THE WINTERING OF STOCK. Taking the last ceusus as the basis of the calculation, and there are at this time about six hundred million dollars worth of live stock in the United States. Their value er coods that of all the manufacturing establishments in the country, and also exceeds the capital employed in commerce, both inland and foreign. Live stock is an immense national interest, but one which has been sadly over-looked by American statesmen and writers on public economy. How to winter cattle, horses, hoes, sheep and porltry in the most economical way, all things considered, is a subject on written. The science of animal phisiology sheds much light on the business of keeping live stock, both in winter and summer; and if properly studied in its bearings on this great interest, would add indefinite millions to the income of farmers, and the wealth of the nation. But how ban we persuade our readers to study animal phisiology in connection with the production of the flesh of their domestic animals? It is impossible to show them the valuable fruits of any science relating to husbandry before its seeds are permitted to be planted and cultivated in any State in the Union. Nevertheless, as the truths of science and the truths of empiricism never contradic each other, many learn by the latter not a little of the wisdom taught by the former, Thus science informs why it is that cattle and other animals subsist on less food in winter and keep in better order, if well stabled or housed, and regularly fed, than they will if subjected to the rigors of cold storms, snow: rain, mud, and irregular feeding. The latter system consumes both forage and flesh needlessly, and, of course, involves a prodigious loss to these who follow it. Warmth is the equivalent of food, because food is used in the hodies of all animals to generate what we call animal heat. How far warm stables will save hay, grain, roots, corn-stalks, and other food of domestic animals; is not known; but a number of experiments lead to the conclusion that one third may thus be saved with advan tage to steck. 'A man at work out in the cold of winter needs double the food that would serve him if he remained idle in a warm room through the winter, and the same is true of an ox or horse. A large share of all domestic animals do not work, and are kept for the production of flesh, milk or wool. They need a reasonable amount of exercise to preserve their health, as well as good keeping in the matters of food, drink and shelter. In wintering hogs, true economy requires that one should keep no more than will give the maximum of flesh for the food consumed. To keep I JUNDRY & MACHINESHOP a pig without his gaining in weight involves not only the loss of the food he consumes, but all the injury resulting from stunting his growth. Few are aware of the damage done to young animals by prematurely arresting the growth of their bones and muscles. A stunted pig, calf, colt, or lamb has' received an irreparable injury. You can no more fully make amends for the shock given to the vital functions, than you can give a horse a new seeing eye in the place of one that has been put out by violence. No after feeding of a horse will give him a new eye; and no good keeping will develop an animal frame perfect in all its parts after it has been stunted in youth. Most farmers attempt to keep too much stock, both in winter and summer, for their food to be manufactured into flesh, dairy products or wool. 'A few superior animals. well housed in winter, and well fed at all times, yield the largest profit. Of course stables should be properly ventilated, that all animals may have a full supply of pure air. Most stables, and all sheds, give too much of it, especially in cold wintry weather. Look out for a plenty of straw, or other litter, to absorb all urine, unless you have a tank or reservoir for it to run into. Manure is now is valuable as money at tan per cont

CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN BITTERS, DR, C. M. JACKSON,

No. 120 Arch Street, Philadelphia. Their power over the above diseases is no excelled, if equalled, by any other preparation in the United, States, as the cures attest, in in the United States, as the cures attest, in many cases after skilful physicians had failed. These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the flost searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED. Testimony, of the highest character! HON. GEO. STROOP, Judge of the District Court in Perry cannty, Pa. Nov. 16th, 1852 said: "your 'Hooft and's German Bitters' has been in use in our place over a year pust, and to the astomehment of many has performed wonders. We may notice a few instances that have come under own immediate notice:—almost every person who has stopped at the hotel of Wm. Lackey, one year since, predicted from his connected countenance and debility, that he could not live much longer. He was unable to attend to his buiness, and for the greater part of the time confined to his ruom. We recommended him to try the German Bitters; he did and to the surgers of all his friends he is did; and to the surprise of all his friends he is now able to attend to his usual business and perform manual labor. The case of Henry Aspera stone mason, whom no one supposed would ever recover from the debility of his system, but was looke I upon as fast approaching the grave, took eight or numbettles of the Bitters during the last winter, and this summer he has been I to the surprise of all who knew his casel following his trade. The case of William Murphy is no less astonishing. He too was so far reduced as to induce the general belief that the grave alone would be his only remedy. Mr. Lackey recommended him to try the Hooffand's German Bitters; he is now apparently a well man, and able to do a hard day's work. We could mention many other cases of a similar character, if it were necessary. I myself derived much benefit from would ever recover from the debility of his necessary. I myself derived much benefit from their use. I have given considerable of it away, not for your benefit alone, but to relieve suffering humanity, and let me assure you I am pleased to see the happy result. To the afflicted we say, try them fairly and I will warrant relief." These Bitters are worthy the attention of first hands.

