The skill of Linnaus, derived from his intimate knowledge of science, devised a method of destroying an insect, or of preventing its ravages, which had cost the Swedish government many thousand pounds annually by its destruction of ship timber in a single dockyard. The insect was the Cantearis Navalis. Bŷ merely a knowledge of the season when the fly laid its eggs and attending to that fact, the timber was immersed in water at the proper time, and thus the ravages of the insect

prevented. By his botanical knowledge he also ascer tained the cause of a dreadful disease among the horned cattle of his country, which had baffled all conjecture, and was considered wholly unaccountable and irremediable,

Under the management of Mr. Forsyth, and by his knowledge of vegetable physiology, timber trees in Kensington Gardens which had become hollow, were filled with new wood, and made to produce new and thrifty branches—and pear trees a century old, which had become so decayed and knotty as to leave no fruit worth gathering, were restored to such by his knowledge of vegetable physiology, timwalls with new branches, bearing a profusion of fine fruit.

These three facts strongly illustrate the importance of an intimate knowledge of the things about us which we are constantly handling, raising and using in all our operations upon the farm. This is certain knowledge, science; it saved the ship timber, healed the TRISS KINGLE'S OLD HALL is now diseased ontile and rejuvenated the trees. science; it saved the ship timber, healed the The farmer, of all men, ever has something scientific to learn; he should study, reflect and examine until he can walk in his fields

WEEDS.

Weeds, it should be recollected, are al ways more exhausting to soil than either roots or grain crops. They are indigenous, consequently gross feeders, and abstract from the ment of essentially and indispensably requisite to sustain the more valuable and cultivated crops, the more valuable value was, and indispensably requisite to sustain the more valuable value of the more valuable value valu weeds which, if cut close to the soil, while in inflorescence, inevitably die; and others, if so treated, will not start again till the following year, or if they do, it will be very feebly, and with so little vigor that they will effect but little injury, comparatively speaking, and without any possibility of producing seed .--Mullen, thistles, burdocks and many other obnoxious productions of a similar class, may be eradicated by placing a tablespoonful of salt upon the stump of each plant after cutting it. When these weeds are "in force," we have frequently found it profitable to sow salt freely after mowing, as the exuding fluids of the roots tles be moved when the thistles are in full bloom, and salt, say two bushels to the acre, Bedsteads. be sowed upon the stumps, and the sheep be permitted to graze upon the enclosures, it is said the thistles will be at once destroyed .-This is perhaps a more economical method o eradication, than removing the plants by the roots, which is tedious, expensive and but sel ·dom successful .- Maine Farmer.

Faith and medicine are about the same thing in the eyes of the Tarter. If the Lama doctor happens not to have any medicine with him, be is by no means disconcerted; he writes apon little scraps of paper, with his saliva, and roles them up into pills, which the pasient tosses down with the same perfect confidence as though they were genuine medicaments. To swallow the name of a remedy or the remedy itself, say the Tarters, comes to precisely the same thing.

THE SIN OR COVETOUSNESS .- We read in the Bible of persons falling into gross sins, and yet being restored and saved; but not of the recovery of one who was guilty of covetousness. Balaam, Gehazi, Judas, and Ananias. and Sapphira are lawful examples.

READ AND BE CONVINCED. HON Testimony of the highest character! HON. GEO. STROOP, Judge of the District Court in Perry county, Pa., Nov. 18th, 1852 said: "you 'Hoofland's German Bitters' has been in use it our place over a year past, and to the astonish ment of many has performed wonders. We may notice a few instances that have come under own immediate notice:-almost every person who has stopped at the hotel of Wm. Lackey, one year since, predicted from his e-maciated countenance and debility, that hs could not live much longer. He was unable to attend to his buiness, and for the greater part of the time confined to his room. We recmmended him to try the German Bitters be did; and to the surprise of all his friends he is now able to attend to his usual business and perform manual labor. The case of Henry Aspera stong mason, whom no one supposed would ever recover from the debility of his system, but was looked upon as fast approach ing the grave, took eight or nine buttles of the Bitters during the last winter, and this sum-mer he has been [to the surprise of all who knew his case] following his trade. The case of William Murphy is no less astonishing.—
He-too was so far reduced as to induce the general belief that the grave alone would be his-only remedy. Mr. Lackey recommended him to try the Hoofland's German Bitters; be is now apparently a well man, and able to do a hard day's work. We could mention many ther cases of a gimilar character, if it were necessary. I myself derived much benefit from their use. I have given considerable of it away, not for your benefit alone, but to relieve suffering humanity, and let me assure your benefit alone, but to relieve suffering humanity, and let me assure your. am pleased to see the happy result. To the afflicted we say, try them fairly and I will warrant relief."

