Patent Graduating Twyere **Patent Graduating Troyere** THE undersigned, olter considerable ex-pense and experiment, has succeeded in produ-cing a 'TWYERE for Blacksmith's Forges, which, whorever i.e.has been tried, has proved itself superior to anything of the kind ever be-fore invented. It has advantages which no other Twyere possesses. Ist. The blast can be regulated effectually so as to suit any kind of work. 2d. The blast can be kept clear at all times without the use of a peker, or without breaking and shaking the fire, thus evabling the smith to take a clean clear beat. 3d. By actual experiment it saves one-third of the Fuel, while the work can be done one-fourith faster. 4th. The blast is a great advantage to the smith, doing crooked or difficult work. Sth. It is not liable to get out of order and will last many years. The following Certificates selected from ma-ny in the possession of the Patenice, will show that it has given complete satisfaction, and also its great superficitly others. A SECOND HAND PIANO.
