THANKSGIVING DAY.

PENNSYLVANIA, SS.
In the name and by the authority of the Commonwealth of Pennsylvania. By WILLIAM
F. JOHNSTON, Governor of the said Com-

A PROCLAMATION.

The promise that "seed time and harvest shall not cease" has again been fulfilled;—A God of infinite goodness has watched over and cared for us, as a People, during another year; Plenty has poured her Treasures into our Garnors;—Pence has presided over our councils, and Health and Happiness have been universally enjoyed;—Civil and religious liberty has been more widely spread and the foundations of those Institutions which our Fathers laid, have been deepened and strengthened by the Providences thus vouchsafed to us.

To that gracious Giver, to whom belong "the Earth and the fullness thereof," for these manifold evidences of his benificence, the citizens of this Commonwealth owe public demonstrations of the control of the description of the description of the commonwealth. A PROCLAMATION.

SUPREME COURT.

The Judges elect of the Supreme Court met at Harrisburg, on Friday last, and drew lots for their respective terms, agreeably to the provisions of the amended Constitution. The result of the drawings was as follows, viz:

Jeremiah S. Black, three years. Ellis Lewis, six "
John B. Gibson, nine "
Walter H. Lowrie, twelve "
Richard Coulter, fifteen " Richard Coulter, Judge Black will, therefore, be Chief Justice for the ensuing three years, to commence on the second Monday in December.

GOV. JOHNSTON.

It is understood in Harrisburg, says the Telegraph, that his excellency upon his retirement-from the position he has held so much to his own credit, and to the advantage of the people of the State, will not return to the bar. but will devote his time to other pursuits, and perhaps in entirely different fields from those in which he has been educated. He has already been elected the President of the Allegheny and Kittanning Rail Road Company road projected from Pittsburg to Olean Point in the State of New York, and it is believed he will accept the situation. Any company requiring financial ability will be fortunate if it can retain the services of Gov. Johnston

THE STATE FAIR.

The Harrisburg Telegraph states that the receipts at the late State Fair were about \$4.500 which in addition to the annual appropriation from the State, (\$2,000, we believe,) and the subscriptions by the citizens of Harrisburg, will put the Society in possession of some \$8:100 The Telegraph proposes that, after all the premiums awarded are paid from the treasury that the residue of the money be appropriated to the purchase of a field in the vicinity of Harrisburg, for each future annual exhibition of the Society.

This latter suggestion by the Telegraph in not likely to be acquiesced in, as other coun ties will probably put in a claim for future exhibitions. We hope to see it held in Carlisle either next year or the year after.

OPENING OF CONGRESS.

Congress will assemble at Washington or Monday the 1st of December. In the House parties will stand one hundred and forty-three locofocos to ninety whigs, showing a locofoco majority of fifty-three. Of these parties there are twenty-two Southern Rights men, of whom only one is a whig, and there are thirteen Free Soilers. Twenty States have a locofoco representation, seven a whig representation and four are divided.

We have received the first and second number of The Carlisle Journal of Homoopa-thy, a neat monthly pamphlet, published at Carlisle by Dr. John K. Smith, who has set out, as he says, to "remove the popular errors of the People upon the subject of medicine," and thereby accomplish "immense improve-ment in the physical condition of mankind." Subscription 50 cents por year—which is ra-ther cheap we think for the immense amount of labor the editor proposes to perform. It is well, however, that something good should come from Carlisle; and we therefore hope for the Editor all kinds of success, as the means of saving his town from the fate of Sodom and Gomorrah.—Ohambersburg Whig.

Dr. Smith's periodical will speak for itself, and whether it is calculated to effect the reforms mentioned is a matter best known to those who rend it. but the idea of the village of Chambersburg talking in this flippant and affectedly contemptuous manner of Carlisle is exceedingly rich! What is the state of morals up your way, friend Boyd?

ESCAPE OF WITNESSES IN THE CHRISTIAN Case.-Josephus Washington and John Cook two of the principal witnesses in the Christiana Treason case, escaped about 4 o'clock or Sunday morning from the Debtors' apartmen of the Moyamensing Prison, where they were confined. They doubtless had assistance from without ... The United States Marshal was not informed of the escape until Monday noon, although he had governl times visited the prison after the occurrence. The fugitives have not yet been retaken, and nothing has been

GEN. WINFIELD SCOTT.

A Locofoco paper in the West, engaged in depreciating the merits of Gen. Scott, remarks, that it is a common proverb, among those who are personally acquainted with him, that he is justly replies, that Gen. Scott does not talk of wounds he never received. The greatest living military conqueror in America has no occasion to resort to any such expedient. It is him to-mention the fact to friends inquiring as him to mention the fact to friends inquiring as to his health. We think that Winfield Scott has done nothing to forfeit the lofty respect and gratitude which military services like his would seem fitted to inspire in the healt of every seem fitted to inspire in the heart of every genuine patriot.

CAMPBELL'S DEFEAT. The Locofoco papers teem with denunciations against those they term the "Bolters," doned what they term "Democratic principles and the "usages of the party." This is all humbug, and is perfectly understood. Those who were deceived, now understand it perfect. done who were deceived, now understand it perfect. ly. It was exactly what was designed from the beginning—to use Campbell's friends to the beginning—to use Campbell's friends to to an energetic corps of contractors, from the cleet Bigler, while Bigler's friends defeated U.S., five of whom are Pennsylvaniaus, viz: Campbell. They cannot now wipe out the odium of the fraud by any assumption of political virtue, nor can they deceive those who were victims of the first fraud a second time.

