THE LARGEST AND CHEAPEST NEWSPAPER IN CUMBERLAND COUNTY.

Terms—Two Dollars a year, or One Dollar and Fifty Cents, if paid punctually in Advance. \$1 75 if paid within the year.

The publication of the address of Prof. TIFFANY having been solicited by a number of his audience on Thursday evening last, it will be given in our next number.

REORGANIZING.—Mr. Bonham announces himself ready for action again, in a call, which is published in the Pennsylvania of Saturday, for a meeting of the Pennsylvania State Central Committee, on the 26th prox. "for the purpose" as the call says, "of organizing the democratic party on a more permanent basis, consolidating it against the secret and insidious assaults that have for a time impaired its usefulness and efficiency in carrying out our cherished principles, and to render it impregnable in the future against the approaches of the various and dangerousisms and delusions of the day."

Mr. B. has changed his tone. The days of bombastic "defiance" of the Know Nothings are over now, and as Mr. Bonham looks back at the awful wreck of the second Tuesday in October, his imploring cry comes up from the depths of humiliation in an appeal to the "friends of the rights of man," the old and ends of all nations, to come forward in general "fusion" and save the Loco-foco party from utter extinction! But "Babylon is fallen" to rise no more!

We deeply regret to learn the death of Mr. Henri Schumacher the young and gifted Violinist who was for several years a resident of our borough, and whose Concerts and exquisite playing will long be remembered by all who ever heard him. Mr. S. has fallen in his youth, at the very threshold of a distinguished professional career. He died last week, of consumption, at the residence of Bishop McCoskrey in Detroit.

The President's Message which for some years past has been sent to the Postmasters in advance, to be delivered at Washington, will, it is said, be withheld this year until it is sent to Congress. Our foreign relations, it is hinted, make this course necessary, as it is advisable the President shall receive the latest European intelligence before his message is submitted. It makes but slight difference, as there is very little anxiety to see the document.

SECRETARY OF THE COMMONWEALTH.—It is now generally understood that Col. Andrew G. Curtin, of Centre county has been tendered the office of Secretary of the Commonwealth by Gov. Pollock, and has accepted it. Col. Curtin is a gentleman of popular manners, enjoys a high and well deserved personal popularity in the section of the State in which he resides, and, we doubt not, will make an efficient and popular officer.

ARRIVING IN WASHINGTON.—The members of Congress are beginning to congregate, and it is supposed that within a week nearly the whole of both bodies will be present. Congress meets on Monday next.

SMACKS OF THE INQUISITION.—The imprisonment and escape of a young girl from the Catholic Sisterhood at Emmittsburg, Md. an account of which will be found on the seventh page of to-day's paper.

The Hon. D. DURKEE, of York, for many years President Judge of the York and Adams Judicial District, died on Tuesday

THE POLITICAL REVOLUTION.

It is worth while to compare the votes in the States that have held elections within the year, with the votes cast by them at the Presidential election of 1852. Such a comparison we make up in the following statement; and it will be seen that for the sake of showing all possible fairness to Pierce we have only given his majorities of 1852 over Scott and Hale combined:

Table with 4 columns: State, For Pierce, Against Pierce, Pierce's loss. Rows include Maine, N. Hampshire, Vermont, Rhode Island, Connecticut, Iowa, Indiana, Penn'a, Ohio, Missouri, New York, New Jersey, Illinois, Michigan, Wisconsin.

The annexed table shows the result of the congressional elections in these States. In sixteen States 137 members to the next Congress have been chosen. One hundred and eight of these are avowed opponents of the administration, and twenty-nine only are committed to its support. The following table will exhibit the relative changes which have already taken place.

Table with 4 columns: State, 33d Congress, 34th Congress, Adm'n. Opp., Adm'n. Opp. Rows include Maine, Vermont, Pennsylvania, Ohio, Indiana, Iowa, California, Florida, South Carolina, Arkansas, Missouri, New York, New Jersey, Illinois, Michigan, Wisconsin.

In the above States the Administration elected two years ago a majority of 50 members. In the same States now they are in the minority of 79, a change of 129 in less than two-thirds of the whole House.