MYERS? EXTRACT OF ROCK ROSE, An Invaluable Remedy for all Scrojulous Dis euses, Indigestion, Salt Rheum, Sick Head-ache, Cancer, Nursing Sore Mouth, and General Debility, and as a Purifier of the Blood it is Unequalled.

The Rock Rose has gained a reputation at home and abroad, which no other medicine has ever done in the same length of time. According to the opinions of eminont Physi-cians, the Rock Rose Plant is unequalled in Curing Scrofula in its Various Forms!

STATEMENT OF REV. E. R. WARREN (Pastor of the 2d Baptist Church, New London, Ct..) relative to Myers' Extract Rose.

To The American Public. As my name has been used in connection with recommendations of Mr. Myers' Rick Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my acquaint ance with the remedy and tests to which I have supported it and he remeans for heart of heart of the statement. subjected it, and the reasons for having intro-duced it to the notice of private friends in the community in which I reside, long before the medicine was advertised. 4 make this statement freely, because I have, as a principle, withheld my name from all patent medicines, and sedulously abstained from recommending them to the public, believing them frequently the spawn of quackery and humbug, and as tending to mercase, instead of lessening home disease and suffering. Such, I fear, is the character of a large portion of the patent panucers of this medicine making age. "Their dame is legion," and from their influence, sa from the demoniscal spirits, we have reason

The First Tist.—I had myself suffered occasionally with-sudden attacks of Sick Headshad contained as the suffering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon myself. The results were beyond my expectations. It was a powerful alterative, and the morbir action of the system was changed, and the functions of secretion were restored to a healthy state. It gave tone and clasticity to my system, and corrected the dorangement of the digestive organs, and gave me that inestimable blessing—health. This test was not determined in a week, or a month; but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. My Sick Headsche is entirely Cured.

Other Taste—Riving the medicine, Cointy Superintendent of the shadow in fits and the strength of the suffered occasional discovery. Respectfully yours.

Other Tests .- Finding this medicine so use ful to myself, I at once gave, it to several inva-lid friends. About this time, I was earnestly solicited to give advice in reference to a child, some eight years of age. This child was severely afflicted with a Scrofula humor, of a severely afflicted with a Scrofula humor, of a very, severe type, the humor showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live, The humor resembled black specks of mortified flesh. In addition to some other remedies, a gove the child this Syrup for about six weeks, whon she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with G sit, The humor resombled black specks of mortified fiesh. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with Gui's blessing to my remedies.

This test satisfied me that the Rock Ruse possessed specific powers for Scrofulous humors. I then tested it in cases of Cutaneo: sing of the lighest importance to married people, or those contemplating marriage. By WM. YOUNG, M. CONNEAUT, Feb. 3, 1855.

Mr. Z. LAKE—Sir: Please send me another bottle of Fit Medicine, as I do not like to be without it on hand. When I commenced giving the medicine to my son Edgar, he had from one to three fits per day. He has now taken the medicine over five months, and has had, I think, but two fits in that t me, and those very light. His body and mind are very much improved; and by the blessing of God, I feel that the medicine will restore his body and mind to their wonted activity. He is 28 years old, and has had fits over 12 years, which have been very frequent, and very destructive to his constitution and mind. Hundreds of dollars have been expended for medicine to "cause first," but nothing has relieved him until he used your medicine. Respectfully yours, POLLY BROOKS.
