m.

BURRELL'S CORN SHELLER. BURRELL'S CORN SHELLER.

FIGHE subscriber respectfully informs the farming community that he has purchased the right to Burrell's celebrated Corn Sheller, for the counties of Cumberland and Franklin. Farmers who have used this Corn Sheller, pronounce it a most invaluable invention: It is simple in its construction and not liable to get out of order. It separates the corn from the cob without breaking either and delivers the corn clean and fit for market. It shells from to to twenty busiles per hour. Eight hundred of them have been told the past season by the inventor, all of which were highly approved.

Persons-wishing to see the above Corn Sheller, corner of North Hanover and Louther streets. Carlisle, where he will keep constantly on hand a large number for sale. Every farmer and miller should have the above cheap but Valuable Corn Sheller.

THE constant, unsolicited application for Life Insurance, gives the most abundant and gratifying proof that the public mind is deeply impressed with the vast importance of this subject. The great object, however, of Insurance should be sufety, otherwise the whole motive to insure may be disappointed. Too insuch care cannot be practised in the selection of an office with which to effect the contract.—The choice should be regulated not by present and constant large inducements, as this, is certainly Incompatible with future benefits. The premiums on life are calculated for the future, if present and prospective benefits therefore are given, the result ultimately, must terminate in litigation, disappointment and ruin. The object aimed at by this institution is stability and ferpetuity. The rates of premium have been cargiully prepared with reference to fluctuations.—The cash system of payments has also been adopted. Unpaid premium rotes constitute no part of the assets of this company, and every contingency being fortified with an ample capital, security stamps the whole system. This feature, paramount to all other considerations, commends the company to public favor.