POPULAR SOVEREIGNTY VIOLATED.—The Detroit Free Press intimates that there will be no election of Senator at the coming sessions, either in Illinois or Wisconsin. This opinion is based upon the supposition that the democrats have a majority in the Senate of each State and will take advantage of this to prevent the wishes of the people from being regarded. This shows how much that party of demagogues values popular sovereignty!

SENATORS TO ELECT.—At the approaching session of the respective Legislatures, there will be Senators of the United States to elect in Illinois, Iowa Wisconsin, Arkansas, Missouri, Louisiana, North Carolina, Pennsylvania, New York, Maine, and California. New Hampshire will elect two in May next.

The Lancaster Intelligencer (Loco) seems to be anxious to defer a sale of the Public Works by having the question submitted to a vote of the people. It was submitted once, and a sale ordered by 20,000 majority. No sane man can doubt the will of the people on the subject.

The election of a United States Senator by our Legislature will not take place until the second Tuesday of February. The law formerly appointed the second Tuesday of January as the time, but as this did not allow time for the settlement of contested elections to the Legislature, the period was altered.

"PUT NONE BUT AMERICANS ON GUARD TO-NIGHT."—The Boston Atlas calls attention to the fact that our country is represented abroad by a Frenchman in Spain, by an Italian in Italy, by a German Jew at the Hague, by a Scotchman in N. York, and by an Englishman in

THE KNOW NOTHING PARTY.

The feeling which has given birth to this new order of politics, has spread with such rapidity over the country as has no parallel. The key touched a chord which responded over the whole country. Other parties have planted their standard and risen up in a comparatively short period, and have carried township, borough, and in course of time, even county and State elections. (Such were the Anti-Masonic, Abolition, Anti-Rent, and some other parties; but they were local or sectional in their operations; they lacked breadth and scope—they were restricted by sectional lines. They caused great agitation without accomplishing any grand result. Where shall we find another party that has been born and attained the full stature of manhood, in a day, as it were—in a single campaign—a party confined to no party, no locality; which is bounded by no sectional lines; which knows "no north, no south, no east, no west;" which has swept over states and tumbled down all the old and established dynasties; which has taken possession of whole states, big and little—of the mighty "Keystone" and of the "little sister" Delaware; which yesterday conquered in the Bay State, to-morrow will triumph in the Old Dominion, and next day will plant its standards upon the Capitol at Washington?—Where before has been established a party not less popular at the east than in the west, and that seems destined to be as strong among slaveholders of the South as among the free-soilers of the North—which assimilates with all political elements and finds a responsive feeling in men of all political parties and persuasions? What is this new star that has risen upon us—ascending so suddenly from the horizon to the Zenith—that commands the adoration of our countrymen; which unites all hearts and hands—which brings together political antipodes—which tames the fiery democrat and the chivalrous whig, and which unites in fond embrace the sons of the frigid north and the sunny south? Who can tell whence it cometh or whither it goeth? May its beams shed a radiance of holy light upon our social system, rendering immortal republican institutions, and germinating an American feeling in eternal hostility to all that is alien to religious liberty or national independence!

REAL ESTATE SALES.—The store and dwelling house of Mr. Jacob Sener, on North Hanover street, in this borough, was recently sold at public sale at a fraction less than \$3,000, to Mr. George Grossman.

On Saturday last the Washington Hotel property, now in the occupancy of C. G. Stough, and owned by Mr. Charles Ogilby, was sold to Mr. J. S. Steiner for \$8,400. These are regarded as good sales considering the state of the times.

The farm of David Martin in Hampden township, comprising 128 acres, recently advertised in our paper, has been sold at private sale to Mr. Samuel Eberly, of the same township, for \$14,000 cash, being at the rate of about \$109 per acre.

The farm of Henry Baker, deceased, in Newton township, comprising 170 acres of limestone land, was recently sold by Mr. Thomas A. McKinney, Executor, at \$51 an acre.

BURGLARY AND THEFT.—A young man named James Stewart, was arrested by Sheriff M'Dermont, on Saturday last, charged with entering the house of Samuel Westheffer, of Milfin township, and taking from a drawer a sum of money amounting to \$200. The burglary was committed last Monday two weeks, while the family was absent at church. Stewart was suspected at once, but no proof being at hand he was not arrested. Subsequent developments however, pointed him out as the supposed perpetrator of the theft, and he has been committed to our county jail for trial.

