The following communication from Mr. L V. Bierge, of Akron, to the "Ohio Farmer and Mechanics' Assistant," we would commend to the attention of our Farmers:

Most of our farmers are in the habit of un ing lime, but from the misappropriation of it or manner of application, or state of the lime do not realize one half the benefit they ough to from its use. One part of a farm may need it, the other not. Experiments should b made by every farmer on different fields, to ascertain its effects. General rules may b given-such as that lime should be used like crally where the soil is sour clay or peat, and sparingly used on sandy, gravelly or thin soils unless they contain a considerable amount of sulphuric acid, indicated by iron in the so

Take a field composed of catswamps and gravelly knobs, as is often the case, and treat the whole alike would be as inappropriate as to give the same food to your children and horses. Put lime on the swamps, and leach ed ashes on the knobs.

The condition of the lime, and the manne of applying it, are also of great importance in calculating the results to be derived from it In its natural state it is usually a carbonatethat is, it consists of 561, and 481 of carbonic acid to 100 parts of the mineral.

The attraction of these parts for each other is what gives hardness to limestone. Burn i and the acid escapes, when it is called quick lime. Let it remain unexposed to the atmo sphere, and if will absorb water, slack, fall into an apparent dry powder, and is then call ed the hydrate of lime. In this form it is used for agricultural purposes: The acid must be expelled before it can be used to advantage of for agricultural purposes. It should be used as soon as it slacks, as its strength will soon

The best way to apply it is to sow it on : field of clover that is about to be plowed in. Acting upon the clover it produces the gases which give life and vigor to the soil. If it is required to give body to the wheat kernel, sow it with the wheat, and harrow both in together. It should never be combined with manure, unless it is to be plowed in immediately, as it sets free the ammonia, which is the source of fertility, and it is wasted in the air.

Particularly necessary is lime on peat muck or body swamps. This kind contains resinous matter, which acts as an anticeptic, or preserving principle to the vegetable matter. To aid nature in digesting this vegetable matter lime is an important agent. It combines with the resin, and forms soap, and the fibre then

decays as fast as any other vegetable matter If lime cannot be had, deep sub-soil plowing will answer for a few years nearly as well; as it brings up the native lime which nature has liberally distributed throughout the whole earth. When exhausted on the surface, it must be supplied from abroad, or brought from below, where vegetation has not yet reached it.

But soils also require other preparations of lime. If sulphuric acid be absent, it wants sulphate lime, or plaster. Then put on a bushel of plaster to the acro. If it has become exhausted by raising stock on it, it needs phosphate of lime, to furnish material for bones. Save all the old bones that can be procured, reduce them to powder, and give vour land at least three bushels to the acre One now takes as much phosphate of lime from the soil, in a year, as is supplied by eightytwo pounds of bone dust. A farmer, then to keep his cows and land in good order, must spread eighty-two pounds of bone dust to eve ry cow, on his pastures. The want of this i the reason why milk men, living near cities, have to thicken their milk with chalk-it lacks phosphate of lime. In every twenty gallons of good milk there is an ounce of phosphate of lime, and if cows are kept in stables whose they cannot get it, or on land where it h become exhausted the milk is but water filter ed through a cow. Children raised on it lack the material for bones, which is the cause of the puny race of young ones in our cities.

From the Lewistown Gazette. APPLE TREES IN ORCHARDS.

MR EDITOR:-I have heard a great many persons complain for the last couple of years that they could not make any use of them. think, that most people are very careless about their orchards, which is one reason for it there are a great many who have very good orchards if they would only take care of them. Our orehard is not better than most of our neighbors, yet, we have more apples than an around us. We have for the last two or three years been in the habit of putting, our corncobs about the roots of the apple trees, and turning in the pigs to lot them get what corn they could, and root among the cobs; the pigs rooting loosened the ground about the roots, which keep it moist, and ever since we have done so we have more aeples, and better, think, than ever: If farmers would just put the corn-cobs around their apple trees, instead of throwing them in the barnyard, they would find it pay better jand as it is not much more trouble to throw thom around the trees than it is to throw them into the barnyard, I would advise all to give it a trial. After we had 