A CITY IN CANADA. Tononto, Canada West, November 1, 1851.

The external appearance of this place, at which I have just arrived, has impressed me so favorably, that I feel prompted to give you somewhat extended description. Accompany me in a little excursion through

the streets and environs—first briefly descri

bing the situation of the city. A reference to

your map will show you that Toronto is situ-

ated on a little bay-some seven miles in length and about one in breadth, -on the north shore of Lake Ontario, towards its western extremity, and nearly in the same longitude as Niagara river. This bay or harbor, affording a secure and extensive anchorage for a large fleet of vessels of the largest class, is formed by an island of peninsula, long and narrow, stretch-ingulat for several miles to the south-west, and ,170 ,594 ,956 ,088 ,856 terminating in a point, called Gibraltar, upon which stands a light-house. The shape of the peninsula closely resembles that of a ham, the ,762 hock being attached to the land, and the other portion extending into the lake. It was, as you may remember, originally called York, and 13.072 is known as such in the history of the late war with Great Britain, for it was here that a gal-10.458 lant officer, Gen. Zeb. M. Pike, found a grave. The place of his death was pointed out to me 14,838 a few days since. The city at the time referred 11,328 to, although it was first settled in 1794, contained only 1000 inhabitants, and so slowly did it progress in the first thirty years of it: existence, that we find its population in 1820, 18,400 only 1677. In 1830 it had increased to 2860, and from this period its progress exceeds that of any other town in Canada. In 1842 it had 3,635 | 15,336 inhabitants; in 1845, 19.706; in 1849, 10,632 25,076,-and at the present time is believed to contain 30,000: The change of name from

York to Toronto, is presumed to have taken 6,378 place in 1834; when it was incorporated. This digression being ended, we will retur to a notice of the city itself-which is divided 6.182 into six wards, each e ecting two aldermen and two councilmen annually, from the former of which the mayor is chosen. The city also sends two members to Parliament. contains upwards of one hundred streets, some of them 12,004 of great length and of great beauty. King street—the main one—extending from East to street—the main one—extending from East to West—is the Brondway of the city, and the shops in their display of goods, and finish and decoration, would do no discredit to that beautiful promenade, in a comparison. Yongo street, the second in importance, extends more than thirty miles—that portion of it within the city being less than two miles. Upon this street the wholesale trade is carried on, and 24,413 street the wholesale trade is carried on, and two of the banking-houses are located. The main streets are eithermacadamized or planked, and the sideways are all planked. The streets are lighted with gas, and water is conducted through all the streets in pipes. The public buildings and many of the private ones, are truly magnificent, and would put to the blush executed of our Atlantic cities. Before the several of our Atlantic cities. Before the during the year, 28,318; number of farms in cultivation, 127,577; inanufacturing establishments, 22,036. This is a gratifying picture of the progress of Pennsylvania.

THE HADDAMS. The Yankee Blade states the following

ond one about " the Haddams : good one about "the Haddams:

Persons who have made the passage from New York to Hartford by water, it ust have a lively remembrance of the interminable "landing" on the Connecticut river—especially the "Haddams." A stranger to the route was on board of a Hartford boat one night, and being rather nervous he had only worn down into a quiet snoze just as the bell jingled at Saybrook. He was not fairly awakened by the first landing, but by the time the bells had jingled and the boat had raked against the wharves at Lyme and Essex, respectively, he was thoroughly aroused. In a short time the pilot's bell again sounded, ting a ling and our traveler thrusting his head out from his berth usked "What place is this?"

is this ?"? "East Haddam," was the reply. The "usual backing, bumping and busile" was soon over, and the boat again on its way. The traveler was trying to compose himselt to sleep, when the bells again smore his ear with its "ting a lung gungle gunk," "What place is this?" he asked of a passenger who was "thrashing" about the cabin preparing to land, "This is Haddam," was the reply.

"This is Haddam," was the reply.

Again the traveler essayed to enatch a brief noment of repose. Just us he was be coming insensible to the hippers of the beds bugs, the infernal bell gave another signal to stop the boat, and another passenger tumbled out to make the landing.

"What place is this?" roared the traveler, lasting all patience. losing all patience

2. The expediency of petitioning for laws in this State similar to those waich now, prevail in two States of our Union, requiring that all ntoxicating liquors kept for sale as a beverage should be destroyed by the State as a public

In calling this meeting the subscribers do not mean to imply that their own views are already formed in favor of any particular mode of ac-tion. They only know that some action with respect to the subjects mentioned is imperatively demanded in our community. Much at-tention is now given to them in many parts of our country, and much has been said in favor of the laws respecting them now in operation, in the States of Maine and Iowa, by many distinguished persons who have perceived no henelit in all previous legislation on the subject. The grand jury and judges of our county have, just spoken decidedly in favor of the law respecting the sale on the Sabbath. We therefore invite all persons of every age, sex, and condition, whether friends of the proposed ac-tion, or of any previous organizations relating to temperature or not, to attend the meeting now called, that every one may give and receive as much light on these subjects as can be obtained. No pledges will be required, but afforts will be previously made to secure docu-ments and speakers who can give information with respect to the subjects under discussion Christian Stayman, .
