The practice among furmers of permitting grass to stand in most cases until the seeds are formed, and not unfrequently until they are ripe, is so general that it seems almost folly to call in question its correctness; but it is so manifestly at variance with reason and analogy, and when the experience of those who have thoroughly tested the merits of early and late cut hay, that it may be worth an effort to arrest the popular custom.

Science has long since incontestably demonstrated that plants arriving at maturity have large quantities of their starch, sugar and gum -their most neutritive elements-converted into wooden fibre, with comparitively very little nutriment. · Experience has proved that cattle will thrive

on hay out before the seeds were formed, while the same cattle when fed on larger quantities off the same kind of hay, but out after the seeds were ripe required the addition of grain to keep them up.'

Again: When the experiments of making sugar from corn stalks were being tried some years ago, it was found that to retain the sacharine matter in the stalks, the ear shoots had to be stripped off as soon as they made their appearance, or they became worthless, The moment the cars or seeds commenced forming, the starch, gum and sugar left the stalk and became consentrated in the grain, and of course the stalks to the sugar maker are worthless This observation and reason has taught man.

The instinct of animals-na unerring

guide as to what is best suited to their wants -leads them to prefer the early to the late cut hay, as every observing farmer is aware. Even ween in pasture they invariably leave the rips e talks and eat only the younger shoots, althouh they may have to pick it blade by blade, and are compelled to be constantly feeding to get a sufficient quantity, while the ripe grass stands thick, affording abundance in quantity. The proper time to cut grass, I repeat, is when the head begins to bloom. It will not make as much hay, but an acre thus dut is more nutritious, and will go much farther in keeping stock than if left for the seeds to ripen. Any one who will try this experiment will never again leave it to ripen, although by so doing he may save himself some trouble in the making. J. G.

HARDWARE--FRESH ARRIVAL! HENRY SAXTON.

THE subscriber having returned from the city would call the attention of his friends and the public gaerally to the large and well selected assortment of Hardware which he has just received, consisting in part of

BUILDING MATERIALS.

BUILDING MATERIALS, until, serws, hinges, lucks, bolts; ass, putty, paints, oils, &c. TOOLS—'adge tools; saws and planes of every description, with file, rasps, hammers, anvils, &c. A general assortment of SHOEMAKERS & SADDLERS TOOLS, ogether with morocco, hining and binding skins, shoe thread, wax, pcgs, lasts, harness mounting, saddletrees, &c. COACH TRIMMING-canvass (plain, en-

amelled, figured and embossed,) patent and en Eamelled leather, axles, springs, hubs, spoke felloes, shatts, &c, &c. Spanish Mixture, that he has bought newards of S0 tottes which his given away to the afficient. Mr Luck says he has never known to fail when taken according to directions. Dr MiNCE a practising physican and former by of the City Hotel in the city of Richmond, says he has witnessed in a number of instances the effects of Carter's Spanish Mixture which were most truly aurtrising. He says in a case of Consumption, dependent on the Liver, the good effects were wonderful indeed. SAMUEL M DRINKER of the firm Drinker & Morris, Richmond, was cured of Liver Complaint of 8 years standing by the use of two bottles of Carter's Spanish Mixture. GREAT CURE OF SCROFULA—The editors of the Richmond Republican had a servant employed in their press room cured of violent Serofula combined with Rheumatism, which entirely disabled him from work. Two bottles of Carter's Spanish Mixture made a perfect cure of him, and the editors in a public notice say they "cheeffelly recommend it to all who are afflicted with any disease of the blood"

STILL ANOTHER CURE OF SCROFULA—In a very valuable boy cured of Serofula by Carter's Spanish Mixture. I consider it truly a valuable medicine: James M 1 Aylor Conductor on the R.F & P. R. C. O. Rickmond Valuand his cure is most remarkable.

