

Little Folks.

THE BOY AT THE DYKE.

It is said that a little boy in Holland was returning home one night from a village to which he had been sent by his father on an errand, when he noticed the water trickling through the narrow opening in the dyke.

Prompted by these thoughts he seated himself on the bank of the canal, stopped the opening with his hand, and patiently awaited the approach of villagers, but no one came.

"Heroic boy what a noble spirit of self-devotion he showed!" every one will exclaim. A heroic boy indeed he was: and what was it that sustained him through the lonesome night?

Now, there is a sense in which every person, every boy and girl occupies a position of far weightier responsibility than that of the little Hollander on the dark and lonesome night; for by the good or bad influence which you do and shall exert, you do and shall exert, you may be the means of turning a tide of wretchedness and ruin, or a pure stream of goodness and gladness on the world.
