THE MESSAGE.

PRESIDENT PIERCE'S first Message to Congress is given at length on the first page.-There is little in it says the Reading Journal, either to commend or find fault with. Those who have been looking forward to this document for months, as likely to indicate the policy of its author, are sadly disappointed. It is doubtful whether President Pierce has marked out for bimself any distinct course in conducting the Government-if he has, he has made 'no sign' as far as the Message is concerned. Upon the great questions of the day,-Pacific Railway, improvement to Rivers and Harbors, and the probable acquisition of Cuba and the Sandwich Islands, for example—he maintains a 'masterly neutrality,'--qualifying every seeming approach towards defining his position, by leaving a loop hole to creep out in case the majority of his party may so order. He is willing to have his thinking done to or der-to dance to any tune the 'Democracy, in Congress assembled, choose to fiddle, pro vided they will consent to stick together, and noknowledge him as their ostensible leader .-But alas, 'Democracy' now a days, instead of being a 'unit,' is composed of an infenitesimal number of fraction-or factions-who have agreed to disagree on all questions. With such a family President Pierce will have a sorry time-but there is no use anticipating. The machinery of our new 'Democracy' Gov ernment is in motion-and in a few months more we will be better able to judge of the qualifications of those who make up its several

STATE TEACHERS' ASSOCIATION .- The First Annual Meeting of the Association will be held in Lancaster, commencing Tuesday, December 27, 1853. The sessions will be continued for three or four days. The active friends of General Education throughout the State will be present; and all who feel themselves interested in the cause are respectfully and urgently requested to attend, and take-part in the discussions and deliberations. Fare on the rail roads going to and returning from the Con vention, will be only half price.

Postmasters, who take no interest in the circulation of County Papers, because they pass through the post-office in the county where published free of postage, neglect thier own interests. For every county paper they deliver to subscribers they are entitled to retain ten and one-half cents per year of the post-office funds. The commission on foreign papers do not overrate more than from six to eight cents a year, and is attended with trouble and loss of time in keeping accounts, etc. We hope post masters will think of this, and encourage their own county papers for their own interest n less than that of the publisher.

THE METHODIST CHURCH CONTROVERSY .-The U. S. District Court of New York, on las Thursday confirmed the adjustment recently agreed on between the Commissioners of the two branches of the Methodist Episcopal Church, and made the several payments as stipulated, amounting to \$191,000, a lien upon the real estate described in bill. Said payments extend through a period of ten years. The Methodist Church South agrees to take in settlement of its claim, under the decree of Judge Nelson, the sum of \$191,000 in cash together with the Richmond, Charleston, and

Nashville printing establishments, and all the debts on books and periodicals, due the New York book concern, from individuals residing within the geographical limits of the Metho dist Episcopal Church South.

ACCUPENTS ON THE PRINSYLVANIA RAILROAD On Monday morning a baggage-master on the Central Rail road, named M'Keever, was borribly mangled at Duncannon station, near Har. risburg. When the train neared the above point the whistle for down brakes was sounded, and M 'Keever happenning to look out, was caught by the post and thrown from the cars. He had an arm broken, and was severely injured about the less by being thrown through a trussell work, and falling about twenty feet upon coal heap.

Daniel T Koll, a brakesman on the train from this city, when near Newton Hamilton switch, on Wedneday swung himself out to look ahead at which moment he unfortunately struck a freight car which was standing on the siding -The concussion was so instant and violent, and he was so terribly bruised, that no cobes are entertained of his recovery. He was left at Newton Hamilton in care of the resident phy-Bicians .- Pittsburg Dispatch.

Last week, fourteen botel keepers, o Reading, were fined \$4 each and costs, for hav ing sold liquor on the preceding Sunday. The

Democrat adds:--"By the act of the 15th of May, 1850, these fines are directed to be paid over to the State Treasury, and set apart in the Sinking Fund for the reduction of the Public Deht. It will be probably some consolation to those who have paid them, to know that their money is approprinted to a patriotic purpose. If the whole State Debt could only be paid off in this way the tavern-keepers would deserve the everlas ting gratitude of their numerous and suffering fellow-citizens, the tax-payers."

THE CONSPIRACY AGAINST THE LIPE OF LOUI NAPOLEON .- The trial in Paris of the person charged with a conspiracy to assassinate Loui Napoleon has terminated. Six of the accused were acquitted, and twenty-two found guilty with extenuating circumstances. Of the latter seven have been sentenced to transportatio three to eight years exile, and the remainde to imprisonment for taxms varying from five to ten years.

