MARRIAGE BY PROXY.

A correspondent of the National Intelligener writes : "It is but recently that I became ware of the fact that marriage by proxy was llowable in the Old Dominion. Some years go a sable son of Africa, called General-a tile which he had not carned by gallant service n the battle-field, neither had he acquired it s Gen. Mathew Arbucke did his of the same rade, but had received it from his sponsors in aptism, if he over had any-sued and won he love of a colored lady sporting the . rural ame of Milken Sally. A day was fixed for heir wedding ; the officiating clergyman being colored gentleman, slave on an adjoining lantation, a stickler for dignity, and a firm believer in the resolutous of '98 and 99.'hose who needed his services had to go to his babin. General and Milken had to make the nost of it, and as Mahomet would not go to the mountain it remained for the mountain to go to Mahomet. The eventful evening at length arrived; the guests are assembled, the groom has come, but the bride is missing. The venerable elorgyman at length becomes impatient, exrosses his satonishment at Milken's absence; hen the General, rising from his seat thus delivers himself : "Look here broder Culifer. t is no use waiting for dat darkee ; I knows her like a book ; she bin gone to sleep, setting ore de fire. I'se authorised to speak for her. o jes go ahead jes de same if she was here." Old Culifer thought it a wise suggestion, and proceeded to unite them in the holy bonds of natrimony. When the General went over to Milken's onbin, sure enough, there she was fast asleep by the fire with some of her wedding finery in her hand. She was terribly provoked to learn that her wedding had come off and she was not there."

A SHOCKING OCCURRENCE.-Late foreign papers give the details of one of the most shockng occurences we ever remember to have met with. It seems that some of the poorer class of houses in the town of Dowlais, Glamorganshire, Wales, are infested to a considerable degree by rate, but no one seemed to imagine hat the presence of those intruders, although langerous to property, would be attended with. beril to personal life. A poor working woman having occasion to go from home, put her young child to bed until her return. Upon opening the door of the apartment in which n which the child lay, she saw three large rats jump from the bed, and on looking in that lirection was terrified at perceiving that the bed clothes were all stained with blood to considerable extent. Upon moving the covrlot a shocking spectacle presented itself .----The rats had mutilated the poor infant, and destroyed its life, having caten away the wall of the bolly, and notually destroyed portions of the intestines. The prony of the unhappy mother upon discovering her loss way be better conceived than described. Her orles brought hor neighbors to her i desistance, and ti e occurrence bas produced a painful senation throughout the neighborhood.
