Democratic Whig Nominations

CANAL COMMISSIONER. MOSES POWNALL, of Lancaster County AUDITOR GENERAL, ALEXANDER K. McCLURE, of Franklin Co

SURVEYOR GENERAL. CHRISTIAN MYERS, of Clarion Count

AUGUST ELECTIONS .- It is very difficult to keep pace with all the different reports the Telegraph gives us of the state of the August elections. As it is of very little consequence except to the individuals concerned, whether one Whig, more or less, has been returned to Congress, we think it better to wait for official news.

CHAMBERSBURG RAILROAD .- An effort is now being made in the neighboring counties of Pennsylvania, to construct, under charters granted by the Legislature of this State, a railroad from Chambersburg to Pittsburg, direct. A meeting, or rather a convention, was held at Bedford last week to take the matter into consideration, but the whole affair did not seem to amount to much.

We are indebted to some unknown person for a Catalogue of the Officers and Students of Franklin and Marshall College for 1852-3, and also for a copy of the proceedings of the formal opening of said College, in the city of Lancaster, on the 7th of June last, which contains the able addresses delivered of that occasion by Hon. A. L. Hayes, Rev. J W. Nevin, D. D., and Right Rev, Alonzo Potter, D. D.

DEATH OF COL. BLISS.

The Telegraph gives the painful news of the death, by yellow fever, of Col. W. Bliss, of the United States Army, the 'perfect Bliss, of West Point, the gallant aid of Gen. Taylor in Florida and Mexico, (afterwards his son-in law and private Secretary;) the accomplished scholar and the polished gentlemen in all cir cles. His death will be most truly mourned throughout the country. Col. Bliss was spending the summer at Pascagoula a watering place on the Gulf of Mexico, and fell a vic tim to the fearful malady which is bringing desolation into so many Southern homes.

THE YELLOW FEVER IN NEW ORLEADS. Accounts from New Orleans state that the total number of interments for the week ending 6 o'clock, A. M., 12th instant, as furnished by the Secretary of the Board of Health, were fifteen hundred and eighteen, of which twelve hundred and seventy-seven were from yellow fover: being an increase over the previous week of three hundred and ninety eight, and a total increase of four hundred and sixtyeight. -

Nearly every person who can leave has done so, and should the fever continue much longer there will be no victims wherewith to feed it

DISSATISFACTION AT THE APPOINTMENTS .-The Newark Mercury truthfully says: "Dis. satisfaction at the appointments of the President seems to pervade the countro. Every-. - where the complaint is heard, that sectional agitators have been preferred to national De-_ mocrats. At the South the secessionists have carried off all the executive favors. At the North the Free soilers have revelled in the enjoyment of the leaves and fishes of office: The low murmurs of complaints with which these appointments were at first received, are fast deepening into the unspoken and indignant tones of bitter condemnation. This is the natural result of that duplicity and deception practiced in the late election, when abolitionists vied with Disunionists in the efforts to elect Pierce.

No We have received the annual Catalogue of the Officers and Students of Franklin and Marshall College, for 1852-53. This institution is located at Lancaster, in this State, and is under able and efficient management. The number of students in attendance, as shown by the Catalogue, is one hundred and sixteen. The commencement will be held on the 31st inst. The winter Term begins on the 18th of October.

THE PORTAGE STR KE .- We find in the Harrisburg Democratic Union, a report of the Canal Cammissioners in reference to this subject, but it amounts to nothing at all, and shows conclusively that the investigation was a mere sham.

The Democratio State Convention of Maryland, after a two days' session last week, nominated the Hon. John W. Ligon, of Howard county, for Governor. He was settled on the 83d ballot. The vote stood-Ligon 52, Mitchell 40, and Koys 4. The name of Col. Hughes, another of the prominent candidates, was withdrawn after the 80th ballot.

THE FRANKLIN BAILBOAD. Books of subscription to the capital stock of the Franklin Railroad were opened in Chambersburg, Pa. on wednesday of last week. On the same day the whole amount required was taken.

Arthur Spring, son of Spring who was recently executed, has been appointed messenger in the Register's office of the Treasury, at Washington.

WHIG COUNTY TICKET.

