Dr Ayer: In the month of July last I was attacked by a violent diarrhea in the mines of California. I returned to San Francisco in California. I returned to San Francisce in hope of receiving benefit from a change of climate and diet. My diarrhea ceased, but was followed by a severe cough, and much soreness. I finally started for home, but received no benefit from the voyage, My cough continued to grow worse, and when I arrived at New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At this time I commenced taking your truly invaluable medicine with little expectation of deriving any benefit from its use. You would not receive these lines did I not regard it my duly to state to the afflicted, through you, that my health, in the space of eight months, is fully restored.