READ AND BE CONVINCED. Testiniony of the highest character! HON. GEO STROOP, Judge of the District Court in Perry county, Pa., Nov. 18th, 1862 said: "your Perry county, Pa., Nov. 18th, 1852 said: "gour 'Hoofland's German Bitters' has been in use in our place over a year post, and to the astonishment of many has performed wonders. We may notice a few instances that have come under own immediate notice:-almost every erson who has stopped at the hotel of Wn Lackey, one year since, preducted from hise-macinted countenance and debility, that he could not live much longer. He was unable to attend to his buinces, and for the greater part of the time confined to his room. We recpart of the time contined to his room. We recommended him to try the German Bitters; he did; and to the surprise of all his friends he is now able to uttend to his usual business and row able to uttend to his usual business. REYSTONE DRY GOODS STORE, Aspera stone mason, whom no one supposed would ever recover from the debility of his system, but was looked upon as fast approach ing the grave, took eight or nine bottles of the Bitters during the lust winter, and this sommer he has been fto the surprise of all who knew his case! following his trade. The case of William Murphy is no less astonishing.—
He too was so fur reduced us to induce the general bolief that the grave alone would be his only remedy. Mr. Lackey recommended him to tgy the Hoofland's German Butters; he is now apparently a well man, and able to do a hard day's work. We could mention many ther eases of a similar character, if it were necessary. I myself derived much benefit from their use. I have given considerable of it arway, not for your benefit alone, but the relieve suffering humanity, and let me assure you I am pleased to see the happy result. To the ufflicted we say, try them fairly and I will warrant relief."

These Bitters are worthy the attention of

it valids, possessing great power in the restoration of a healthy action of the liver and the lesser glands, giving tone to the stomach and nervous system, and bringing the system gen nervous system, and oringing the system generally to a high state o, health.

Medicines

"PANKORPTE." MYERS' EXTRACT OF ROCK ROSE An Invaluable Remedy for all Scrofulous Dis-eases, L. digestion, Salt Rheum, Sick Heud-

ache, Cancer, Nursing Sore Mouth, and General Debility, and as a Purifier of the Blood it is Unequalled. The Rock Rose has gained a reputation at home and abroad, which no other medicine has ever done in the same length of time. According to the opinions of enument Physicians, the Rock Rose Plant is unequalled in Curing Scrofula in its Various Forms!

STATEMENT OF REV. E. R. WARREN (Pastor of the 2d Baptist Church, New London Ct.) relative to Myers' Extract Rose. To The American Public. As my name has been used in connection ith recommendations of Mr. Myers' Rock

As my name has been used in connection with recommendations of Mr. Myors' Rock Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my acquaint ance with the remedy and tests to which I have subjected it, and the reasons for having introduced it to the notice of private friends in the community in which I reside, long before the medicine, was advertised. I make this statement with reference in my accuse I have, as a principle, withheld my name from all patent medicines, and sodulously abstained from recommending them to the public, believing them frequently the spawn of quackery and humbug, and as tending to increase, instead of lessening human disease and suffering. Such, I fear, is the character of a large portion of the patent panaces of this medicine making age. "Thoir name is legion," and from their influence, so from the demoniceal spirits, we have reason

cease of this medicine making age. "Thoir name is legion," and from their influence, sa from the demoniscal spirits, we have reason to pray for a safe deliverance.

The First Test.—I had myself suffered occasionally with sudden attacks of Sick Header, and Billidus Diarrhea, and I had sought a great variety of curative agents to but little purpose; and suffering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon myself. The results were beyond my expectations. It was a powerful alterative, and the functions of secretion were restored to a healthy state. It gave tone and clasticity to my system, and corrected the derangement of the digestive organs, and gave me that inestimable blessing—health. This test was not determined in a week, or a month; but I took four, or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements? My Sick Headache is entirely Cured.

Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time, I was carnessly solicited to give advice in reference to a child.

E F WELLER, traveling agent.

