MOVEMENTS AND DOINGS

It is said that Mr. Whitney meets with rent success in England in the presentation t his plan for a railroad to the Pacific Ocean inpitalists stand ready to assist him, and the lovernment will give him all the facilities in heir power. His nely plan is to build a road rom Quebec, north of the United States, diect to Puget's Sound on the Pacific.

The abundance of summer vegetables and fruits now in the New York market is so so great as to create general surprise. Beets, turnips, new potatoes of the largest size, green peas and tomatoes, are to be seen on all the stalls of the small markets in every part of the sity.

The oldest person returned by the census takers in the United States is Sukey Wright, a colored women, in the city of Balti more. She is 120 years of age, and the Asdistant Marshal says there is no doubt of the fact. At the time of the Revolution in 1776, she had a child 25 years of age-

The London Times rather snears at the meagre appearance of the American exhibition, and calls it the prairie ground of the Fair .-That paper thinks that we are not yet asgreat as we boast ourselves to be, and that it will require generations to come for us to keep pace with the giant strides of European industries, even with the seven-leagued boots of the "goa-head" tendency of which we are so famed .--We are growing, it thinks, and will be a great community, by and by; but, in the meantime, we must await the future with patience and humility! The signs of this future greatness appears, oven in the Exhibition, in the manifest direction of all our labors to be useful. Our mechanical ingenuity and utilitarian tendencies would indicate, it seems, that, guided by our natural energy, we shall be great after some long generations of Free Trade influence have passed over us! We namire this decision of the English papers, especially when we reflect that it is pratection, long continued and persevering protection to home industry, that gives to England her present superiority in manufactures and the mechanical arts, and enables her to stand so high in this great exhibi-

CONVICTION OF ONE OF THE COSDEN MURDER-ERS .-- Wm. Shelton was tried at Chestertown on Friday for participating in the murder of the Cosden family. The testimony was direct and conclusive, and the jury pronounced him guilty. The trials of Murphy, Taylor, and Roberts, will take place this week. Wm. Burns, convicted of horse stealing at the late Court of Over and Terminer, of Delaware, has been repricted by Governor Ross, and was taken to Charlestown to give evidence in the case of Abraham Taylor. The said Abraham Taylor having confessed, it is alleged, to Burns, whilst in fail, the committal of the murder, and how the young boy at the time made his escape, and that they had a bout in readiness to cross the river, in case they should be disturbed or pursued. This murder was the most coldblooded affair which has ever taken place in the annals of crime.

ne The Almighty Dollar is vindicating its power in South Essolina. The increase of taxes, the decline in the value of property, and the alarm of capital and commerce, are operating with great effect upon the public mind. The prudent and sagacious men of the State have been waiting for this time in order to act with the greatest effect. They are now coming openly into the field, which has been hitherto surrendered entirely to the hot-headed fanatics of disunion. The secession movement has seen the height of its strength.

DEMOCRACY AND BANKING .- Democracy is down upon Banks, and yet it is strange that Banking capital always increases under its ascendancy. In 1847, under the administration of Gov. Shunk, the banking capital of Pennsylvania was \$21,585,760 36, while in 1850, under Gov. Johnston, it was only \$18,675,-487 14. In 1847, the tax or dividends was only \$128,307, against \$152,777 in 1850, with nearly three millions less capital.

ALLEGED FORGERY .- Capt. Morchead, of Philadelphia, belonging to the First Regiment of Pennsylvania Volunteers, in the Mexican War, was arrested on Monday, on a charge of forging the names of several men of his company, in order to secure the pay due them from the State of Pennsylvania. He was held to bail in \$2000.

Miscellaneous.

Patent Graducting Twyere THE undersigned, after considerable expense and experiment, has succeeded in producing a TWYERE for Blacksmith Forges, which, wherever it has been tried, has proved itself suberlor to dnything of the kind ever before invented. It has advantages which no

fore invented. It has advantages which no other Twysor possesses.

16t. The blast can be regulated effectually so as to suit any kind of work. 2d. The blast can be kept clear at all timies without the use of a poker, or without broaking and shaking the fire, thus enabling the smith to take a cleancier heat. 3d. By actual experiment it saves, one-third of the Fuel; while the work can be done one-fourth faster. 4th. This blast is femoved eight or nife inches from the back which is a great advantage to the shift; doing crooked or difficult work. 5th. It is not liable to get out of order and will last many years. The following Certificates selected from many in the possession of the Patentee, will show that it has given complete satisfaction, and also its great superiority over all others. hat it has given complete satisfaction to great superiority over all others.

Carlisle, April 28th, 1851.—This is to certify that I have in my fire one of Porter's Twyeres, that I have in my fire one of Porter's Twyeres, and for the short time that I have tried it I can say that I can'd more work by one-third than I could do with the old Twyere. Of all the different Twyeres that I have ever tried, I can say that Porter's is the best, on account of the facilities of the valves.

Such as Silk Tissues, Silk Lustres, Foulard Silks, plain and figured De Laines, Berege, Beroge de Laines, Luwins, Ginghams and Calical and Constant Constant

Carlidle, April 29th, 1831.—This is to certify that I have tried the I waves of Robert D Perr, and I find that it is a most excellent article, or I have tried several Twycres, but this is or I have the several Twyeres; out this is ar superior to any that I have ever seen used, or it heats quicker and more regular, and with I can do one-third more work in the same ime. I, therefore, recommend lits use to all who stand in need of such an article.

JNO. N. GLANDING, Conclumith.

This is to certify that I have put in my forge no of Porter's Patent Graduating Twyers and t is the best that I have ever seen, and sustains il the advantages claimed for it over other Twyeres. I would not take twenty dollars and o without it.
