AND CONSUMPTION. Among the numerous discoveries Science ha made in this generation to facilitate the business of life—increase its enjoyment, and even prolon he term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or com bination of madicines yet known, can so surely control and cure the numerous varieties of pulmo nary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinion of eminent men, and refer further enquiry to the circular which the Agents below named, will always be pleased to furnish free, wherein are full. particulars, and indisputable proof of these facts. Dr. J. C. Ayer, Lowell. Dear Sir:—Lam now constantly using your CHERRY PECTORAL in my practice, and prefer it to any other medicine for pulmonary complaints.
