VOLUME LII. NO I' Bolitical.

For the " Herald." THE LOCOFOCO ADDRESS.

Mr. Editor :- The signs of the times indicate, in tokens not to be misunderstood, the approach of another political campaign. The onslaught made by the gollars Whigs of Pennsylvania on the locofoco party in 1848; has never been forgiven; hence the loud sounds of the tocsin in calling their leigemen to the rescue, and however unscrupulous they have been heretofore in the choice of weapons, they seem determined in this case to put all former ef-

forts to the blush.

Maddened at the thought that they can find no public act of Gov. Johnston which will not bear the strictest scrutiny, they abandon State politics altogether, and vainly attempt to lrag new issues into the contest, with which the the two great parties of Ponnsylvania, strictly speaking, never had, and, I trust, never will have anything to do. To prove this I need only refer you to the "Address" recently issued by the so-called "Democratic State Central Committee.' It is signed by Wm. Dock, Wm. Ross, Wm. Deal, T. J. Powers, J. Ellis Bonham, Jas. Burnsides, F. K. Boas, G. W. Bowman and J. L. Reynolds. They conclude their address by saying "we have feelly attempted to do our duty." Feelly enough, God knows! Though we could freely forgive the feebleness, f it had even common honesty to recommend

. This address is signed by Wm: Dock, as chairman of the committee, who, when he carried this "feeble" effort to the printer, must have looked as wisely important as a lame DUCK in a thunder-storm carrying a whippoorwill to the Poor House. The whole address is made up of assertion, unsustained by proof, f charges which never existed, except in the istempered brains of the inventors, while the ommittee to show their sincerity, commence with a solemn appeal to what they knew to be LIE, too transparent to impose on any, save few political gudgeons, who swallow without stint, whatever bears the impress of a locofoco seal. Take the following extract:

"We solemnly believe that the re-election of Gov. JOHNSTON would be fraught with danger to the peace of the country, and with consequent ruin to our commerce, foreign and

This silly assertion proves that the committee are either consummate fools, or arrant naves, and they are welcome to hang on eiher horn of the dilemma. It is a fair specinen of the arguments used by these master spirits of the locofoco party, in which they attempt o prove with their usual lack of honesty and air-dealing, that Gov. Johnston and the Whigs are opposed to the Fugitive Slave Love, and are consequently disunionists, while Col. Biger and his friends are the sole guardians of the South, and ready to strike hands with the Union men.

Now whatever opinion a few over-zealousabolitionists may entertain, in regard to that law I aver, that the great mass of the people, Whigs and Democrats, are right on this subject, and any attempt to cast on the good people, of the Keystone the reproach of favoring laws of the land, is an insult to their patriotism and intelligence which they will vindicate on the Second Tuesday of October.

The people of Pennsylvania have proved their devotion to the Union on too many battle-fields, to have this charge thrust on them by a few factious office-hunters, who hesitate it no baseness to mislead the people and run

lown common sense. The Central Committee charge Gov. Johnston with "disloyalty to the Constitution! I.!" This is a grand charge, and worthy of examination, but which one of the committee is the public prosecutor?" The address has somuch the appearance of being a "cobbled" concern, that no doubt, in view of the awfuli responsibility resting on them, each member; was allowed to "put his foot in it," and as-Mr. Bonham seems to have been retained as pecial pleader to the committee, this is probably the way he "puts in his licks." But even Mr. Bonham ought to know, if his knowledge of Blackstone has not been destroyed by the Tariff of 1846, that in sustaining a charge very much depends on the proof. Where is the evidence in this case? Perhaps it may be found in the following extracts from Governor Johnston's message to the Legislature:

"Fidelity in the discharge of Constitution

It gives the surest, pledge of protection to the oppressed children of other rands, who, coming from seenes of misery, and discord, expect here harmony and peaceful refuge. The Union of the States is the outer and in-

ner wall which encircles and guards the temple: of our independence."

Such is the creed of Gov. Johnston and his supporters in regard to that article of our polical faith which prescribes fidelity to the Constitution and the perpetuity of the Union, nd if the Whigs of Pennsylvania desire to keep this glorious temple free from pollution, they must guard it from the touch of the reptiles, who may be tracked by their skink as they
