THE DRUNKARD'S CLOAR .- In the time Oliver Cromwell, the magistrates in the nort of England punished drunkards by makin them carry what is called the 'Drunkard' Cloak,' This was a large barrel, with or head out, and a hole in the other, throug which the offender was made to put his head while his hands were drawn through two small holes, one on each side. With this he was compelled to march along the public streets. What a strange sight it would be were all the drunkards now-a-days compelled to march about wearing barrels for cloaks.

HORRIBLE INFANTICIDE .- The English papers give the defails of the myrder of a whole family of children six iunumber, by their mother, Mrs. Brough, once the nurse of the present Prince of Wales, and well known to the royal household, and also to the royal French exiles at Claremont. The children had been suffer. ing from measles, the oldest about eleven, and the mother appears to have been laboring under temporary insanity, induced probably by constant watching. The docd was committed with a razor, and the wreched woman after wards attempted to cut her own throat.

were talking about little babies. "Why," said Mistress Snooks, "when I was a baby, they put me in a quart pot, and then put the lid on.' "And did you live," was the astonishing

inquiry of Mistress Stubbs. "They tell me I did !" was the very aston

ishing reply of Mistress Snooks. "Well, did you ever ?" and Mistress Stubb fell to knitting like one possessed.

Why don't you get married ?' said a young lady, the other day, to a bachelor friend, 'I have been trying for the last ten years to find some one who would be silly enough to have me,' was the reply. 'I guess you haven't been up our way,' was the insinuating reply.

I had myself suffered oc-casionally with sudden attacks of Sick Head-ache, and Billious Diarrhea, and I had sought a great variety of curative agents to but little purpose; and suffering from this disease (diar-rhea) at this time, I determined to test the new Syrup first upon myself. The results were bo-yood my expectations. It was a powerful alterative, and the morbid action of the system was changed, and the functions of secretion and elasticity to my system, and corrected the derangement of the digestive organs, and gave tast was not determined in a week, or a month-but I took four or five bottles in perhops as many months.
