PULLING OFF CORN SUCKERS,

We have read several articles about the pro priety of pulling off the suckers of the growing corn, but we have never yet been satisfied that any practical argument was offered on either side in favor of one or the other. We desire nevertheless, that our readers should possess all the information on the subject ap pearing to have weight, and with this view, we add the following to that already published in our columns, which we find in the Albany Cultingtor, communicated by II. W. Scram, of Sand Lake, New York. He says :-

I noticed an inquiry with regard to the propriety of pulling off from the Indian corn the scions commonly called suckers. In my opinion, neither do the advocates for pulling off, no thuse for allowing them to remain, give cor rest reasons for their practice. Indeed, I have never known a farmer intelligent on this subject, nor have Lany confidence in the article referred to will-lead to any practical results A little observation and science will give us more useful information on this subject, than years of experiment without it. That the suckers have an important office to perform in the production of the corn crop, and therefore should be allowed to remain, will, I think, appear from the following consideration. The Indian corn, (Zen mays) is a moniccious plant, that is the staminate and pistillate blossoms

occupy different positions on the same plant. The tassel, as it is commonly called, is the staminate blossom, and furnishes the pollen by which the silk is impregnated, and the new kernel is produced. The cob which bears the silk or pistillate blossoms, is in process of elongation after the pollon or dust has disappeared from the tassel. Just at the point where more pollen is needed to impregnate the silk at the end of the cob, the suckers and abortion stalks supply it thus filling out the cob with kernels to the very top or end. Where the suckers have been pulled off, it will be found that one or two inches of the cob is barren, thus causing quite a diminution of the crop. What amount of diminution the crop may suffer I am not able to say definitely, but give it as my opinion at least, from a 12th to a 15th part. If these suggestions appear of any value you are at liberty to publish them, hoping they may be remembered till ano--ther vear comes round.

Guas.-Holmes, in- one of his poems says in a parenthetical way.

Loved girls when he was young.'

.No doubt of it, for Holmes is a sensible man, and must have had a sensible grandfather .-All sensible men love girls when they are young, and when they are old too. We apply the "old" to the men, not the girls-mind you Girlhood is an institution—"a peculiar institu tion"-which as lovers of the "union" we feel bound to cherish, and as to the girls, large and small, we hold that no gentleman's family is complete without them. Of little girls an A merican says:

"With rosy cheeks, and merry dancing curls, And eyes of tender light,
O very-beautiful are-little-girls,

And goodly to the sight. And as to large girls-"big, bouncing girls"what a pity it is that they must soon be "wo men"-stately, matronly, queenly women, who are only not angels because they are notgirls !-who, by the by, are angles either, but vastly more charming than any members of the augelic host than we remember to have seen in the pictures or elswhere! Indeed they are. - Boston Post.

A HAPPY OLD FARMER .- Said a venerable farmer, 80 years of age, to a relative who lately vis ted him-" I have lived on this farm more than half a contury A have no desire to change my residence as long as I live on earth. I have no wish to be any richer than I now am I have worshiped the God of my fathers with the same people for more than forty years During that period I have scarcely ever been absent from the sanctuary on the Sabbath, and never lost more than one communion season I have never been confined to my bed of sickness for a single day. The blessings of God have been richly spread around me, and I have made up my mind long ago, that if I wished to be any happier, I must have more religion.

The Montgomery Ala. Mail says: steambout friend of ours tlet off' one as follows the other day, just after the steamboat Mag. nolin arrived: 'A good looking fellow stopped all last week at Major Bell's hotel, at Cahaba, and ordered his baggage down to the boat, and went down himself, without paying his bill .-Said the Major, 'Sir you must not leave without paying your bill. I can't afford to hire servants, and pay for provisions and board people for nothing ?' 'You can't!' Well why in thunder, then, dont you sell out to somebody, that CAN?' Our informant's anxious to chalk that man's hat, both ways, as a slight tribute of respect for his magnificent impudence.

BEA A sedate old blacksmith, originally hailing from the Keystone State, but who had long made his residence among the tabernacles of the Buckeyes, was expatiating to an admiring auditory on the Pennsylvania anti-railroad policy, and wound up as follows: 'Ya-a-s these railroads are bad things. In my younge days Pennsylvanians had to travel on horseback ten or twenty days to reach Ohio, and then they larned something on the way; now the railroads carry them in as many hours, and set them down as green as when they started!-Ya-a-s railroads are bad things !