Kishacoquillas valley, Feb. 4, 1854,

THE NEW YORK CRYSTAL PALACE. -- The Crystal Palace directors have agreed to apply to the legislature for an extension of its charter. The committee of investigation have reported that the association owes about \$170. 000 and that the loss by the exhibition this year, is over \$119,000; about \$884 per day. It appears that the company has sunk its whole capital, \$480,000. all its receipts, about \$1,-089,000, and is in debt \$170,000-total \$1,

## HARD WAILE.

A LARGE SPRING ARRIVAL! WHICH surpasses in quantity quality and prices any that has ever yet been opened in Carliele, consisting of the greatest variety of all kinds of Hardware, such as, Shoe Findings, Saddlery, Coach Trimmungs, Paints Oils, Varnish, Glass, Nails, Files, Anvils, Vices, Bellows, Springs, Axels, Bows, Felloes, Veneers, Codarware, Farming Utensils, Bar and Rolled Iron, Steel, &c., with a thousand more articles unmentionable.

and Rolled Iron, Steel, &c., with a thousand more articles unmentionable.

#### CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN BITTERS,

DR. C. M. JACKSON, No. 120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser lands. glands, exercising the most searching powers in weakness and affections of the digestive or gans, they are withal safe, certain and pleas

ant. READ AND BE CONVINCED. Testimony of the highest character! HON. GEO STROOP, Judge of the District Court in Perry county, Pa., Nov. 18th, 1852-said: "your 'Hoofland's German Bitters' has been in use in y'Hoofland's German Bittors' has been in use in our place over a year past, and to the astonishment of many has performed wonders. We may notice a few instances that have come under own immediate notice:—almost every person who has stopped at the hotel of Win. Lackey, one year since, predicted from his emaciated countenance and debility, that he could not live much longer. He was unable to attend to his buiness, and for the greater part of the time confined to his room. We recommended him to try the German Bitters' he ommended him to try the German Bitters; he did; and to the surprise of all his friends he is now able to attend to his usual business and perform manual labor. The case of Henry Asper a sione mason, whom no one supposed would ever recover from the debility of his system, but was looked upon as fast approach ing the grave, took eight or nine bottles of the Bitters during the last winter, and this sum mer he bas been fto the surprise of all who knew his case] following his trade. The case He too was so far reduced as to induce the general belief that the grave alone would be his only romedy. Mr. Lackey recommended him to try the Hoofland's German Bitters; he is now apparently a well man, and able to do a hard day's work. We could mention many other cross of a similar character if the more statements. other cases of a similar character, if it were other cases of a similar character, if it were necessary. I myself derived much benefit from their use. I have given considerable of it away, not for your benefit alone, but to relieve suffering humanity, and let me assure you I am pleased to see the happy result. To the afflicted we say, try them fairly and I will warrant relief."

These Bitters are worthy the attention of h.valids, possessing great power in the resto-ration of a healthy action of the liver and the

ration of a nearity action of the river and the eleaser glands, giving tone to the stomuch and nervous system, and bringing the system generally to a high state o, health.

"PANKORITE." MYERS' EXTRACT OF FOCK ROSE,

An Invaluable Remedy for all Scrofulous Dis eases, Indigestion, Salt Rheum, Sick Head-ache, Cancer, Nursing Sore Mouth, and General Debility, and as a Purifier of the Blood it is Unequalled. The Rock Rose has gained a reputation a

home and abroad, which no other medicine has ever done in the same length of time. According to the opinions of eminont Physi-otane, the Rock Rose Plint is unequalled in Curing Scrofula in its Various Forms!

(Pastor of the 2d Baptist Church, New London Ct. ) relative to Myers' Extract Rose.

