NEWS FROM CALIFORNIA. Fugitive Slave Riot in Boston.

Wednesday, May 24. In Congress, yesterday, the House postpon ed for four weeks the consideration of Bennett's Land bill, and then went into Committe on the Deficiency bill. Two hours were spen in discussing the Senate's amendment, approprinting \$500,000 for continuing the work supplying the cities of Washington and George town with water. Without concluding the debate, the Committee rose. The House resolved to adjourn on the 31st inst. until the

5th of June, to afford time for preparing the

hall for the summer. In the Senate, yesterday, Mr. Toucy mad some remarks in reference to the Connecticularies to the Republic Legislature resolutions against the Nebraskabill. He said that the majority of the Democrats in the Legislature voted against the re solutions. On motion of Mr. Morton, a report from the Navy Department on the Pensacola Dry Dock Basin and Railway was referred to Dry Dock Basin and Kallway was referred to the Naval Committee. Mr. Morton read a long speech on the subject, showing that the contractor had failed to construct. Mr. Mason offered a resolution, which was agreed to, asking information from the President in ref-erence to the recent decrees in Cuba respect-ing slavery, etc. Mr. Douglass offered a re-solution directing the Committee on Foreign solution directing the Committee on Foreign Relations to inquire into the expediency of recognizing the independence of the republic of Dominics, and of opening diplomatic intercourse therewith, but Mr. Chase objecting, it was laid over. The House bill regulating the pay of postmasters was reported back from committee with an unimportant amendment committee with an unimportant amendment, which was agreed to, and passed. Mr. Gwin reported a bill authorizing the coinage of gold pieces of the value of ten and five eagles each. The Nahranka hill was received from the House The Nebraska bill was received from the House, taken up and read a first time. Mr. Sumner objected to the second reading, so it went over. The Indian Appropriation bill was taken up, debated, reported to the Senate, the amendment agreed to, and the Senate adjourn-

Two weeks later intelligence from California has been received by an arrival at New Orleans. The French Consul at San Francisco, having been arrested and taken into court to testify in the case of the Mexican Consul, has struck his flag, and will not raise it again until ordered to do so by the Emperor. The Mexican Consul was found guilty of violating the neutrality laws, but recommended to the mercy of the court. Colonel Fremont has armercy of the court. Colonel Fremont has arrived at San Francisco with his party completely broken up. Only twenty men remained with him, the greater portion of his original party having deserted after crossing the Coloredo.

The ship Golden Fleece has been totally wrecked in the harbor of San Francisco, and the barque Walter Claxton has been capesized there with the loss of thirteen lives. The steamer Gazelle has burst her boiler on the Columbia river, Oregon, killing twenty-five persons and wounding thirty others. From Acapulco the advices are that on the 5th inst. Santa Anna appeared before the town and de manded its surrender. This was refused by Alvarez, who sallied out against him, and at-tacked and put to flight Santa Anna's forces,

taking 300 prisoners.
In the Old School Presbyterian Genera Assembly, yesterday, at Buffalo, it was decided to break up the large Synod of Philadelphia, and form a new-Synod out of Baltimore Carlisle and the Eastern Shore of Maryland to be called the Synod of Baltimore. Yester day a disastrous fire occurred in a manufacto ry at the corner of Broad and Buttonwood streets, Philadelphia, resulting in the death of two persons, by the falling of the walls of the burned building. Six colored men, also, were drowned in the Delaware river, while on a

Thursday, May 25. We have, by the arrival of the steamer America at Halifax, three days later intelligence from Europe. The report relative to the stea-mer reen by the ship Baldaur, and sapposed to be the City of Glasgow, is repeated, with the addition that, when first seen, the steamer was heading north, but changed her course and steered towards the Baldaur, but immediately afterwards disappeared. The Baldaur steered towards the spot, and saw large quan titles of biscuit, boxes, &c., floating about.— When the steamer was first seen, a barque was by her side, and it is supposed that she saved the steamer's passengers. The negotiation between Sweden and the allies for an offensive sive alliance against Russia were re ported to be progressing to a satisfactory con-clusion. It was reported at Paris that Spain, Portugal and Piedmont are willing to join the allies and furnish a contingent force. Hano-ver has declared against the issuing of letters of marque, and Austria was about to do likewise. Fourteen merchant men had been cap tured in the Black Sea. Admiral Dungas had proposed an exchange of prisoners. Further details of the bombardment of Odessa state that three of the steamers engaged in the attack were disabled, that the British loss consisted of 20 men killed and wounded, and the Russian loss 20 men killed and 60 wounded The red hot shot from the steamer Terrible blew up the Russian magazine, and silenced formidable battery on the Imperial mole— formidable battery on the Imperial mole— Three Russian frigates lying in the harbor were burned to the water's edge. In the Sonate, yesterday, Mr. Benjamin pre-sented the resolutions of the Louisiann Legis-

lature relative to the annexation of Cuba; and said that he fully believed that the Africani sation scheme, and regretted that Mr. Clayton had discredited it. Mr. Clayton replied that Mr. Benjamin never would be able to show that Spain intended to destroy the island by smancipation, except as a desperate remedy against a piratical invasion from the United On this subject an interesting debate ensued between Mesers, Clayton, Benjamin, and others. The Nebraska bill from the House was then taken up and read a second time.— Mr. Douglass urged its immediate passage. Mr. Pearce moved to replace the Clayton amendment; which had been stricken out by the House. He supported his motion in a speech of some length. The amendment was discussed by Messrs. Broadhead, Toombs,

