## HARVEST HYMN.

Harvest, with its face of golden hue, its head orowned with peace and plenty is with us. The husbandman rejoices in the receipt of nature's gifts, as the Great Giver of all good hath been pleased to reward his labor and toil. We can find no more appropriate time than the present to introduce to our readers the "Harvest Hymn,"

God of the rolling year ! to Thee Our song shall rise—whose bounty pours. In many a goodly gift, with free And liberal hand our Autumn stores; No firstlings of our flooks we slay,
No soaring clouds of incense rise.—
But on thy hallowed shrine we lay,
Our grateful hearts in sacrifice.

Borne on thy breath, the lap of Spring Was heaped with many a blooming flower Was heaped with many a blooming flo And smiling Summer joyed to bring The sunshine and the gentle shower; And Autumn's rich luxuriance now, . The ripening seed—the bursting shell, The golden sheaf, and laden bough, The fullness of thy bounty tell.

No mental throng, in princely dome,
Here wait a titled lord's behest;
But many a fair and peaceful dove a guest;
No groves of palm or fields adorn —
No myrtle shades or orange bowers—
But welling mends of golden corn. But rustling meads of golden corn,
And fields of waving grain are ours.

Safe in thy care, the landscape o'er Our flocks and herds securely stray; No tyrant master claims our store— No ruthless robber rends away, No furness rooter tends away,
No ficree volcano's withering shower—
No fell simoon with poisonous breath—
Nor burning sun, with baleful power,
Awake the fiery plagues of death.

And here shall rise our song to Thee, Where lengthened vales and pastures lie, And streams go singing wild and free,
Beneath a blue and smiling sky,
Where ne'er was reared a mortal throne, Where crowned oppressors never trod, Here—at the Throne of Heaven alone, Shall man in reverence bow to God.

## Soap Suds as a Fertilizer.

The value of this liquid as a stimulant of vegetation does not appear to be generally appreciated by our agriculturists, whom make no use of it. In a state of incipient putridity, soap suds is replete with the element of vegetables, in a state of actual and complete solution; the only condition, indeed, in which it is susceptible of absorption and assimilation to the roots of plants. Besides its value is a powerful stimulant, it possesses, also, very potent athelmintic properties, and when used in the irrigation of garden and field crops—the best way, perhaps, in which it can be applied vegetables-operates as a remedy against the ravages of bugs worms, &c. Every farmer should have a large tank or vat, capable of holding from three to four cart loads, it should be constructed in some place easy of access, and to which, without difficulty, the wash from the sink and laundry can be regularly conveyed. In this reservior all the wash matter produced on the farm should be thrown-bones, refuse, ashes, muck turf, rich soil, and chip manure from the wood shed; in short, every substance capable of absorbing the rich fertilizing liquid, and retaining it for the benefit of the soil on which it is to be applied. Nature has everywhere supplied in munificent abundance, the means of fertility, and we have only to appropriate and apply them judiciously, to secure the best and most flattering results. Some agricultural writers have estimated a value of a hogshead of suds, in a state of incipient putridity, to be very nearly equal to that of a cord of prepared manure, but as its value depends entirely on the grease or fatty acids, and the soda or tash of which it is composed, nonnitrogenous materials, its virtues may be over-estimated .- Scientific American.

MEXICAN MUSTANG LINIMENT.

MEXICAN MUSTANG LINIMENT.

Through by Express.

MESSRS. A G BRAGG & CO.—GENTLE-MEN: We have been using your MEXICAN MUSTANG LINIMENT with the most perfect success. One of our most valuable Express horses had been much troubled by large swellings for tumors on the fettocks; they had grown larger than then's eggs. Besides being disfigured by these appendages, the limbs and joints appeared quite stiftened, swollen and lame. We had tried many Linments and other remedies, but nothing appeared to produce any effect upon them. We would willingly HAVE GIVEN TWENTY-FIVE DOLLARS to have had them removed, and the horse restored to soundness. TWENTY FIVE DOLLARS to have had them removed, and the horse restored to soundness. Our hostler obtained some of your Limiment, and applied it without knowledge. A few days ago he called our attention to the horse, and to our surprise and gratification, his legs were perfectly smooth, THE TUMORS HAVING ENTIRELY DISAPPEARED! We asked him by what mag e he had effected such a remarkable cure? His reply was that he had been using the MUSTANG LINIMENT on them about ten days, and the result was the entire removal of the tumors without producing any soreness or leaving users.

w sear.

We therefore take great pleasure in recommending the Liniment, and shall continue to use it whenever occasion requires, in preference to any oth r preparation, so long as it produces such remarkable results.

Since the above certificate was given, Messrs Kinsley & Co have informed us that one of his differs was thrown from his wagon in the upper part of the city, and very badly bruised, the wagon pussing over his hody. File was taken into a Dector's office close by, and I'HE PHYSIC-IAN TOLDHIM TO U.E THE MUSTANG LINIMENT, as he had recently tried it in a similar case with great success. He did so, and all the soreness, lameness, and stiffness was removed, so that the next day he was about his business as usual. usiness as usual.

"We take great pleasure in recommending the MEXICAN MUSTANG LINIMENT to all MEXICAN MUSTANG LINIMENT to all our friends and customers, as the best article we have ever used for sores, bruises, sprains, or galds in horses. We have used it extensively and always effectually. Some of our men have also used it for severe bruises and sores, as well as rheumatic pains, and they all say it acts like magic—we can only say that we have abandoned the use of any other Liniment,

I believe the MUSTANG LINIMENT mo I believe the MUSTANG LINIMENT most an excellent article. My wife brought a couple of bottles with her, which I must thank you for. Since she came here, MY HORSE FELL DOWN WITH ME; and injured me considerably, but broke no bones. I had recourse to the Mustang, and the relief, and in her cure was astonishing. (Signed) D RANSOM.

Extract from a letter dated
PHTSDURG, Pn. October 5th, 1852.
Another circumstance which I noticed a few days ago, I thought spoke highly of the virtues of the Mustang. Being in the office of a Plysician of his bookense, several bottles of Mustang, alongside of which was an inner Mustang hottle, and a two ounce prescription vial FILLED WITH MUSTANG LINIMENT, on which was the following directions: "Rub the throat well night and morning with the Liniment, and wrap a woolen cloth around it."

HATEVER concerns the health and happiness of a people is at all times of the most valuable importance. take it for granted that every person will do all in their power, to save the liver of their children, and that every person will endeavor to promote their own health at all sacrifices. I teel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which the children and adults are liable, if you have an appetite continualy changeable from one kind

This is the most difficult Worm to destroy o all that infest the human system, it grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach, affecting the health so sadly as to cause St. Vitus' Dance, Pits, &c., that those afflicted seldom if ever suspect that it is Tape Worm hastening them to an early grave. In order to destroy this worm, a very energetic treatment must be pursued, it would therefore be proper to take 6 to 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm, which must be taken in doses of 2-Tablespoonfuls three times a day. These directions followed have never been known to fail in curing the most obstinate ease of Tape Worm.

Dr Ayer: In the month of July last I was attacked by a violent diarrhoa in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My diarrhoa ceased, but was followed by a severe cough, and much soreness. I finally started for home, but received no benefit from the voyage.
