ANOTHER FAMOUS PICTURE SHEET .- The mammoth BROTHER JONATHAN, issued to commemorate Independence Day--a beautiful sheet of engravings and interesting historical reading-has just been published by B. H. DAY, 48 Beekman street, New York. It is printed on fine hot-pressed paper, and must give good satisfaction to everybody. The series of engravings entitled "Incidents and Scenes in the Early History of America," and those relating to the personal history of Washington, are not only excellent pictures, but are subjects of romantic interest. This num ber of the Jonathan seems to have in it a richer variety of large and showy picture than usual. It is very neatly printed, and is cheap at 12 cents per copy. For sale at Mr. Piper's Book and Periodical store, Main street.

#### MAKE A NOTE OF.

Mar A late letter from Washington says-"The new Administration has sanctioned som of the acts of the late' Government, which were so lately denounced as abuses and corruptions. Thus, the capitol contracts have been sustained, and for the reason, as is stated, that the War Department would be em barrassed in its operation, if all its contracts should, upon like objections be annulled The arrangement, whatever it was, which Mr. Corwin made with Mr. Simeon Draper, last December, for the purchase of the United States Stocks, at market rates, not exceeding a certain rate, has been confirmed, and is, as it appears, to be carried out.

#### MARYLAND.

This State promises to be the theatre, as the next State election, of a violent sectarian or religious warfare, in which party lines will be, to a great extent, obliterated. Baltimore has been, for several weeks, full of excitement relative to the Catholic movement for changing the public school system, so that a portion of the school fund shall be given to the Catholic free schools of the city. The most bitter feeling has been engendered by it, and the papers are teeming with anonymous squibs against the priests on one side and the clergymen on the other. The same feeling is abroad throughout the State, and there is little doubt that the election for Governor, Legislature, and State officers, next fall, will be controlled in a measure by this religious excitement. A large portion of the Catholics are Democrats, and they are making great exertions to secure the nomination of a Catholic candidate for Governor. Many Protestant Democrats declare that they will vote for the Whig candidate, in preference to a Catholic candidate.

# VIRGINIA ELECTION.

RIGHMOND, May 27 .- The result of the election for members of Congress in this State yes terday, as far as received, is as follows: First District, Baylv, Dem., elected, no opposition; 2d District, Millson, Dem., elected; 3d District, Caskie, Dem., 300 majority; 4th District, Goode, Dem., elected; 5th District, Wooton, Whig, 175 majority; in Campbell county the result is doubtful; 6th District, no returns received; 7th District, Snowden, Whig 150 ahead and four counties yet to hear from, result doubtful; 8th District, Faulkner Dem. is probably chosen. In the 9th, 10th and 12th Districts there is no opposition to the Demooratic candidates. From the 11th District no returns have yet been received.

The Whigs gain several members of the Legislature. No definite returns have been received for Commissioner of Public Works .-The vote is generally small.

RICHMOND, Va., May 80 .- The result of the vote in the 7th District, is very doubtful. One report elects Snowden, Whig, to Congress, by 50 majority; another elects Smith. Democraby 100 votes. Boyd, Independent, is elected over Daniels, Democratic candidate for Commissioner of Public Works, in the first District. In the 5th District, Bocock, Democrat, is elected to Congress. The Whigs have made considerable gain in the Legislature.

FIRES IN THE MOUNTAIN .- On the stormy Thursday of week before last, the fire broke out from a coalpit near Mt. Alto, and destroy. about two thousand cords of wood for Maj. Hughes. On the same day, fire broke out on the land of Mr Watts, at Laurel Forge, which swept over several thousand acres of woodland, descroying all the growing timber and consuming about 1,600 cords of which had been out for coaling.

HIGHLY COMPLIMENTARY .- The Sunbury American, a consistent but magnanimous and independent Locofoco journal, expresses the opinion that Judge Pollock, of that county, will probably be the next Whig candidate for Governor, and says that he is, undoubtedly, the most popular candidate yet named by the Whigs, and if it were possible to elect a Whig, we should say the Judge is the man.

Counterseiters Arrested. - Two men bave been arrested at Harrisburg, on the charge of passing counterfeit ten dollar dotes on the Bank of New Haven. They had passed several of the spurious notes. The parties arrested were locked up in the Harrisburg jail.

The Loco State committee met at Philadelphia on Saturday last, and adopted a reolution for a re-assembling of their Stat Convention, at Harrieburg, on the 28th of July, to nominate a candidate for Supreme Bene to be elected this fall, in place of the late Judge Gibson. We presume that Bigler has fixed the matter for them, and that Knox will be their candidate.

Mr. John Brillinger, of Manchester township, York county, Pa., a few days ago sold an ox weighing 8,480 lbs.

THE STATE OF PARTIES.

This may be said to be the dinner-time of the Democracy, says the Baltimore American. When men are beginning to feed after a long the daily list of appointments at Washington a bait for politicians. Still we are not surprised to understand that he is unsuccessful in satisfying the numerous factions which celebrated a temporary truce in order to concentrate their vote against the Whigs. The mutual dislike or hatred amongst these fragments is quite as great as the enmity of the more a united and happy family.

We have long ago declared that we intended to judge President Pierce candidly by his acts. and to this resolution we shall adhere when his executive policy is developed in something else than removals from office. In the meanbers, as indicated by the vote for the Presi dency, are very large. Gen. Pierce received 1,607,722 votes; Gen. Scott, 1,386,984, and all others 178,218. Such a number forms the The Russsan despotism, with all its abomina nucleus of a very respectable party, whose wheel of our government in its most perilous hours. Whig conservation is not vis inertia. It is not stupid immovability. It is a regular march, led by regular officers, proceeding to harmonious music, instead of the headlong rush of an eager and panting crowd, whose disorder is as dangerous as its impetuosity. -

### IMPORTANT FROM MEXICO.

Dates from the city of Mexico to the 9th, and Vera Cruz to the 22d ult., were received at New Orleans on Wednesday last. The ac counts state that the New Government of Santa Anna was adopting severe measures against all holding opinions deemed pernicious. The arrest of all who served as guerillas in the American army, during the late war, has been ordered, and they are to be tried. The Court Martial publishes a list of the Mexican officers who surrendered as prisoners of war to Gen. Scott when the Capital was taken, and has issued a decree degrading them from their rank in the army, and dismissing them from civil employments.

On the 7th ult. a revolution broke out among the National Guards, in consequence of an order received from the Government to incorporate National Guards with the Troops of the Line. The revolution lasted three days, during which time business was entirely suspended. The regular troops had possession of both forts, and the National Guards of the oulty was ended on the 20th, by the regular troops from Jalapa, who entered the city and took fifty of the National Guards prisoners Subsequently quiet was restored. About fifty of the guards were killed and many wounded. Later accounts, dated city of Mexico, May 18, state that Santa Anna had issued many other arbitrary decrees. Legislative authority

of all kinds had been suspended throughout the Republic, and the offices of Governor and Military Commandant have been united in the same person.

# LATEST FROM CALIFORNIA.

We have two weeks' later advices from California, via New Orleans, per steamships United States and Falcon. The o ty of San Francisco has again been exposed to terrible calamity, by three fires in almost immediate succession, but they were fortunately subdued with a trifling loss, compared Saturday next, at 2 o'clock, P. The efforts of the firemen to save der, and well worthy the attention of purchathe city from threatening flames, are spoken of in terms of enthusiastic commendation by the San Francisco Journals. Our news from the mines continues to be of an encouraging character, and discoveries of gold are said to have been made in new localities, which promise great results.
