If it does not give relief, the money will be refunded—all that is asked is a trial, and uso it according to directions.—The article is an English remedy, and was used by Wm. IV. King of England, and certified to by him as a cure for Rheumatism, when everything else recommended by his physicians had failed.

Over 10,000,000 of bottles have been sold in the United States, without a single failure, and families have stated that it was worth \$10 per bottle, they never would be without it. In case of Croup, as it is as certain as it is applied. It cures Toothache in three minutes, Headache in half an hour, and Cholera, when first taken, in a few hours. It is perfectly inneem to take internally, and has the recommendation of many of the most endnent Physicians in the United States. Price, 25 and 50 cents.

Dr. Tobias could fill a dozen newspapers with the certificates and letters received, relating to the wonderful cures accomplished by his Liniment, but considers that warranting it is sufficient, as any person who does not obtain relief, need not pay for it. There has been so much worthless medicine sold to the public, that Dr. Tobias wishes his article to rest on its own merits, and if he gives the value of the money received, then he asks the patronage of the public, not otherwise.

Menschikoff, with the shattered remains of his forces, retired into a position in the inner harbor, which he barricaded and refused to surrender, threatening to fire the town and blow up the remaining ships unlass the victors would grant him honorable capitulations. The allied Generals demanded his unconditional surrender, and in the name of humanity gave him six hours for

The second engagement at Kalantia lasted several hours, and was very sanguinary, end ing in the total defeat of the Russians, who were pursued to the entrenchments before Sebastopol.

Some despatches state that the garrison of Sebastopol was offered a free withdrawal, but

surrendered as prisoners of war. The despatches are very conflicting. One. dated Berlin, 3d, says that a telegraphic despatch had been received there direct from St. Petersburg, to the effect that Menschikoff had telegraphed, under date of Sept. 25, that he had withdrawn his troops unmolested from before Sebastopol, towards Banktchiserai, where he will await reinforcements. The despatch adds that Sebastopol had not been attacked up to the 16th of September.

The Russian accounts do not conceal the fact of severe reverses having been experi enced in the Crimea.
