During the last season, Mr. Joseph Wilcox, of this town having occasion to administer lime water to a sick horse, he inadvertantly left a pail of the preparation in his barn, which remained there for some months, serving as a favorite drink for his hens. He soon afterwards found that the laying of his hens was apparently increased to a considerable extent. Being convicted of the importance of the new discovery, he has during the present season kept his hens constantly supplied with lime water, placed in troughs within their conven ient access: and the result was an increase in eggs of nearly tour fold, as compared with any

previous experience. He is willing to share the benefits of the experiment with his neighbors, if they chose to try it, and hence this publication.

The newness of the discovery is claimed on ly as applicable to the mode of imparting the lime in this case—its use in any other form for the same purpose having been previously understood by many .- Wayne Sentinel.

This valuable Medicine, which has become eelebrated for the number of extraordinary cures effected through its agency, has induced the proprietors, at the urgent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues and wonderful curative properties. The following certificates selected from a large number, are however, stronger testimony than the mere word of the proprietors; and are all from gentlemen well known in their localities and of the highest respectability many of them residing in the city of Richmond, Va.

JGUE JND FEVER—Great Cure.—I here by certify that for three years I had Ague and Fever of the most violent description. I had several Physicians, took large quantitles of Quinnine, Mercury, and I believe alt the Tonics advertised, but all without any permanent relief. At last I tried Carter's Spanish Mixture, two bottles of which effectually cured me and I am happy to say I have had neither Chills or Fever since. I consider it the best Tonic in the world and the only medicine that ever reached my ease.

Curing Scrofula in its Various Forms! STATEMENT OF REV. E. R. WARREN (Pastor of the 2d Baptist Church, New Londor Ct.), relative to Myers' Exfruct Rose. To The American Public.

As my name has been used in connection with recommendations of Mr. Myers' Roc As my name has been used in connection with recommendations of Mr. Myers' Rock Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my acquaintance with the remedy and tests to which I have subjected it, and the reasons for having introduced it to the notice, of private friends in the community in which I reside, long before the medicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all patent medicines, and sedulously abstanced from recommending them to the public, believing them frequently the spann of quackery and humbug, and as tanding to increase, instead of lessening human disease and suffering. Such, I tear, is the character of a large portion of the patent panaceus of this medicine making age. "Their name is legion," and from their influence, sa from the demoniacal spirits, we have reason to pray for a safe deliverance.

Mr. Z. Lake—Sir: Please send me another outled of Fit Medicine, as I do not like to be without it on hand. When I commenced giving the medicine to my son Edgar, he had from one to three hits per day. The First Test.—I had myself suffered occasionally with sudden attacks of Sick Headache, and Billious Diarrhea, and I had sought a great variety of curative agents to but little purpose; and suffering from this disease (diarrhea) at this time. I determined to test the new Syrup fitst upon myself. The results were beyond my expectations. It was a powerful alterative, and the morbit action of the system was changed, and the functions of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs, and gave me that inestimable blessing—health. This test was not determined in a week, or a month; but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightlyffrom these derangements. My Sick Headache is entirely Cured.

Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time; I was earnefully solicited to give advice in reference to a child,

Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time, I was carnestly solicited to give ordine in solicited to give advice in reference to a child some eight years of age. This child was severely afflicted with a Scrofula humor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly dis-appearing. The child was very sick, and it was thought doubtful whether she would live, The humor resembled black specks of mortified

all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black specks of mortified flesh. In addition to, some other remedies, a gave the child this Syrup for about six weeks, when she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with G. d. blessing, to my remedies.

This test satisfied me that the Rock Ruse possessed specific powers for Scrofulous furnors. I then tested it in cases of Cutane me Eruptions, in Measles, Chicken Pox, Canex, Sore Mouth, Erysipelas, Salt Rheum, Piles, &&. In all these cases with perfect success. After testing this Syrup for more than a year, I wrote Mr. Myers (October 7th, 1850) enthusia astically, not expecting my letter would be published, that his Syrup was a "Pankorite," all-healing, and I gave him the result of its operations in several instances. I stated in that letter that "it was invaluable as a remedy in Cutancous Eruptions, Erysipelas, Sult Rheum, and ather disorders, included in the varied family of diseases known as Scrofula, &c.: that in Dyspopsia it acted with wonderful efficacy." My opinion of its value for the above named diseases, remain unchanged, and the same as when I wrote Mr Myers in Oct. 1850. I do not recommend it for all the ills of our suffering humanity; but I unhesitatingly say, that as a remedy for Scrofulous affections I believe it superior to any known curralize agent. ly say, that as a remedy for Scrofulous affec-tions I believe it superior to any known cura-

The increased interest manifested in the Rock Rose plantain consequence of the many sands of unfortunate creatures from the very Rock Rose plantkin consequence of the many wonderful cures effected by Myers' Compound Extract of Rock Rose,' calls for a brief history of it, in order to correct any errone is opinion that may have been entertained oncerning it; and also to set in a true light the nature of a plant which promises to be univer-

ture of a ptant which promises to be annual sally beneficial.

"We are indebted to the United States Dispensatory of 1847, for the following description of it:

"It is entirely different from the common leading between the common leads to the sall of the lead of the lea Rose. It is a red-stemmed, oblong leat plant, having a bitter taste. In addition to remarkculiarity of the plant of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Euton says, that in the months of Nos vember and December, he has seen hundred-

of these plants, sending out near their roots, broad, thin, curved ice-crystals, about an inch-in breadth: which melted during the day, and were renewed in the morning. For a more minute and authentical description of it, the reader is referred to Toriey and Gray's Botanical works.

Its Medical History and Properties Are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1739, it was so valuable in England, that it was cultivated from seeds. Ever since 1806, Professor Ives of Yale College, has habitually used it with great success in Scrofula and Chronic diseases, and through him its virtues were made known, until, as Dr. Tyler says, "it is now in this section (New Haven) a common article in domestic practice for the cure of Scrofula and Cutaneous diseases."

Dr. Whitlaw, a Sco'ch Botanist of notoriety while travelling in America in 1814, learned its use in Canada. Returning to England, he employed it in medicating his baths, which become greatly celebrated for the cure of simi-

lar diseases.
Dr. J. H. Thompson, of the same place, pre ecribed it in bad cases of Scrofulous patients at Wills Hospital. His success attracted the at wins Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of white swelling of the hip, in February, 1814:—The lad was seven years old, and had the disease three years. The bone was dislocated both upward end outward. There was a large opening in the hip leading to the bone; into which I could thrust my finger. I counted three ulcers. Ho the hip leading to the bone; into which I could thrust my finger. I caunted threa ulcers. He had been under several physicians, who had given him up, I ordered a decoction of Reck Rose. In two days his night sweats coased I then ordered a teaspoonful of Rock Rose threat times a day. Thirty nine days after he was entirely well.

Dr. Webb, of Madison, Ct., testifies to the value of Rock Rose, as evinced in the cure of numerous cases of the Scrofula, especially in children.