COL. JOHN CLENDENIN, the newly elected Director of the Poor, has been sworn into office, and entered upon the discharge of the duties appertaining thereto. Col. C. will make a faithful and efficient Director. The Board of Directors now consist of Messrs. George Brindle, of North Middleton; John C. Brown, of Frankford; and John Clendenin, of Silver Spring.—Vol.

THE INAUGURATION.—We learn that the "National Cadets" of Philadelphia, and the "National Guards" of Newville, are making arrangements to join in the military escort of Gov. Pollock's inauguration. The Cadets will be accompanied by the Valley Saxo Band. The Carlisle Light Infantry, Capt. Crop, will also probably be present.

Town and County Matters.

UNION FIRE COMPANY'S LECTURES.—The first lecture of the course was delivered on Thursday evening last, by Prof. TIFFANY. Absence from town prevented our being present, but we understand that a crowded audience of ladies and gentlemen graced the occasion. The lecture was an elegant production on a popular subject and was listened to with great interest and satisfaction. The Carlisle Quartette Club also enlivened the occasion by singing several appropriate songs.

The second lecture of the course will be delivered on Thursday evening, Dec'r 7th, by Rev. J. W. NEVIN, formerly President of Marshall College, who has recently become a resident of our borough. Subject—"Self Education."

A correspondent has furnished us a more particular notice of Prof. Tiffany's lecture, which we subjoin:

On Thursday evening the 23d inst., the Union Fire Company gave us the first of their series of lectures for the season. The lecturer was Prof. G. H. TIFFANY, of Dickinson College. His subject, "America and American Institutions." The first half of the lecture showed that the doctrines of our Constitution and the genius of our government are derived from the gospel of our Lord Jesus Christ. The Professor gave bold relief to Christianity—Protestant Christianity—as the very life of our institutions—as the spirit that moved our forefathers, and the light in which their great deeds were wrought. Regarding this as the great source of our stability and the great reliance of the people for future welfare, he thought it a question of serious moment whether the vast immigration and rapid naturalization of foreigners, and especially of Roman Catholics, does not endanger the safety of our institutions. The lecturer was very careful to avow that he had no hostility to immigration and none to naturalization, provided it be not too speedy. He would have foreigners become Americans inwardly before they are made so outwardly. He alluded to some recent revelations of startling import. But as the lecture is to be published I forbear to speak further. The Union Fire Company may be congratulated not only upon so large an audience and large receipts, but especially upon so happy a beginning for their series of lectures. We thank them, not that they are helping themselves to money but that while doing this they extend a real benefit to the community.

FESION seems to have had as much to do with the late elections as confusion, which has been so much talked about. We do not know anything about politics, but we do know a good deal about clothing, and we can inform our readers that HERRILL & WILSON have the finest, cheapest and most fashionable assortment of gentlemen's garments to be found anywhere.

The circulation of the blood is justly esteemed the greatest ordination of Divine Providence; by that beating engine, the heart, it is driven to all parts of the system, giving vigor and strength to the complicated machinery of man. This living fluid, whether we sleep or wake, sails briskly through the arteries and returns softly through the veins. How necessary that it should be kept free from all impurity, and yet how negligent many are respecting this great essential to the enjoyment of perfect health. Derangement in the Liver and Nerves is generally the primary cause; and Jaundice, Dropsy, and all the humors, feelings attending Dyspepsia, which makes life a torment, and from which suicide would rapidly follow, if there was no cure. No one would suffer long, if he is able to obtain a bottle of Hoffman's celebrated German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, they rarely fail in affording a permanent cure.

Palpitation of the heart, Nervous Diseases, Liver Complaint, Neuralgia, Dyspepsia, Costiveness and Piles, are all relieved and cured in an incredibly short space of time, by Carter's Spanish Mixture, the great tonic and purifier of the blood. It contains not a particle of Mercury, Opium or any noxious drug; it is perfectly harmless, and has cured more than five hundred cases of disease. We can only refer the reader to the certificates, a few of which may be found in another column, and all of which are detailed in full around the bottle. It is the greatest of all Springs and Fall Medicines, and possesses an influence over the blood truly remarkable. See Advertisement.