LIBERAL BEQUETS .- Anson G. Phelps, Esq. of New York, recently deceased, after provi ding amply for his widow and family, be quenthed \$581,100 to religious and benevelenpurposes, including \$100,000 to the American Bible Society; \$100,000 to the American Board of Commissioners for foreign Missiops \$100,000 to the American Home Missionar Boolety; and \$50,000 to the support of Literary and Theological education in Liberia.

THE MESSAGE AND REPORTS.

To the exclusion of our usual literary matmet we give up our first page, as in duty bound, whether the Executive is Whig or Lo co, to the publication of the annual message of the President of the United States. After the ber of copies were ordered to be printed .message comes the reports of the Cabinet Offi- Several Senators gave notice of bills they inten lengthy for our columns, our readers must be satisfied with a brief synopsis of several of the resolution providing for an expression most interesting of them.

Report of the Secretary of War. This document, for which we cannot make room, states the authorized strength of the U. S. Army to be 18.821 men and officers; but the actual strength, according to the last returns, is only 10,417, of which 8,378 are employed in way to them. He says, further, that the measures taken for the protection of our frontiers have been successful; that the troops everywhere have been actively and constantly employed; that the Indian depredations have been comparatively unfrequent, and, except in California and Oregon, have not attained more than a local importance. New posts are to be Mississippi, in more favorable positions, to enable the Department to dispense with a num ber of the smaller and less important posts. A greater force is also to be employed for the protection of the emigrants crossing the plains-A majority of cases of Indian depredations in Texas which have come to the knowledge o the Department, have been by Indians from Mexican territory. Maj. General Smith, aided by an experienced officer of engineers, is seleating sites for permanent fortifications on the Rio Grande, one of which will be opposite to El Paso and another at the Camanche crossing. Coercive measures are to be used if found necessary. Two of the regiments are to be arranged on the Canadian frontier and the Atlantic and Gulf coasts, a third on the Rio Grande boundary, and a fourth on the Pacific coast. Of the cavalry regiments, one will be required in Texas, one in New Mexico, and the remaining are for the Western frontier. A fourth regiment of cavalry is asked of Congress by the Secretary. Three regiments of infantry are required in Texas, besides two on the frontier instead-of dispersing them among numerous small posts. .In consequence of the difficulty of keeping the ranks full, the Scoretacy proposes.—1st, an increase of the present pay of the common soldier; 2d, an additional increase for each successive period of five years, so long as he shall remain in the Army; 3d, provision

for the promotion to the lowest grades of commissioned officers of such of the non-commis sioned officers of the Army as may be qualified for, and by their character and services entitled to, such advancement. "Also, that every soldier who having been honourably discharged from the service of the United States, shall. within one month thereafter, re-enlist, shall be entitled to two dollars per month in addition to the ordinary pay of his grade for the first period of five years after the expiration of his first enlistment, and a further sum of one dollar per month for each successive period of five years, so long as he shall remain continuously in the Army. The Secretary argue elaborately in favor of the increase of the Ar my, showing the actual necessity for such a measure. He recommends that the minimum organization of all companies be fixed as in the there be added to the present military establishment one regiment of dragoons, and two regiments of riflemen, which would give a minimum organization of 15,528 officers and men, which may be expanded, if the limit fixed by the law of June 7th, 1850, be continued, to

President. At the present date, December 1, 1853, the total number of Post Offices is 22,688. During the past year, commencing July 1st, 1852, 1,893 Post Offices were established, and 479 were discontinued; and there was appointed Iron, which at present prices, it is supposed to office during the same year, besides the 1.-898 Postmasters to the newly established offices aforesaid, 3,000; 850 upon resignation, 225 on death, 182 by change of site, 91 where per cent., and yielding \$200,000, it is propos the Postmaster had moved away, and 2,321 on ed to make it duty free. And what the Zir o Postmasters appointed during the year ending men of New York and Jersey to the reduction June 30, 1858.

At the close of the fiscal year, ending on th 30th June last, there were in operation in the United States 6,692 mail routes. The aggregate length was 517, 743 miles, and 5,582 con tractors employed thereon.