Vors on Nor Vors .- There is some discus sion, says the Philadelphia Ledger, and some difference of views among the newspapers in regard to the expediency and the wisdom of the friends of a prohibitory liquor law voting upon the question at the next October election. Why should they hesitate in meeting the issue, as proposed and required by the legislative enactment on this subject? If a majority of the voters of the State are against a prohibitory law, it is very certain such a law will not be enacted. The friends of the law insist that the majority is on their side, and this is the very point to be settled by the proposed vote. In our judgment, it would b most unwise on the part of the friends of such a law to refuse to meet the issue as presented by the Legislature. The result of the vote in October will be received as the expression of the wishes of the people in favor of a prohibi law, or against it, and the next Legislature will be likely to shape their action in accord

THE NEBRASKA BILL PASSED.

The evil has been consummated, says the Hartford Courant. The first blow has fallen on the links of the chain that binds this Confederacy together. The Nebraska Bill has been passed with allits present enormities and all its future consequences. It has been passed by the votes of the South who have been disregardful of their former agreements, assisted by Northern men, who have "noses of wax on dough-faces," and are ready to do the dirty work of the South. We cannot speak putiently and temperately on this subject. It is the most momentous vote in its ulterior con sequences ever passed by Congress. It is the

first stroke at the stability of our Union that is real. In a time of quiet, when all agitation on the subject of slavery seemed to be forever settled; during the Administration of a man who had solemnly pledged himself not to renew thisagitation, the proposition was made and has been carried through both Houses of Congress, to repeal the Compromise of 1820, and allow of the introduction of slavery into territory from which it had been free by the express agreement of the Slave power itself. It was a thunder clap in a clear sky. A lightning stroke from no preparatory cloud. The bolt has fallen; we have yet to count up the ruin it has wrought.

No Compromise will ever be made again while this Government holds together. No mode of enectment can be framed that will be felt as binding. The South wilfully and wantonly violated the Compact of 1820, will be the erv. and they cannot be trusted again. Noither is this consequence a slight one. Mistrust will grow up in the room of confidence. The principles of the two sections will separate them as widely as their interests. The feeling of brotherhood, nursed amid the storms of the revolution and nourished by the blood of the patriots, will wither in the hearts of the North until it dies away even from their memories We threaten nothing; but the South may depend upon it that the confidence in their honor has been woefully shaken by this reneal of solemn compact.

THE BATTLE IN MISSOURI.

A great battle is to be, fought in Missouri, next August. The fight will be a novel one. the ring, and take a hand in the fight on their own private account. By the aid of Government patronage they hope to do something handsome. Two hundred and fifty have flocked to the standard, and recruiting officers are searching the highways, by ways, hedges and hill-country round about St. Louis, in quest of further reinforcements. There will be a wonderful shaking in the valley of dry bones of Missouri politics. The Atchison men plead for support of a tottering President; the Bentonites for their adherence to their chief .--They are consequently becoming intensly hostile to each other, and have but little time to hate the Whige.

The Whigs are not idle. All over the State enthusiastic and harmonics meetings are being held to organise for the contest.

Colonization -The late Legislature appropriated \$1800 to aid the Pennsylvania State Colonization Society, in sending emigrants to Liberia. Two years ago \$2,000 were approprinted for the same purpose, and proved a prise. There are more persons now desirous of going to Liberia than the society can send with its limited means, and hence a State appropriation was a matter of vital importance.

Good NEWS. - The Relief Notes, we are glad GOOD NEWS.—And Action Avoice, accountation to learn, will now be taken out of circulation pretty rapidly, an amendment to the appropriation bill having been adopted by the House

printion bill having been adopted by the House requiring the cancellation of all those notes hereafter paid into the Treasury, and probibiting their being paid out. A bill for this passed the Senate more than a month ago, but has been hanging in the House.—To secure its passage at the present session it has been attached to the appropriation bill. The speedy and permanent disappearance of this greasy, fifthy trash is a consummation devoutly to be wished, and we doubt not that ere long we will have an abundant supply of small gold and silver coin to take its place.

The above paragraph, or one of similar im port, says the Lancaster Examiner, has had an extensive circulation through the press, and if uncontradicted will leave an erroneous impression on the public mind. The section put in the appropriation bill in the Senate, forbidding the paying of relief issues out of the State Treasury, was negatived in the House through the direct interference of the State administration. A section was retained, however appropriating the whole of the Sinking Fund ereafter to the redemption of the relief issues, and under its operation, if the administration carries out the law in good faith, they will all be redeemed in about two years. If the other sectionhad been retained they would all have been withdrawn in about one year.