The ticket nominated by the Whig Convenfarmer of the highest personal standing, and funds continue firm. justly esteemed by his neighbors. If elected, make active and useful legislators, in whom their constituents can repose perfect confidates for Commissioner and Treasurer, are among the most popular citizens of our boro', and in every respect well qualified for those stations. Mr. PENROSE, who has been nomi nated for District Attorney, is a talented young member of the Bar, whose legal acquirements and eloquence have already won for him an elevated position. Warm hearted, affable and The Pope is 61 years of age. liberal in his personal character, the young men of the county will rally to his support with warm enthusiasm. Our other candidates, of whom it is not necessary to speak at length are men who combine fitness for their duties

with high personal characters. They deserve and will receive a hearty support. The Convention was composed of good and judicious men. Of course in selecting from the many excellent names offered to them they have disappointed the expectations of a num ber. This was unavoidable, and those whose claims have been postponed must " pick their

flints" for the next opportunity. Whigs of Cumberland County! your ticket is now in the field. It is, an excellent ticketemphatically a strong ticket-and worthy of your undivided support. Notwithstanding the the Dardanelles, and a peaceful settlement of defeat of last fall, our prospects of success this year are in the highest degree encouraging. Raily, then, as one man to the support of your ticket! Success is within our power if we but put forth our energies to accomplish it

RAILROAD CASUALTIES.

Dreadful Accident on the Camdon and Amboy Railroad. The most frightful accident that has ever occurred on the Camden and Amboy Railroad happened last Tuesday afternoon about four o'clock, at Old Bridge, about 8 miles south of Amboy. The engineer of the train from Amboy was driving on at his utmost speed, to gain lost time, when he saw the train from Camden, with five full passenger cars, coming at its usual speed, and in an instant the two trains came in collision with a most fearful shock. The locomotives were immed together in one common ruin, without being thrown from the track, and several of the passenger cars were destroyed. Four passengers-one man, two women and a child-were instantly killed, and many others were injured, some fatally. . The trains were going at the rate, of thirty miles an hour at the time of the collision. The most serious results were in the two foremost passenger cars in the train from New York. Eight persons were entangled i the ruins, and half an hour clapsed before they were all extricated. Among the injured were Mr. and Mrs. James McCormick, of

who were travelling in their company were also slightly bruised. Another Terrific Collision. Telegraphic advices from Providence Collision, on the Providence and Worcester route, on Friday morning. It took place near the Boston junction, between the regular train

switch at Cameron, 27 miles from this city. The ball or lever fell down, which by changing the track threw three of the cars, crowded with passengers, entirely off. They were upset, but strange to say out of over 100 ladies and gentlemen, not one was killed or seriously wounded. Some 20 or 30 are slightly bruised and scratched.

KENTUCKY .- The election in Kentucky, as far as the returns have been received, has resulted in the election of sixteen Whig and six the province of Grenada, and is only twenty-Democratic Senators, and forty-eight Whig three years of age. He cats as much as five and twenty-three Democratic Representatives. There is thus eight Whig majority in the Senate, and at least twenty-four Whig majority in the House. Cox, Whig, is elected to Congress from the ninth district by a majority of 900 to 1200, and Stanton, Democrat, in the tenth district, by over 400. Evidence accumulates of the gross frauds perpetrated by Democrats in the Ashland District to elect Breckenridge. More votes have been polled than there are voters in some of the districts and the increase is nearly all on the Locofoc side. The Whig vote was larger than that cast for General Scott, but the increase on the Democratic side is nearly treble as much.

A RAY FROM SIR JOHN FRANKLING-Infor mation has been received by the Russian Goverament that several of what are called glass balls, probably bottles, have been found at the mouth of the river Obi, which falls into the Arctic Basin at the seventicth parallel of East Longitude. This locality is where such articles would be found, if they had been thrown by a stallion. The horse was seized with a fit from Franklin's ship, in case they had attain ed a high northern latitude. The British Government has requested that some of the balls be transmitted to the Foreign Office.

