'Is your father dead ?' asked one. 'No, oh no,; mine fader ish not dead; wor sor dan dat.

'Is your wife dead?' inquired another. 'No, mine wife ish not dead, too; she shoo

sits and schmokes a pipe all day long." 'Has your wife sloped with some other fel ler?' ask a newsboy, with dilapidated cordu roys and a hadly-kept pair of feet.

'You tink I'd cry for dat ?' was the indig nant rejoinder. 'No, inteed; no such ting.' 'Howald aisy,' suggested an apple-woman with a sympathetic countenance, through which the perspiration exuded profuselyhowald aisy; may-be his wife is dead in the ould counthrey, or the childher sick, or may be some of 'em was lost in the say.'

'Die Schone Katrina was losht in der Zuyder Zee, and dat ish what I ories for,' replied the mourner, unable to say more, in the poignancy of his grief.

'Was she a good ship?' inquired a sailor who had elbowed his way among the crowd. 'Yaw, it holds tree hundred passengers.' 'And all gone to Davy's locker?'

'Yaw, all gone; but dat is notting,' and the tears flowed afresh. 'What is the matter, my friend?' asked good-looking broker, with a splendid pair of

'No, notting of mine.' 'Weil what's the matter then?' 'I tells you what,' was the reply, as he wrung the water from his handkerchief, proparatory to a fresh outburst, 'she had more a twenty barrels of sour crout aboart!"

METHOD AND ORDER

Method is the hinge of business; and it re quires order and punctuality. These we mus teach our children principally by example .-Let them see that we rise early, have regular hours, as much as may be, for the employments of the day; that we are careful to do one thing at a time, and every thing in its right time; that we stick to the business we have in hand, as far as unexpected incidents allow that we dopt the maxim, a place for every thing and every thing in its place.' Let them be taught also, that what is worth doing is worth doing well. It is for the want of method and order that some people, who have much to do, get but little done. They are frequent ly in a hurry, have many things begun, but none finished. What ever children hear read or spoken of in terms of approbation, will give a strong bias to their minds. Hence the ne cessity of guarding conversation in families as well as excluding books and companions that have a tendency to vitate the heart .-

THE END OF THE WORLD .- An honest German who is employed at one or the tobes. manufactories in this city, was listening yes terday to an account from a brother workman of the principles and doctrines of Millerism .-Among other things he was told that the worl was expected to come to an end in two or three months. Remarking that the Gorman was muc interested in the matter, the other undertool to victimize the listener, by suggesting to him that it was full time for him to be making preparation.

"Ven you tink he comes to an end?" he asked. "Oh, probably in about three months," an-

swered the lokers. "Ho! vell; I no cares for dat!" exclaimed Hanse, with a smile of satisfaction; "I pe going to l'uffalo dis sphring."

A VALUABLE SPECIMEN OF ANTIQUITY. The oldest book in the United States, it is said is a manuscript Bible in the possession of Dr. Witherspoon, of Alabama, written over a thousand years ago! He describes it as follows: "The book is strongly bound in boards of the old English oak, and with thongs, by which the leaves are also well bound together. The leaves are entirely made of parchment, of a most superior quality, of fineness and smoothness little inferior to the best satin. The pages are all ruled with great accuracy, and written with great uniformity and beauty, in the old Gorman text hand, and divided off into chapters and verses. The first chapter of every book in the Bible is written with a large capital of inimitable beauty, and splendidly illuminated with red, blue and black ink, still in vivid colors; and no two of the capital letters in the book are precisely alike."

Dr. C. L. KELLING, ECLECTIC PHYSICIAN AND ACCOUCHEUR Mechanicsburg, Pa.

Dr. Kelling announces to the afflicted that he is a regular graduate of the best Medical College in the United States, and, during many years of very extensive practice, has been familiar with every form of disease, and succeeded in curing the most hopeless cases, even when abandoned by the regular faculty. His perfect knowledge of the human system enables him to adapt the means to the end, so as to produce the most astonishing results. The alarming prevalence of disease, and the often imperfect medical treatment of the present day, has induced him to make known his never-palling remeries, that those that mourn may rejoice, and the afflicted leap for joy. ALL, no matter what their disease may be, can rest assured of finding relief, and therefore should not delay a moment. Write disease and symptoms full and plain, and Dr. KELLING announces to the afflicted that he relief, and therefore should not delay a moment.