The responsibility of keeping these notes in circulation rests upon the present administration. In his last two annual messages, Gove Bigler professed great anxiety for their speedy cancellation, but when a practical measure proposed, which would effectually accomplish the result he pretends to desire, his anxiety to defeat it is just as great. The facts in this case, as in most others, must convince any candid inquirer that the Governor's objections to a small paper currency are the sheerest humbuge imaginable.

Will not those democratic papers which have circulated the report of the immediate cancelation of the relief issues, have the fairness to inform their readers that Governor Bigler's administration put its veto on that measure?

The Eclipse.

The ectipse of the sun took place on Friday afternoon last at the precise time it was announced to occur, and groups of persons were to be seen in the streets with their smoked glasses enjoying the novel spectacle. All the calculations as to its commencement, duration and appearance proved strictly correct. Here the eclipse was not annular, the visible part of the sun at the period of its greatest obscuration resembling the new moon in shape.—
The eclipse commenced at ten minutes past four o'clock, P. A Revolution in Cuba is talked about in z rather vague manner by various American journals, the information being said to be furnished by private letters from the Island .-One account is, that trouble is caused by the recent decrees of the Captain General in relation to slavery, the slave trade, the elevation of the condition of the slaves and free blacks, etc., in consequence of which the greatest commotion prevails throughout the Island among the white population, so that the Spaniard are joining the insurrectionary party in great numbers. These statements occur in journals which have heretofore favored the Cuban fillibustering attempts. But they also occur in the letters of well informed Washington or correspondents. They cannot be regarded ton correspondents. They cannot be regarded States troops are garrisoning the court house, otherwise than with suspicion, coming, as they do, directly upon the heels of the passage of the Nebraska bill, and serving the useful pur pose of diverting public attention from that enormity.

Over 10,000,000 of bottles have been sold in the U. States, without a single failler, and families have streted that it was worth \$10 per bottle, they never would be without it, in case of Croup, as it is ascertain as it is applied. It cures Toothache in three minutes; Headache in half an hour, and Cholera, when first take', in a few hours. It is perfectly innocental take internally, and has the recommendation of many lof the most eminent Physicians in the United States Price, 25 and 50 cents.

Dr. Poblas has also put up a Liniment for Horses, n, pint bottles, which is warranted-cheaper and better than any other, for the sure of Colle, Galls, Swellings, old Sorse, Cuts, Fruises, Scratches, Cracked Heel, &c. Price, 50 cents.

Dr. Tobias could fit a dozen newspapers with the cartificates and letters received, releting to the wonderful cures accomplished by his Liniment, but considers that warranting it is sufficient, as any person who does not othain relief, need not pay for it. There has been an mach worthless medicine sold to the public, that Dr. Tobias wishes his article to rest on its own merits, and if he gives the value of the money received, then he asks the patronung of the public, not otherwise.

FUGIVIVE SLAVE EXCITEMENT IN BOSTON.

A Deputy Marshal Killed.

We hear it whispered about that an association of the mysterious order of the Know Nothings, which has suddenly grown into such wonderful strength throughout the country, and has turned the schemes of politicians topeytury in so many places, has been organized in Carlislo. We know nothing about it, however. Election time may throw more light upon the movement.

We learn on what we regard as good au-BOSTON, May 26. post will be made a permanent depot for training recruits to fill up broken regiments on the frontiers. The post was visited last week by the Inspector General of the Eastern Department, the veteran Col. Churchill, who has strongly recommended it for this purpose. The Carlisle Barracks is one of the most healthy and economical military posts in the country, and as such admirably a lapted for the purpose mentioned.

This announcement cause.

The Court Square. An attempt was at once made to force open the Court house door, but, owing to the strong fastenings, failed. The leading rioters then went to the west entrance, and by means of heavy planks and stones forced a passage through the panels of the door and by the side windows. Numerous pistols were fired, and the mob became of the most formidable character. The Centre watch house heing in the immediate vicinity, a posse, of determined watchmen dashed in, and succeeded in arresting eight or ten of the leading riodetermined watchmen dashed in, and succeed-ed in arresting eight or ten of the leading rio-ters, after a desperate conflict. This prompt arrest of the ringleaders suppressed furtier violence. The increased police force soon after arrived upon the ground, and stationed themselves at the several entrances of the Court House, and order will probably be preserved during the night.

School-Directors Convention. The feeling continues strong, and a considera-ble crowd surounds the court-house. One of the counsel for the claimant anounces that the latter offers to sell Burns to the abolitionists here. Price not named. All the court rooms are guarded by soldiers. Fears of fur-ther violence are apprehended. The Mayor has issued a proclamation calling on the cit-zens to assist in preserving order—as the law must be obeyed whatever the consequences may be.

During the fugitive slave riot last night Jumes Bachelder, one of the special officers of the U. S. Marshal, was shot dead. He, with other officers, were stationed on the stairs inside the Court House, and was shot immediately after the Western door was stove in.
