MONUMENT TO A PIONEER.—The citizens of Harrisburg are taking measures for erecting a monument over the grave of John Harris.

THE SCHOOL FELLOWS FOR JULY IS NOW before us. The number presents a beautiful selection of choice reading to the younger classes.

DESTRUCTIVE HAIL STORM.—A terrific hail storm passed over Northumberland, Pa., from the west about 8 o'clock on Friday afternoon, extending some five miles in width.

Mrs. STONE IN PARIS.—A letter from Paris says: "Mrs. Stone has been in Paris about ten days. She seems to be travelling incognito, for with the exception of one or two extremely small and exclusively American societies for her, she has met with little or no attention."

THE MONTREAL RIOT.—The examination into the circumstances connected with the Montreal riot continues. It appears probable that the order to fire was given to the troops by some unknown and irresponsible person, who escaped detection, owing to the crowd and confusion.

Mrs. STONE IN PARIS.—A letter from Paris says: "Mrs. Stone has been in Paris about ten days. She seems to be travelling incognito, for with the exception of one or two extremely small and exclusively American societies for her, she has met with little or no attention."

NEW GAS DISCOVERY.

The N. Y. Evening Post gives the following notice of a new and important discovery in the manufacture of gas light, which has been brought into practical use in Wilmington, North Carolina.

Wood Gas.—The city of Wilmington, North Carolina, is now, for the first time, the cheapest lighted city in the United States. The whole apparatus, including mains, gasometer, &c., cost but \$18,000.

It is a well ascertained fact that wood gas is a more valuable fuel than coal gas. It is also a more healthful and useful gas.