REFA Darkey, having been to California, thus speaks of his introduction, to San Franofsco: "As soon as day landed in do riber, dar moufs watered to be on de land, and as dey waded to do shore, dey didn't find no gold, but dey found such a large supply of nuffin to eat, dat dar gums cracked like baked dlay in a brick-yard."

Mar An old lady, down East, having kept a hired man on liver nearly a month, said to him one day, "Why, John, I don't think you like liver. "Oh, yes," said Charles, "I like it very well for fifty or sixty meals, but I don't think I'd like it as a steady diet !" The old lady cooked tomething else for the next meal.

A lover once wrote to a lady who had rejected him, saying that he intended to live tire to some secluded spot and breathe away his life in sighs." To which the lady replied by inquiring whether they were to be medium or large size? The man has not since been

THE GREAT PURIFIER OF THE BLOOD. Not a Particle of Morcury in it.

An intallible remedy for Scrofula, King's Evil.

theumatism, Obstinate Cutmocus, Eruptions. An infatting evenery to see Journ, and a Richard and Court and the Richard and Court a

enry, hipprudence in LHe, or Impurity of the Blood.

This valuable Medicine, which has become celebrated for the induber of extraordinary enrys, effected through its agency, has induced the proprietors, at the urgent request of their friends, to offer it to the public, which there do with the utmost confidence in its virtues and wonderful curative properties. The following certificates selected from a large number, are its wever, stronger testimony than the mere word of the proprietors; and are all from generations well known in their localities and of the highest respectability many of their residing in the city, of Richmond, Va.

F. HOYDEN, Esq. of the Exclange Hotel, Richmond, known every where, says he had seen the Medicine called Carrars Spanish Mixture administered in over a hundred cases, in nearly, all the disease for which it is recommicalled with the most astonishingly good residus.

nearly all the diseases for which is recommended with the most astonishingly good results.—
He says it is the most extraordinary medicine

He says it is the most extraordinary medicine' he has ever seen.

AGUE AND FEVER—Great Cure.—I here by certify that for three years I had Ague and Fever of the most violent description. I had several Physicians, took large quantities of Quinine, Mercury, and I believe all the Tonios advertised, but all without any permanent relief.

At last I tried Carter's Spanish Mixture, two bottles of which effectually cured me and I am happy to say I have had neither Chills or Fever since. I consider it the best Tonio in the world, and the only medicine that ever reashed my ease.

since. I consider it the best Tonic in the world and the only medicine that ever reached my ease. JOHN LONGDEN.

Beaver dam near Richmond Va.

G B LUCK Esq now in the city of Richmond and for many years in the Post Office, has such confidence in the astonishing efficacy of Carter's Spanish Mixture, that he has bought upwards of 50 bottles which has given away to the afflicted. Mr Luck says he has never known it to fail when taken according to directions.

Dr MINGE-a prefixing upwaran and former.

spanish Mixture, that he has bought upwerds of 50 hottles which has given newly 10, the afflicted Mr Luck says be has never known it to fail when taken according to directions

"The MINCE-a preteining physican and formerly of the City Hotel in the city, of Richmond, says he has witnessed in a number of instances the effects of Carter's Spanish Mixture which were most truly surprising. He says in a case of Consumption, dependent on- the Liver, the good effects were wonderful indeed.

SANUEL M DRINKER of the firm Drinker & Morris, Richmond, was cured of Liver Complaint of 8 years standing by the use of two bottles of Carter's Spanish Mixture.

GREAT CURE OF SCROPULA—The editors of the Richmond Republican had a servant employed in their press room cured of violent Serofula combined with Rheumatism, which ensirely disabled him from work. Two bottles of Carter's Spanish Mixture. Two bottles of Carter's Spanish Mixture and a perfect cure of him, and the editors in a public notice say they "cheerfully recommend it to all who are afflicted with any disense of the blood"

STILL ANOTHER CURE-OF SCROPULA—I be faired with any disense of the blood "STILL ANOTHER CURE-OF SCROPULA—I had a very valumble boy cured of Serofula by Garter's Spanish Mixture. I consider it ruly a will be faithfully and promptly attended to—Orders from Physicians of the city would not cure. Mr Thompson is a well known merchant in the city of Richmond, was cured by three bottles of Carter's Spanish Mixture. I consider it ruly a nearly 20 yers, and which all the physicians of the city would not cure. Mr Thompson is a well known merchant in the city of Richmond, va.

