### MAWNY'S Reaping and Mowing Machine

M. C. Eberly's Testimonial in favor of this ex-cellent Machine.

As we live in an age of improvements, and labor saving Machines are getting more and more desirable and needful, I feel it my. duty: to state my experience, and give my caudid opinion, for the benefit of farmers generally, with respect to John H. Manny's Reaping and Muchine.

Mowing Machine.

Early in the spring of 1853, I engaged one of these machines, and during hay and grain harvest, fairly and fully tested its practical operation; and I must say, it went far ahead of my expectation in cutting grain. For although the most of my grain was badly lodged and tangled, yet the machine performed admirably well as grain to a proposel my processes. admirably well, as many of my neighbors can testify who saw it work. In mowing the platform is removed, (which is easily done,) and the machine cuts and

spreads the grass beautifully on the ground I cut both clover and timothy grass with the machine, and it performed exceedingly well. Two horses can work it all day. I understand there are several important improvements made on the machine this year, so that it will

work still better. I have seen other patent Reapers work, but none of them, in my opinion, can compete with Many's. Farmers who are desirous of purchasing this excelent Reaping and Mowing Machine, are informed that they can be had by applying to ISAACSTEEPS & CO. Harris burg, Pa. M. C. EBELLY, Spring Garden Farm, Hampden township, Camberland county.

HARRISBURG, Dec. 14, 1853. We, the undersigned, do certify that we were present at a trial of one of Mannay's Reaping and Mowing Machines in a field be-lonping to Mr. Ramshart, near Harrisburg where some forty or fifty persons were assem-bled together, and that machine performed admirably well and gave very general satisfac-tion, notwiths and in the ground was very rough, and the grain heavy and lodged in places.

## WHITE, SULPHUR AND CHALYBEATE SPRINGS.

AT DOUBLING GAP. These Springs are in Cumberland County, 12 miles west of Carliele, and are now open for the reception of visitors. The valuable improvements which have been made since improvements which have been made since last season, and the recent discovery of the Chalybeate Spring, add greatly to the inducements presented for the present season. ANALYSIS OF THE WHITE SULPHUR AND CHAL-

The odor of Sulphuretted Hydrogen, perceived at some distance from the Springs, imparts to this water the peculiar properties of Sulphur Springs. Beside this ingredient, I find that the water contains Carbonate of Soda and of Magnesia, Glauber's Salt, Eps da and of Anguesia, Glauber's Onit, Epsoin Salt, and Common Salt; ingredients which give it an increased value. After removing the excess of carbonic acid which it contains, it gives an alkaline reaction.

The Chilybeate water readily yields a pre-

cipitate after ebullition or continued exposur-has expelled the excess of carbonic acid. Be side the bicarbonate of Iron, which is its chief characteristic, it also contains Epsom Salt, Common Salt, and Carbonate of Magnesia.

Respectfully Yours,

Parifier of the Blood it is
Unequalled.

The Rock Rose has gained a reputation at
home and abroad, which no other medicine
has ever done in the same length of time.
According to the opinions of eminent Physicians, the Rock Rose Plant is unequalled in Curing Scrofula in its Various Forms STATEMENT OF REV. E. R. WARREN

(Pastor of the 2d Baptist Church, New London, Ct..) relative to Myers' Extract Rose. To The American Public.

To The American Public.

As my name has been used in connection with recommendations of Mr. Myers' Rock Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my sequaint, ance with the remedy and tests to which I have subjected it, and the reasons for having introduced it to the notice of private friends in the community in which I reside, long before the modicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all-patent medicines, and sedulously abstanced from recommending them to the public, believing them frequently the space of guakery and humbug, and as tonding to mercuse, instead of lescening burnan disease and suffering. Such, I fort, is the character of a large portion of the patent panneaus of this medicine making age. "Their name is legion," and from their influence, as from the demoniacal spirite, were reason to pray for a safe deliverance.

The First Twit—I had myself suffored occasionally with sudden a stack of Sick Hosa, after a wariety of curative agents to but little purpose; and suffering from this disease (diarrhean) at this time, I determined to teath the medicine as a summy months. Since that time I have suffered but slightly from these derangements of the digestive organs, and gave that inestimable blegsing—hath. This test was not determined in a week, or a month; but-I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. My Sick Headache is entirely Cured.

Other Tests.—Finding this medicine source of the surface, and the norbir action of the avesual manual face of the surface, and the norbir action of the avesual manual face of the surface responded but slightly from these derangements. My Sick Headache is entirely Cured.

I beg leave to make the following statement with reference to my acquaint ance with the remedy and tests to which I have subjected it, and the reasons for having intro-

severely afflicted with a Scrofula humor, of a very severe type, the humor showing itself on all purts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black specks of mortified flesh. In addition to some other remedies, a gove the child this Syrup for about six weeks, when she had sufficient strength to go out to school occasionally. This test satisfied me that the Rock Ruse possessed specific powers for Scrofulous humors. I then tested it in enses of Cutane us Eruptions, in Measles, Chieken Pox, Cane u, Sore Mouth, Erysipelas, Salt Rheum, Piles, &a. In all these cases with perfect success. After testing this Syrup for more than a year, I wrote Mr. Myers (October 7tn, 1850) enthusia astically, not expecting my letter would be published, that his Syrup was a "Pankorito," all healing, and I gave him the result of its operations in several instances. Rose. It is a red-stemmed, oblong leat plant, having a bitter taste. In addition to remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has ano-ther interesting and beautiful property. Dr. Eston says, that in the months of Nosvember and December, he has seen hundred-of these plants, sending out near their roots, broad, thin, curved ice-crystals, about an inch in breadth: which melted during the day, and were renewed in the morning. Dr. Whittaw, a Senich Botanist of netoricity while travelling in America in 1814, learned its use in Canada. Returning to England, he employed it in medicating his baths, which become greatly celebrated for the cure of similar discrete.

Dr. J. H. Thompson, of the same place, pre-scribed it in bad cases of Scrofulous putients at Wills Hospital. His success attracted the scribed it in bad cases of Scrofulous putients at Wills' Hospital. His sucress attracted the attention of senior physicians. He reports the following remarkable case of white swelling of the hip, in February, 1814;—The lad was seven years old, and had the disease three years. The bone was dislocated both upward and outward. There was a large opening in the hip leading to the bone; into which I could threat my finger. I counted three ulcers. He had been under several physicians, who had given him up, I ordered a decoction of Rock Rose. In two days his night-sweats-cased I then ordered a tenspoonful of Rock Rose three times a day. Thirty nine days after he was entirely well.

Dr. Welth, of Madison, Ci., testifies to the value of Rock Rose, as evinced in the cure of numerous cases of the Serofula, especially in children:
