GOLD BEATING .- Of all metallic substance upon which man exercises his manufacturing ingenuity, there is probably none which admits of being wrought to so extraordinary a degree of fineness as gold. The process of beating gold is a very nice as well as curious operation. One of the most important preliminary steps to this process, is to alloy the gold-for it is found that a minute per centage of silver and copper is necessary in order to impart to it a sufficient malleability. The gold and its alloy are melted together, and then are moulded into ingots, which are flattened out by heavy rollers, into thin sheets, about four times as thick as ordinary printing paper. These thin sheets are then divided into pieces of about an inch square, and one hundred and fifty of these pieces are interleaved with as many vellum leaves, four inches square, and are then beaten with a heavy hammer until the gold has expanded to the size of the vellum. The pieces of gold are then huartered, and after having being interleaved with six hundred pieces of gold benter's skin (which is a very tough membrane procured from the intestines of the ox) are packed one upon each other, and are again, subjected to a more careful heating, with a lighter hammer, until the gold has again expanded as far as its envelope will admit. This proces of dividing and hammering is repeated several times, until finally a gold leaf is produced, which is about one eightcenth-thousandth of an inch in thickness. Thus for a few guineas a large room might be carpeted with gold.

TATEMENT OF REV. E. R. WARREN Pasflor of the 2d Baptist Church, New London. Ct.) relative to Myers' Extract Rose. To The American Public.

From Mrs. Brooks, widow of Maj. Jas. Brooks, late of Councaut, G.

To The American Public. As ny name; has been used in connection ith recommendations of Mr. Myers' Ruck Rose Syrup, in various advertisements by the insufacturer, I beg leave to make the follow-ig statement with reference to my sequaint-nce with the remedy and tests to which I have ubjected it, and the reasons for having intro-used it to the notice of private friends in the manunity in which I reside, long before the need in to the notice of private friends in the modeline was advertised. I make this state-ment freely, because I have, as a principle, withheld my name from all pateit medicines, and sedulously abstanced from recommending them to the public, believing them frequently the spann of quackery and humbug, and as inding to mercase, instead of lessening human disease and suffering. Such, I fear, is the tharacter of a large portion of the patent pana-beas of this medicine-making age. "Their name is legion," and from their influence, sa from the demoniacal spirit, we have reason to pray for a safe deliverance. The First Tay-to-I had myself enformed on Inter of Conneaut, C. CONNEAUT, Feb. 5, 1853. Mr. Z. LAKE-Sir: Please seid me another bottle of Fit Medicine, as 1 do not like to be without it on hand. When I commenced giving the medicine to my son Edgar, he had from one to three fits per day. He has now taken the me-dicine over five months, and has had, I think, but two fits in that the , aid those very light. His body and mind are very much improved; stud by the belosing of God, I feel that the medicine will restore his body and mind to their wonted netivi-ty. He is 23 years old, and has had fits over 12 years, which have been very frequent, and very destructive to his constitution and mind Hun-tro dollars have been expended for medicine to "coune Firs," but nothing has relieved him un-til he used your medicine. Respectivity yours, POLLY BROUKS.

bees of this medicine-making age. "Their ison Landon, County Superintendent of the amount is legion," and from their influence, as from the demoniacal spirits, we have reason to pray for a safe deliverance.
The Frist T:st.-I had myself suffered occasionally with sudden attacks of Sick Head ache, and Billious Diarrhea, and I had sought a great variety of curative segnets to but little purpose; and suffering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon myself. The results were beyond my expectations. It was a powerful alterative, and the morbi' action of the system was changed, "and the functions of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs, and gave me that insettimable blessing—health. This test was not determined in a week, or a monthy but I took four or five bottles in perlings as many months. Since that time I have suffer the inequisitie organe, and gave for to keeks. My Sick Headache is eptirely Cured.
Other Tests.—Finding this medicine so uses for lo myself, I at once gave it to soveral invertid fit riends. AWONT this time, I was earnestly solicited to give advice in reference to a child, some eight years of age. This child was severely afflicted with a: Scrofula humor, of a very severe type, the humor showing itself on all parts of the surface, and then sudely disting the surface and the surface.

all parts of the surface, and then suddenly dia appearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black specks of mortified flesh. In addition to some other remedies, a give the child this Syrup for about six weeks, whan she had sufficient strength to go ont to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with Gud's bleesing, to my remedies. This test satisfied me that the Rock Rure posseessed specific powers for Serofulous hu-mors. I then tested it in cases of Chaneous Eruptions, in Measles, Chicken Pox. Cane r, Sore Mooth, Erysipelas, Sall Rheam, Piles, Na testing this Syrup for more than a year, wrote Mr. Myers (October 7th, 1850) enthusis astically, not expecting my letter would be published, that his Syrup was a "Pankorite," all.healing, and t gave him the result of its operations in several instances. I stated in that letter that "it was invaldable as a remedy ful efficacy." My opinion of its value for the varied family of diseases, remain unchanged, and the same as when I wrote Mr Myers in Octi 1850. I do not recommend at for all the iting for ure uffering humanity; but I unhesitating iy say, that as a remedy for Serofulous after tions I believe it superior to any known cura-tive agent. It has been sufficiently tested by domestic ions I believe it superior to any known cura-tive agent.

They immediately in polite terms, asked her to accompany them, and they carried her off to the Prefecture of Police. Main d'Or made no attempt to deny her guilt, but said it was her first offence, and that she had only recent ly arrived from Holland, where her husband died a short time ago. The history of this wo man is very curious. She married at the ear ly age of 15, and immediately took to thieving Her success was such that she and her hus hand lived in a fine hotel and kent a carriage and pair. After his death she lived with sev eral eminent thieves, most of whom are now in jail. Her age is about 67, and for upwards of 50 years she has constantly practiced thiev ing. In the course of that time she has fre quently been condemned in France and also it Switzerland, Germany, Italy, Holland, and other countries.

A Poon MAN's WISH .--- I asked a student Swhat three things he most wished, and he said?

"Give me health, books, and quiet, and l ask for nothing more." I asked a miser, and he said, "money-mo

ney." I asked a drunkard, and he loudly cried for strong drink.

I asked the multitude around me, and they lifted up a confused cry, in which were the words "wealth, fame and pleasure."

I asked a poor man, who had long borne the character of an experienced Christian; he re-

plied that all his wishes could be met in Christ. He spoke seriously, and I asked him to ex. plain. He said:

"I greatly desire these three things-first that I may be found in Christ; secondly, that I may be like Christ; thirdly, that I may be with Christ,"

I have thought much of his answer, and the more I think of it, the wiser it seems.