"Two Dyott's Exconsol Va and his cure is most remarkable."

CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN BITTERS,

DR, C. M. JACKSON, No. 120 Arch Street, Philadelphia. No. 120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed. These Bitters are worthy the attention of invalid. Possessing great virtues in the rectification of diseases of the Liver and lesser alands, exercising the most sarching anyward. glands, exercising the most searching powers in weakness and affections of the digestive or gais, they are withal safe, certain and pleas-

READ AND BE CONVINCED. Testimony of the highest character! HON. GEO STROOP, Judge of the District Court in Perry county, Pa., Nov. 18th, 1852 enid: "your 'Hoofland's German Bitters' has been in use in our place over a year past, and to the astenshment of many has performed wonders. We may notice a few instances that have come may notice a few instances that have come under own immediate notice:—almost overy person who has stopped at the hotel of Wm. Lackey, one year since, predicted from his emacinted countenance and debility, that he could not live much longer. He was unable to attend to his buiness, and for the greater part of the time confined to his room. We recommended him to try the German Bitters; he did and to the sprogress of all his friends he is ommended him to try the German Bitters; he did; and to the surprise of all, his friends he is now able to attend to his usual business and perform manual labor. The case of Henry Asper a stone mason, whom no one supposed would ever recover from the debility of, his system, but was looked upon as fast approaching the grave, took eight or pine bettles of the Bitters during the last winter, and this summer he has been to the surprise of all who knew, his case following, his trade. The case of William Murphy is no less astenishing.

He too was so far reduced as to induce the general belief that the grave alone would be his only remedy. Mr. Lackey recommended him to try the Hoofland's German Bitters; he is now apparently a well man, and able ta do a hard day's work. Wo-could mention many other cases of a similar character, if it were other cases of a similar character, if it were other cases of a similar character, if it were necessary. I myself derived much benefit from their use. I have given considerable of it u-way, not for your benefit alone, but to relieve suffering humanity, and let me assure you I am pleased to see the happy result. To the afflicted we say, try them fairly and I will warrant relief."

These Bitters are worthy the attention of invalids, pussessing great power in the restoration of a healthy action of the liver and the

ration of a healthy action of the fiver and the lesser glands, giving tone to the stomach and nervous system, and bringing the system generally to a high state c, health.

Medicines.

PANKORITE."

MYERS' EXTRACT OF ROCK ROSE, A. Invaluable Remedy for all Scrofulous Die cases, Indigestion, Satt Rheum, Sick Head-

dake, Cancer, Nati atheum, Sick Headdake, Cancer, Nursing Sore Mouth,
and General Debility, and as a
Purifier of the Blood it is
Unequalled.
The Rock Rose has gained a reputation at
one and abroad, which no other medicine has ever done; in the same length of time.
According to the opinions of eminent Physicians, the Rock Rose Plant is unequalled in Curing *crofula in its Various Forms? STATEMENT OF REV. E. R. WARREN

(Pastor of the 2d Baptist Church, New London, Ct.) relative to Myers' Extract Rose. To The American Public. To The American Public.

As my name has been used in connection with recommendations of Mr. Myers' Rock Rose Syrup; in various advertisements by the manufacturer; I beg leave to make the following statement with reference to my acquaint ance with the remedy and tests to which I have subjected it, and the reasons for having introduced it to the notice of private friends in the community in which I reside, long before the medicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all patent medicines, and sodulously obstanced from recommending them to the public, believing them frequently the spawn of guackery and humbug, and as tending to increase, instead of lessening human disease and suffering. Such, I fear, is the character of a large portion of the patent panaceas of this medicine-making age. "Their disease and suffering. Such, I fear, is the character of a large portion of the patent panaceas of this medicine making age. "Their name is legion," and from their influence, so from the demoniacel spirits, we have reason to pray for a safe deliverance.

The First T-st.—I had myself suffered occasionally with sudden attacks of Six Heat.

ceas of this medicine making age. Their name is legion," and from their influence, so from the demoniacel spirits, we have reason to pray for a safe deliverance.