IMPORTANT FROM CHINA A despatch received at Liverpool, from London, just before the sailing of the Africa, an nounces that the Chinese rebels had captured Amoy on the 19th of May, after a severe fight They are said to be most friendly to foreign ers, and protected the factories and British consulate. They profess a desire to trade in all articles except opium. Any decisive success on the part of the robels in the North, it is supposed, would apparently cause a gradual rise, and lead to a convulsion of the empire An attempt to re-take Amoy had failed. Amoy is a commercial city and scaport on an island of the same name, 320 miles E N. E of Canton; it contains 250,000 inhabitants, and was well fortified with works crected during the

war with England." Canton was quiet. Trade going on as usual. Teas were coming down from the interior .-Business transactions were, however, small .-Goods of all kinds were cheap. Freights were expected to be high for first teas. At Shanghai business was trifling. Teas were expected to rule high.

LATER FROM CALIFORNIA.

We have two weeks' later news from California, by the steamers Star of the West and Illinois, which arrived at New York this week. They bring together about two millions and a Harrisburg, and two Miss McCormicks, all half in gold, which comes most opportunely, slightly.' Miss M. Buehler and Miss Africks, for the money market at New York feels the want of some substantial basis very much. What is of more importance, however, than any amount of wald beauty favorable. The carming interest, it is said, is thriving in all quarters of the State. The general news is not very important. The wheat crop was also suffering from rust. The intelligence from the mining districts is favorable. Large quantities of gold continue to be gathered. A true bill had been found, on the 19th of June against James Collier, late Collector of Customs at San Francisco; and investigations are proceeding in the matter of the charges against Thomas Butler King. A Chinese church is to be erected at San Francisco. General Lane has been elected Delegate to Congress from Oregon.

Opening of Schools...

The public tohools of our borough re-opened on Monday morning last, with the exception of the Female High School, for which no tencher has yet been secured to fill the vacancy occasioned by Mrs. Downing's resignation. The Male High School continues under the efficient control of Mr. Downing, who had charge of it last year. In the lower schools there have been two changes of teachers-Miss Armstrong having been appointed in place of Miss Hoffman, resigned, and Mr. George Searight in place of Mr. Neidich, resigned.

Effects of the Heat. A young man, employed at the new jail, named Adams, was suddenly taken severely ill while at work during the excessive heat on Friday morning last. His mind became so much disordered by the attack that he attempted to throw himself upon the rail road track as one of the trains was approaching. He grew somewhat better toward night, and his father, who was sent for, arrived in town and took him home to Perry county.

The Big Tent Comin# We notice by the proceedings of the Mechanicsburg Prohibitory Meeting in to-day's paper, that Van Wagner, the well known Temperance Lecturer, is expected in Carlisle on Saturday next. Van Wagner carries about with him a Mammoth Tent, capable of holding an audience of 3000 persons, in which he delivers his addresses, staying several days at a particular place. He is said to be a speaker of great power.

Relief from Heat.

A heavy storm took place on Monday afternoon, and the rain fell in torrents for several hours. The heat had been most intense for a number of days previous, and never did relief come more opportunely. There can scarcely be another period of heat so excessive this season. The season has been most extraordinary in its long continued intensity of heat and drougth.

4 Allotment of Work. The grading and macademizing of North street was allotted on Monday, by the Committee of Council, to James Mateen, who contracts to do the work for \$424.

The Prohibition Convention. A mistake was made in the call for the Prohibition Convention last week, in stating the day of meeting to be Thursday the 23d instead of Tuesday the 23d. The Convention will also be held in Marion Hall instead of Education Hall. The notice is correct as it appears in to-day's paper.

Large Stone. Mr. Solomon Powers, of this place, ha been supplying the steps for the Carlisle Jail, with granite slabs from this place. We notic ed the cap-stone passing through town yesterday. It is a large beautiful slab, measuring 18 feet 9 inches by 3 feet 8 inches, and weighing about 7500 lbs. The block originally quarried and from which this was dressed must have weighed not less than ten tons .-Mr. Powers gets \$200 for this one slab. The cers, viz: granite, (or more properly cyanite,) which is found so abundantly in this neighborhood, is being liberally ordered from Frederick, Carlisle. York, and other surrounding towns, and

even from Baltimore, with all the disadvantages of wegon freight .- Getysburg Star. nor Michael Dan Mahegan publishes a card in the Cambria papers, declining being a candidate for the Legislature. He considers the late Whig Convention of that county a frau l.