Other Tests.—Finding this medicine so useful to myself, I at once gave at to several invalid friends. About this time, I was carnestly solicited to give advice in reference to a child, some eight years of age. This child was severely afflicted with a Scrofula humor, of a sowerely afflicted with a Serotum numer.

very severe type, the hunter showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she wfold live. The humor resembled black specks of mortified flesh. In addition to some other remedies, a gave the child this Syrup for about six weeks, when she had sufficient strongth to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with Gui's blessing, to my remedies.

This test satisfied me that the Rock Ruse

This test satisfied me that the Rock Ruse

This test satisfied me that the Rock Ruse

This cease of Females, in least of the Diseases of Females, in least of face page 190),

This test satisfied me that the Rock Ruse passessed specific powers for Serofillous harmors. I then tested it in cases of Cutanons Eruptions. In Measles, Chicken Pox. Cangus, Sore Month, Erysipelas, Salt Rheum, Piles, & G. In all these cases with perfect success. After testing this Syrup for more than a year, I wrote Mr. Myers (October 7th, 1850) enthusis astically, not expecting my letter would be published, that his Syrup was a "Parkorite," all-healing, and I gave him the result of its operations in several instances. I stated in that letter that "it was, invaluable as a remedy in Cutaneous Eruptions, Erysipelas, Salt Rheum, and ather disorders, included in the varied family of diseases known as Scrofola, &c. that in Dyspopsia it acted with wonderful efficacy." My opinion of its value for the above named diseases, remain mechanged, and the same as when I wrote Mr Myers in Oct. 1850. I do not recommend it for all the ills of our suffering humanity; but lunhesitutingly say, that as a remedy for Scrofilous affections at believe with amperior to any known curaly say, that as a remedy for Scrofulous affections I believe it superior to any known cura-

ion that may have been entertained oncerning it; and also to set in a true light the nature of a plant which promises to be universally beneficial.

"We are indebted to the United States Dispension of 1847, for the following descriptions of 1847, vember and December, he has seen hundred of those plants, sending out near their roots broad, thin, curved ice-crystals, about an incl in breadth: which melted during the day, and were renewed in the morning. For a more minute and authentical description of it, the render is referred to Torrey and Gray's Botan-

Its Medical History and Properties Are far the most important, since upon these depends its value to the community. Dr. London save that in 1799, it was so valuable in England, that it was cultivated from seeds. Ever since 1806, Professor Ives of Yale College, has habitually used it with great success n Scrofula and Chronic diseases, and through him its virtues were made known, until, as Dr. Tyler says, "it is now in this section (New Haven) a common afticle in democratic practice for the cure of Scrafula and Cutaneous dis-

Dr. Whitlaw, a Sco ch Botanist of notoriety while traveiling in America in 1814, learned its use in Canada. Returning to England, he employed it in middleating his baths, which become greatly celebrated for the cure of simi-

Dr. J. H. Thompson, of the same place, preecribed it in had cases of Scrofulous putients at Wills' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of white swelling of following remarkable case of white swelling of the hip, in February, 1814:—The lad was seven years old, and had the disease three years. The bone was dislocated both upward end outward. There was a large opening in the hip leading to the hone; into which I could thrust my finger. I counted three cleers. He had been under several physicians, who had given him up. I ordered a decoction of Reck Ross. In two days his night sweats ceased I then ordered a teaspoonful of Rock Ross three times a day. Thirty wing days after he was thines a day. Thirty nine days after he was entirely well.

Dr. Wehh, of Madison, Cl., testifies to the value of Ruck Rose, as evinced in the cure of numerous cases of the Scrofula, especially in

children. 'Manufactured by W'm Franklin & Co., New Manufactured by Haven, Ct.

Mr. Warren, though a minister of the Gospel, has for a period of 15 years, given attention to the subject of medical science, to qualify him to administer to the sick, in connection

with his pastoral duties. EDWIN R. WARREN, New London. April 2, 1858. New London. April 2, 1858.