Other Tests .- Finding this medicine so use ful to myself, I at once gave it to several inva-lid friends. About this time, I was carnestly hd friends. About this time, I was carnestly solicited to give advice in reference to a child, some eight years of age. This child was severely afflicted with a Scrofula humor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live,

appearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black speck of mortified flesh. In addition to some other remedies, a gave the child this Syrup for about six weeks, whon she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The shirty sixth Edition, with one hundred enaravings, showing Private Diseases and Malformations of the Generative System, in 'every shape and form; to which is added a Treatise on the Diseases and Malformations of the Generative System, in 'every shape and form; to which is added a Treatise on the Diseases and Malformations. Then tested it in cases of Cutanco s Eruptions, in Measles, Chickon Pox, Cane responsessed specific powers for Scroblous flumors. I then tested it in cases of Cutanco s Eruptions, in Measles, Chickon Pox, Cane responsessed specific powers for Scroblous flumors. I then tested it in cases of Cutanco s Eruptions, in Measles, Chickon Pox, Cane responses to the Prostrate Gland, Impotency, solitating this Syrup for more than a year, I wrote Mr. Myers (October 7th, 1850) enthusing astically, not expecting my letter would be published, that his Syrup wasa "Pashkorito," all-healing, and I gave him the result of its opporations in several instances. I stated in that letter that "it was invaluable as a remedy in Co'aneous Eruptions, Erysipelas, Salt Rheum, and ether disorders, included in the varied family of diseases known as Scrobla, &c.: that in Dyspepsia it acted with wonderfulp fficary." My opinion of its value for the abven amed diseases, remain unchanged, and the same as when I wrote Mr Myers in Oct.

The following history of the Rock Rose splant and its medicinal properties, we take from the New Haven Palladium, March 1852; country and Europe since 1838, when the first Rock Rose increased interest manifested in the "The increased interest manifested in the Rock Rose plant, in consequence of the many wonderful cures effected by Myers' Compound Extract of Rock Rose, 'calls for a brief history for '\$1. Address Dr., WILLIAM YOUNG, No. 152 Spruce Street, Philadelphia, "Post ion that may have been entertained; appears of it, in order to correct any errone is opinion that may have been entertained; preeming it; and also to set in a true light the na-ture of a plant which promises to be univer-

"the is entirely different from the commo Rose. It is a red-stommed, oblong leat plant, having a bitter taste. In addition to remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has and br. Enton says, that in the months of Nor vember and December, he has seen hundred-

reader is referred to Toriey and Gray's Butan Its Medical History and Properties Are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1799, it was so valuable in England, Lbat it was cultivated from seeds. Ever since 1806, Professor Ives of Vale College, has habitually used it with great success a Scrofule and Chronic diseases, and through him its vittors were used known parties.

Dr. Whitlaw, a Scotch Botanist of notoriety Dr. Whitlaw, a Scotch Botanist or notoricy, while travelling in America in 1814, learned its use in Canada. Returning to England, he employed it in medicating his baths, which become greatly celebrated for the cure of similar through

lar discares.

varied family of diseases known as Scrofula, &c.: that in Dyspepsia it acted with wonderful flicacy." My opinion of its value for the ab we named diseases, remain unchanged, and the same as when I wrote Mr Myers in Oct. 1850. I do not recommend it for all the ills of our suffering humanity; but I unhesitatingly say, that as a remedy for Scrofulous affections I believe it superior to any known curative agent.

It has been sufficiently tested by domestic practice to establish its adoption to extensive usefulness in mitigating human suffering and removing diseases.

But What is the Rock Rose?

BY A PHYSICIAN,

At Shriner's find this glorious gift Then say, will not you go ?

No tongue can speak the wretchedness,
No language can convey
The great amount of suffering
Occasioned by delay:
A little cold or trifling couch
May lead one to the grave,
But Shriner's Syrup taken in time,
Possesses power to save.

Yes, his Balsamic Strup rare
Contains this mighty power:
And mothers speak in tones of praise
And bless tevery hour.
For when their little ones are racked
With Whodping Cough severe.
They fly at once to Shriver's Fount,
And find a solace there.

Which often en' in death;
When others fail, this will effect
A permanent relief,
Will-bring the aufferen back to health,
And cheat old Death—the thief.