The annual transportation on these routes was 61,892,542 miles, and the annual cost thereof, \$4,495,968; being about seven cents two mills per mile. Of these 61,892,542 miles of annual transportation, 12,986,705 miles are required to be performed on railroads, at a cost of \$1,601,821, being about twelve cents | hands of the mob. three mills per mile: 6,685,065 miles in steamboats, at a cost of \$682,368, being about nine cents four mills per mile; 21,330,326 miles in coaches, at a cost of \$1,206,958, being about five cents six mills per mile; and 20, 890,444 miles in modes not specified, at a cost of \$1,055 \$18, being about five cents per mile. The expenditures of the Department during the last fiscal year were \$7,982,758. The

gross revenue from all sources was \$5,840, It appears from the foregoing statement that the gross revenue for the year ending Whige for help. June 80, 1853, fall short of the expenditure

by the sum of \$2,042,031. Thus we find the Cheap Postage System creating an actual deficit in the Revenue of the Department of nearly \$8,000,000. The last Cheap Postage Act gives Postmusters, in certain cases, an extra commission of 20 per cont, which costs about half a million a year.
The European Mail Service has cost immersely more than the receipts amount to, and the
California Mail service apsts two-thirds more
of the service and usefulness. We should gratefully seize upon every means of counter, acting their dreplifat effects, or causing a remoral of those closes to harpfrage. In these than it pays. Postages on newspapers under last reduction, have fallen off \$400,000.

At this point a message was received from the Senate, announcing the proceedings in that body in reference to the death of the Vice President of the United States. Mr. Harris, of Alabama, made an impressive speech on the life, character and public services of the distinguished deceased. Mr. Harris concluded by offering the usual resolutions of re spect and condolence. Messrs. Chandler, Latham, Taylor, of Ohio, Ashe, Benton and Philipes followed in elequent and impresive culogies. The question was taken, and the esolutions passed. The House thereupon adjourned until Monday.

FORTY ACRES OF BIBLES. The last number of the Bible Record, the useful and suggestive little paper of the Bible Society, states the is-000 Bibles and Testaments, These books, he estimates, if they were spread out on a plain surface, and computed by square measure would cover more than four acres. If the same issues were computed by long measure they would extend more than eight miles. If by solid or cubic measure more than one hundred and fifty solid cords and these cords, piled one upon another, would reach higher than the spire of the Trinity Church, New York, or the Falls of Niagara. The entire issue for the thir ty-seven years of the Society's existence, would cover more than forty acres with Bibles and Testaments: or extend in long measure nearly a thousand miles; or make eighteen hundred and fifty solid cords.

It is well known that a bitter feud exists between Col. Benton and Senator Atchison, of Missouri. The latter, in a recent speech in Jefferson, (Mo.) closed by saying that if his friends thought fit to select, in his place, "a good State-wrights Whig," he would use his influence to effect his election, rather than Benton should succeed him. Atchison's term expires in 1855. Col. Benton is said, upon reading the report of this speech, to have been basely frigh tened, and in his alarm to have gone over to the

End of the Russian and Turkish War. The news from the seat of war, by the Niagara, will be regarded generally with some degree of astonishment. For some time past everything that could be learned respecting the Russe-Turkish difficulty indicated nothing less than a war, long and bloody-a war in which most, if not all, of the powers of Europe and some in Asia must be involved. But now these visions of the future would seem to be about to vanish into empty nothing. After a few skirmishes, without anything decisive having been effected on either side, both parties appear willing to call a halt and listen to proposals of plans for adjusting the existing difficulties. The following is the present position of military affairs: Omer Pasha holds Kalafat with 40,000 troops and is fortifying himself in the strongest manner in the triangle between Kra-jova, Kalafat and Marobi, thus securing com-munication between both banks, and having the base of his operations to act on in Lesses Wallachia. In consequence of the great and continually increasing demand for this elegantly printed, widely-circulated and universally popular Family Newspaper, we have heretofore been unable to furnish the back numbers to only a very limited extent. To avoid this disappointment in future, we shall, on the first of January next, print such an increased edition as will enable us to supply new subscribers from that date. Besides the original productions of the Editors—the Foreign and Domestic Correspondence of a large list of contributors—the spice of the European Magazines—the solections of the most interesting publications of the day—the brief novols—the piquant stories—the sparkling wit and amusing anecdote—the news and gossip of the Parisian papers—the personal sketches of public characters—the stirring scenes of the world we live in—the extensive establishments of Cornetius. ment in future, we shall, on the first of January next, print such an increased edition as will enable us to supply new subscribers from the news and gossip of the Parisian papers
the personal sketches of public characters
the stirring scenes of the world we live in
the chronicle of the news of ladies—the fashions and fashionable gossip—the facts and outlines of news—the pick of English information—the wit, humor and patfics of the times
the essays on life, literature, society and
morals, and the usual variety of careful choosings from the wilderness of English periodical
literature, oriticism, poetry, etc—several new
and attractive features of remarkable interest
will enrich and give value to the new series of
the work.
