# HORRIBLE RAIL ROAD ACCIDENT.

One of the most terrible railroad accidents ever witnessed in this country took place on the 14th of August. The time now fixed was he Baltimore and Susquehanna Railroad on the evening of the 4th, near Rider's Grove, about nine miles from the city. A correspondent of the American, who was on one of the trains, furnishes the following particulars:

At 25 minutes past 4 o'clock on Tuesday af-ternoon the regular train for York left Calvert station, Baltimore, consisting of four passenstation, Baltimere, consisting of four passen-ger cars, and a baggage car—all with the ex-tion of the last our well filled with passengers. Mr. William Scott was conductor, accompanied by Mr. Hollins, a d other officers of the road, who were repairing to Rider's Grove to assist in the arrangements for the safe return of the excursionists. The road being now supposed to be clear, the York train again took the main track, and proceeded on, and had scarcely got under way, when, about three quarters of a mile from the Relay, and about a mile from Rider's a terrible crash, accompanied by a rush of steam, brought all who were uninjured to their feet, and on escaping from the wrecked care. most beart rending scene presented itself. that it is impossible to describe in all its hor

### THE SUNDAY LAW.

This law is becoming very popular. Al brough the country there seems to be a gen e al movement in favor of closing the taverns and drinking houses on the Sabbath. Many houses are conforming voluntarily to the new order of things, and find the loss but trifling which is fully balanced by the gain in being rid of a multitude of loungers with whom they were previously bored. If the decision of the Supreme Court stands for law, as undoubtedly it must, all tayern bars must close on that lay of the week, or the keepers be liable to in dictment for selling liquor without license.

Mr. Olds's new Postage bill, which assed the House last week, does not increase the rates of letter postage in the manner that was reported. It establishes the uniform rate of three cents for letters carried within 3,000 miles, and makes pre payment of postage in all cares, obligatory-after the 1st of January with the dead, dying and wounded, all wedged together in one mass with the fragments of t c cars and the seats, so completely that it required a full hour's time and the use of axes thus abolished. Judging by the embracing in some districts of the county one we think we are safe in asserting that the mafigure, but just now it looks as if Locofocoism would have to put up with it.

From Lancaster, we learn that the disaffec. tion of the opposition is wide spread and general. Reah Frazer, the noted Democratic 'war horse' of the 'old guard,' is said to be down upon Bigler in the fiercest kind of style, and will carry with him a very large number of his friends. Lancaster county is reported to us by a couple of active politicians, direct from that Whig stronghold, as good for seven Co., Md. thousand majority for Pollock.
