### HARDWARE-FRESH ARRIVAL!!

#### EXISTENCE OF GOD

There is a God! The herds of the valley, the cedars of the mountain bless him—the sun sets sport in his beams—the elephant salutes him with the rising orb of day—the birds sing him in the foliage—the thunder proclaims him in the heavens—the ocean proclaims his immensity—man alone has said “There is no God!” Units in thought, at the same instant, the most beautiful objects in nature; suppose that you see at once all the hours of the day, and all the seasons of the year; a morning of Spring and a morning of Autumn; a night bespangled with stars and with flowers; forests hairy with snow; fields gilded by tints of autumn; then along will you have a just conception of the universe. While you gaze on that sun which is plunged under the vault of the west, another observer admires him emerging from the gilded gates of the east. By what inconceivable magic does that aged star, which is sinking fatigued and burning in the shades of evening, re-appear at the same instant, fresh and bound with the rosy glow of the morning? At every instant of the day the glorious orb is at once rising—resplendent at noon-day, and setting in the west—or rather our senses deceive us, and there is properly speaking, no east, or north, or south, or west in the world. Everything resolves itself to one single point, from which the King of Day sets forth at once a triple light, in one single substance. The bright splendor is, perhaps, what is most beautiful—for it gives us an idea of the perpetual magnificence and residence power of God.—Chateauroux.

On low, heavy, or clay soils, which are deficient in silica, coal ashes are undoubtedly of great benefit. But they contain, besides silica, alumina, carbon, and iron, in a soluble form, nearly to the amount of twenty per cent, and therefore must be of value to many others but especially to those