invalids, pussessing great power in the restoration of a healthy action of the liver and the lesser glands, giving tone to the stomach and nervous system, and bringing the system gen erally to a high state o, health, erally to a high state o, heatin.

Zermans Celebrated Tooth Wash. MHIS valuable preparation has long been used

700 New York and Philadelpina, where it has attained an immense, popularity, for clean sing, preserving and beautifying the teeth. It is an excellent remedy for sore, soft or blegding Gums. It also imparts a delightful freshness to the mouth and agreeable odor to the breath. Read the following from Dr. Murray.

"I can, with the utmost confidence, recommend to the public, Zerman's Anti-Scorbatte Tooth Wash as the best in use: In my practice as a Dentist, I have used and recommended it for me last five years, and have found it to give satisfaction in every instance, as the Wash does not contain acid, or anything injurious to the teeth organs; but, on the contrary, is the best antiscptic in the practice, and therefore, would recommend he use of it, not only to those who wish to preserve their teeth and gums, and have a wholesome ibreath, but also to those who have diseased gums for teeth. The use of the Wash, for a short time, will insure a return to their healthy state.

GEORGE E. MURRAY, Dentist,
No. 61, S. Eleventh st., Felow Chestian Phil'a.
Dr. Hendel, of Carlisle, says:—'Mr. Zerman, I am well pleased with your Tooth Wash: it not only cleanses and whitens the teeth without

Medicines.

"PANKORITE." MYERS' EXTRACT OF FOCK ROSE,

An Invaluable Remedy for all Scrofulous Dis-eases, Indigestion, Salt Rheum, Sick Head-ache, Cancer, Nursing Sore Mouth, and General Debility, and as a Purifier of the Blood it is Unequalled.

The Rock Rose has gained a reputation at The Rock wase has gamed a reputation at home and abroad, which no other medicine has ever done in the same length of time. According to the opinions of eminent Physicians, the Rock Rose Plant is unequalled in Curing Scrofula in its Various Forms!

STATEMENT OF REV. E. R. WARREN, (Pastor of the 2d Baptist Church, New London, Ct...) relative to Myers' Extract Rose. To The American Public.

To The American Public.

As my name has been used in connection with recommendations of Mr. Myers' Rick Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my acquaint, ance with the remedy and tests to which I have subjected it, and the reasons for having introduced it to the notice, of private friends in the community in which I reside, long before the medicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all patent medicines, and sedulously abstanced frem recommending them to the public, believing them frequently the spawn of quackery and humbug, and as tending to merease, instead of lessening human disease and suffering. Such, I fear, is the character of a large portion of the patent panaces of this medicine making age. "Their reasons for the proposition of the patent panaces of this medicine making age. "Their Rosey Llex Feb. 4, 1833. character of a large portion of the patent pana-cess of this medicine making age. "Their

disease and suffering. Such, I tear, is the character of a large portion of the patent panaces of this medicine making age. "Thoir name is legion," and from their influence, sa from the demoniacal spirite, we have reason to pray for a safe deliverance.

The First Test.—I had myself suffered occasionally with sudden attacks of Sick Headache, and Billious Diarrhea, and I had sought a great variety of cirative agents to but little purpose; and suffering from this disease (diarrhea) at this time, I determined to test the new Syrpp first upon myself. The results were beyond my expectations. It was a powerful alterative, and the morbid action of the system was changed, and the functions of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs, and gave me that inestimable blessing—health. This test was not determined in a week, or a month; but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. My Sick Headache is en'irely Cured.

Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time, I was carnoesly solicited to give advice in reterence to a child, some eight years of age. This child was severely afflicted with a Scrofola humor, of a very sorre time the have reason in the content of the clience of a child, some eight years of age. Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid triends. About this time, I was carneally solicited to give advice in reference to a child, some eight years of age. This child was severely afflicted with a Scrofala harmor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black speeks of mortified appearing. The sum of the state of mortified flesh. In addition to some other remedies, a gave the child this Syrup for about six weeks, whom she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with G.d's blessing, to my remedies.