STATEMENT OF REV. E. R. WARREN

To The American Public. As my name has been used in connection with recommendations of Mr. Myers' Recl Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my acquaint-ance with the remedy and tests to which I have subjected it. and the reasons for having intro-duced it to the notice of private friends in the community in which I reside, long before the medicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all patent medicines, withness my name from all patent medicines, and sedulously abstanced from recommending them to the public, believing them frequently the spawn of quackery and humburg, and as stending to thereuse, instead of lessening human disease and suffering. Such, I fear, is the character of a large portion of the patent panages of this medicine making are at Their cases of this medicine making are at Their

disease and suffering. Such, I lear, is the character of a large portion of the patent panaceas of this medicine making age. "Their name is legion," and from their influence, sa from the demoniacal spirits, we have reason to pray for a sufe deliverance.

The First Test.—I had myself suffered occasionally with sudden attacks of Sick Headache, and Billious Diarrhea, and Lind sought a great variety of curative agents to but-listle purpose; and suffering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon myself. The results were beyond my expectations. It was a powerful alterative, and the morbit action of the system was changed, and the functions of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive argans, and gave me that inestimable blessing—health. This test was not determined in a week, or a month; but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. My Sick Headache is entirely Cured.

Other Test.—First Medicine, Yebe, 4, 1853.

Mr Z. Lake—Sir: Please send a few more total tox she had five for your "Fit Medicine,' I may not need it, but think safer to keep it on hand. Your medicine has done wonders. I gave it to Miss Jane benders. After taking the medicine a few days, she had his for 20 years, prought out to the surface.—After taking the medicine a few days, she had his for 20 years, she had his for 20 years, she had his or symptoms almost daily. She and her father concur with me in saying that we believe the medicine has one wonders. I gave to the which could not be brought out to the surface.—After father concur with me in saying that we believe the medicine has or will work a perfect cure, and Aria Carby, who have had fits almost dearly for a number of year. Their fits have ceased, and I helieve the medicine to medicine to perform, and lean to the testive and the fits of your medicine to perform and learned to th ed but slightly from these derangements. My Sick Hendache is entirely Cured:

pensatory of 1847, for the following description of it:

of these plants, sending out near their roots, broad, thin, curved ice-crystals, about an inch in breadth: which melted during the day, and were renewed in the morning. For a more minute and authentical description of it. th

him its virtues were made known, until, as Dr Tylor says, "it is now in this section (New Haven) a common article in domestic practice for the cure of Scrafula and Cutaneous dis-

Dr. J. H. Thompson, of the same place, prescribed it in had cases of Scrofulous patients at Wills' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of white swelling of the hrp, in February, 1614:—The lad was seven years old, and had the disease three years. The bone was dislocated both upward years. The bone was dislocated both upward end outward. There was a large opening in the hip leading to the bone; into which I could thrust my finger. I counted three ulcers. He had been under several physicians, who had

had been under several physicians, who had given him up. I ordered a decoction of Reck Rose. In two days his night sweats ceased I then ordered a tenspoonful of Rock Rose three times a day. Thirty-nine days after he was entirely undi.

Dr. Webb, of Madison, Ct., testifies to the value of Rock Rose, as evinced in the cure ginumorous cases of the Scrofula, especially in children.

March Ct.

Mr. Warren, though a minister of the Gospel, has for a period of 15 years, given attention to the subject of medical science, fogqualify him to administer to the sick, in connection

ing it; and also to set in a true light the nature of a plant which promises to be universally beneficial.

"We are indebted to the United States Dispensatory of 1847, for the following description of it:

"It is entirely different from the common of the individual content of the individual content of it."

No. 152 Spruce Street, Philadelphia, Post paid.

Twenty years practice in the city of Philadelphia certainly-entitles Dr. Young to the confidence of the afflicted, and he may be consulted on any of the diseases. described in his different dublications, at his office 152 Spruce Street, Post paid.

POETRY.

Ho! Ye upon whose sinking frames
Disease his hand has placed:
Upon whose sunken, care worn cheeks
Consumption's rose is traced: Consumption's rose is traced; Come, freely quaff, from out the fount, Where health doth overflow;

Why suffer neath the tacking pain With which you are oppressed, Why; why complain of wearliess And soreness of the breast? When SURINER'S SYRUP heals all pain, Will cause disease to disappear Like snow drops in the spring,

It is a sovereign, speedy cure For Quinsy; want of breath: For Asthma, and Throat Diseases, Which often en in death;