The First Test.—I had mysolf suffered occasionally with sudden attacks of Sick Hoadache, and Billious Diarrhea, and I had sought a great variety of carative agents to but little purpose; and suffering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon mysolf. The results were beyond my expectations. It was a powerful alterative, and the morbid action of the system was changed, and the functions of secretion were rostored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs, and gave me that inestimable blessing—health. This test was not determined in a week, or a month, but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. My Sick Headache is entirely Cured.

Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time, I was carnestly solicited to give advice in reference to achild, some eight years of age. This child was severely afflicted with a Scrofula humor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly diaappearing. The child was very sick, and it was thought doubtful whether she would live, The humor resembled black speeks of mortified flesh. In addition to some other remedies, a

were type, the humor showing itself on all parts of the surface, and then suddenly dia appearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black specks of mortified flesh. In addition to some other remedies, a gave the child this Syrup for about six weeks, when she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with Gui's blessing, to my remedies.

This test satisfied me that the Rock Rose possessed specific powers for Scrofulous humors. I then tested it in cases of Cataneo as Eruptions, in Measles, Chicken Pox. Cane x, Sore Mouth, Erysipelas, Salt Rhoum, Piles, 80, In all these cases with perfect success. After testing this Syrup for more than a year, I wrote Mr. Myers (October 7th, 1850) cathousis astically, not expecting my letter would be published, that his Syrup was a "Pankkorite," all healing, and I gave him the result of its operations in several instances, y I stated in that letter that "it was invaluable as a remedy in Cutaneous Eruptions. Erysipelas, Salt Rhoum, and ether disorders, included in the varied family of diseases known as Scrofula, &c.: that in Dyspepsia it gated with wondertal efficacy." My opinion of its value for the above named diseases, reinain mechanged, and the same as when I wote Mr Myers in Oct. 1850. I do not recommend it for all the ills of our suffering humanity; but I unhesitating ly say, that as a remedy for Scrofulous affections I believe it superior to any known curative agent.

of it, in order to correct any errone is spin-ion that may have been entertained encernof that may have been entertained; meering it; and also to set in a true light the nare of a plant which promises to be universally beneficial.

"We are indebted to the United States Dispensatory of 1847, for the following description of it:

"It is ontirely different from the common Rose. It is a red-stemmed, oblong leat plant, having a bitter taste. In addition to romark-able peculiarity of the plant; of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Eaton says, that in the months of Nos vember and December, he has seen hundred of these plants, sending out near their roots broad, thin, curved ico-crystals, about an inch

in breadth; which melted during the day, and were renewed in the morning. For a more minute and authentical description of it, the reader is referred to Torrey and Gray's Butan-Its Medical History and Properties Are far the most important, sines upon these depends its value to the community. Dr. Loudepends its value to the community. Dr. Lou-don says that in 1799, it was so valuable in England, that it was cultivated from seeds, Ever since 1896, Professor Ives of Yale Cal-lege, has habitally used it with great success n Scrofula and Chronic diseases, and through

Haven) a common article in domestic practice for the cure of Scrofula and Cutaneous dis-Dr. Whitlaw, a Sco ch Botanist of notoriety while travelling in America in 1814, learned its use in Canada. Returning to England, he employed it, in medicating his baths, which became greatly celebrated for the cure of simi-

him its virtues were made known, until, as Dr

Dr. J. H. Thompson, of the same place, prescribed it in bad cases of Serviulous patients at Wills' Hospital. His success attracted the at Wills' Hospital. His success affracted the ottention of senior physicians. He reports the following remarkable case of white swelling of the hip, in February, 1814:—The lad was seven years old, and had the disease three years. The bone was dislocated both upward and outward. There was a large opening in the him leading to the hospital party which I would the hip leading to the bone; into which I could thrust my finger. I counted three ulcers. He had been upder several physicians, who had given him up, I ordered a decoction of Reck Rose. In two days his night sweats coased I then ordered a tenspoonful of Rock Rose three times a day. Thirty nine days after he was entirely well. Wehb, of Mudison, Ct., testifies to the

Dr. Wehh, of Madison, Ct., testines to value of Ruck Rose; as evinced in the core of numerous cases of the Serofula, especially in children. Manufactured by W'm Franklin & Co., New Haven, Ct.

Mr. Warren, though a minister of the Gospel, has for a period of 15 years, given attention to the subject of medical science, to qualify him to administer to the sick, in connection with his pastoral duties.