This test satisfied me that the Rock Rose

mors. I then tested it in enses of Cutanen's Eruptions, in Measles, Chicken Pox. Canen's, Sore Mouth, Erysipelas, Salt Rhenm, Piles, 80, In all these cases with perfect success. After testing this Syrup for more than a year, I wrote Mr. Myers (October 7th, 1850) enthusiastically, not expecting my letter would be published, that his Syrup was a "Pankorite," all healing, and gove him the result of its operations in several instances. I stated in that letter that "it was invaluable as a remedy in Cutaneous Eruptions, Erysipelas, Sult Rheum, and other disorders, included in the varied family of diseases known as Scrafula. operations in several instances. I stated in that letter that the trit was invaluable as a remedy in Cataneous Eruptions, Erysipelas, Sah Rheum, and other disorders, included in the varied family of diseases known as Scrofula, &c.: that in Dyspepsia it acted with wonderful efficacy." My opinion of its value for the above named diseases, remain unchanged, and the same as when I wrote Mr Myers in Oct. 1850. I do not recommend it for all the ills of our suffering humanity; but I unhesitating ly say, that as a romedy for Scrofulous affections I believe it superior to any known entative agent.

It has been sufficiently tosted by domestic practice to establish its adaption to extensive usefulness in mitigating human suffering and removing diseases?

But What is the Rock Rose?

plant and its medicinal properties, we take from the New Haven Pakadium, March 1852. tion the New Haven Palladium, March 1852, or The increased interest manifested in the Rock Rose plant, in consequence of the many wonderful cures effected by March Cornward. wonderful cures effected by Myers' Compound Extract of Rock Rose, calls for a brief history

dius. Have the merried or those about to be married any impediment, read this irrly useful Rose. At is a red-stemmed, oblong leave plant, having a bitter taste. In addition to remarkable peculiarity of the plant, of hearing two crops of flowers in one ceason, it also has another interesting and beautiful property.

Dr. Eufon says, that in the months of Now comber and December, he hus seen hundred of these plants, sending out near their toots, broad, thin, curved icc-crystals, about an inch in breadth; which melted during the day, and were renewed in the morning. For a more paid. in breadth: which melted during the day, and were renewed in the morning. For a more minute and authentical description of it, the minute and authentical description of it, the roader is referred to Torrey and Gruy's Botanical works.

Its Medical History and Properties

Twenty years practice in the city of Philadelphia certainly entitles Dr. Young to the consulted on any of the discuss described in his different dublications, at his office 152 Spruce Street, every day between 9 and 3 o'clock (Sunday).

Are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1799, it was so valuable in England, that it was cultivated from seeds, Ever since 1806, Professor Ives of Yale Col-lege, has habitually used it with great success of Scrofula and Chronic diseases, and through him its virtues were made known, until, as Dr.
Tyler says, " it is now in this section (New Haven) a common article in domestic practice for the cure of Serefula and Cutaneous dis-

Dr. Whitlaw, a Sco ch Butanist of natoricty, while travelling in America in 1814, learned its use in Canada. Returning to England, he employed it in medicating his baths, which became greatly celebrated for the cure of simi-

Dr. J. H. Thompson, of the same place, prescribed it in bad cases of Scrofulous patients at Wills' Hospital. His success attracted the uttention of senior physicians. He reports the following remarkable case of white swelling of the lip, in February, 1814:—The lad was seven years old, and had the disease three years. The bone was dislocated both upward end outward. There was a large opening in the hip leading to the hone; into which I could thrust my finger, I counted three ulcers. He had been under several physicians, who had given him up. I ordered a decection of Reck Rose. In two days his night sweats caused I then ordered a teaspoonful of Rock Rose three times a day. Thirty nine days after he was

entirely west.

Dr. Webb, of Madison, Ct., testifies to the value of Rock Rose, as evinced in the cure of numerous cases of the Scrofulu, especially in Manufactured by W'm Franklin & Co., New

Haven, Ct.

Mr. Warren, though a minister of the Gospel, has for a period of 15 years, given attention to the subject of medical science, to qualify him to administer to the sick, in connection with his pasteral duties.
