Two Noble-Hearted Children

It is a beautiful sight when children treat each other with kindness and love, as is related in the following story: Last evening, says the narrator, I took supper with Lydia; her parents and myself were sitting in the room together, and her brother Oliver was out in the yard drawing his cart about. The mother went out and brought in some peaches a few of which were large red-cheeked rareripes—the rest small ordinary peaches. The father handed me one of rare-ripes, gave one to the mother, and then one of he best to his little daughter, who was right years old. He then took one of the smaller ones, and gave it to Lydia, and old her to go out and give it to her brothr. He was four years old. Lydia went nut and was gone about ten minutes, and en came in.

"Did you give your brother the peach sent him?" asked the father.

"Did you give your brother the peach sent him?" asked the father a little nore sharply.

"No, father" said she, "I did not give iim that."

"What did you do with it?" he asked. "Late it," said Lidia.

It is impracticable in so short a space as this to give an adequate idea of the variety of subject, and the extent of research which this Volume contains. The whole field has been carefully explored. And no department however intricate has been passed over, but treated until the subject has been made perfectly clear and intelligible to the simplest mindr indeed one of the great peculiarities of the Book is its freedom from dry detail, and statistics, (so common to works of this character.) which no doubt is one of the causes of its very great popularity.

The Agriculture of the State is a prominent topic in the work, and all its parts receives his carnest attention, not merely specularling on the results of husbundry, but searching and finding how the greatest advantage can be gained from the best sources. Every Farmer should read and study his remarks, and also those who depend on the Farmer for the necessaries of life; for all should understand something of the means by which those necessaries are produced.

Cities, Towns and Villages are described and dwelt upon, the characteristics of the people pointed out, and the various improvements in progress or projected noticed;—one of the deeply interesting sketches in the work is that on the Wyoming Valley; the vivid and startling interest thrown around that devoted spot, is dwelt upon with beautiful pathos and feeling, and the leading events in the tragic part enacted there in revolutionary times, pointed out by a master hand. Added to this is Campbell's always beautiful Gertrude of Wyoming, the merit of which it is unnecessary to speak about.

A vivid and truthful description of the grand and majestic Scenery of the Old Koystone State, is also a prominent-subject in the Volume. Nothing can exceed

A vivid and truthful description of the grand and majestic Scenery of the Old Keystone State, is also a prominent subject in the Volume. Nothing can exceed the grandeur and beauty of Pennsylvania's Romantic Hills, and well does the author understand the subject with which he deals.

The Press throughout the State have, with united voice, pronounced it the Best Popular Book ever written on the State, and without a single exception have recommended the work in the highest terms. The many flattering intices bestowed upon it will be collected to gether and published, in a future circular. Accompanying every volume is Barno's Large Map of the State, carefully colored,—the latest and best Map published, and which retails seperately at One Dollar, and is undoubtedly the only correct one issued.

The price of the Book is placed at the lowest rate for which it could be manufactured, and the execution of it in every respect is alike beautiful and substantial—independently of the fine map, it is a remarkably cheap work; but that accompanying it the publisher has no hesitation in pronouncing it the cheapest Book published!

The Publisher has gone to great expende in publishing

hestiation in pronouncing it the cheapest Book publish-ied!

The Publisher has gone to great expense in publishing the Book in proper style. The engravings are beauti-fully executed; the type large and clear; and the paper of a fine texture; while the binding is at the same time tasty, and durable, and having done his part well, he submits the work to the examination of the people-confidently recommending it to the attention of those interested in the Pennsylvania Railroad Company, Reading Railroad Company, Sumbury and Erie Railroad Company, Norristown and other railroads in the State, in the Schuylkill and Lehigh Navigation Companie, in the Lehigh and all other Cual Companies, throughout Pennsylvania, to all engaged in mining and manufac-turing Coal and Iron, to every Farmior and every citizen of the great State of Pennsylvania, he submits this splendid-volume, and respectfully solicits their prtronsplendid-wolume, and respectfully solicits their prtron

He is 28 years old, and has had fits over 12 years, which have been very frequent, and very destructive to his constitution and mind. Mr. Z. Lake-Sir: Please send a few more bottles of your "Fit Medicine;" I may not need it, but think safer to keep it on hard. Your medicine has done wonders, I gave it to Miss Jame Delano; she has had fits for 26 years, brought on by having the measels when but four years old, which could not be brought out to the surface, After taking the medicine a few days, she had a Pine croo of versels, and has had no fits since. She had fits or symptoms almost daily. She and her father concur with me in saying that we believe the medicine has or will work a phrfect cure. I also gave the medicine to Miss Jame Handerson and Aris Carby, who have had its almost daily, for a number of years. Their fits have ceased, and bbelieve the medicine will have the desired effect. Much money has been expended by the friends of the above patients for doctoring, all to no purpose.—The cure was left for your medicine to perform and I can cheerfully recommend it as a valuable discovery.—Respectfully yours., JUDSON LAND in, Propared and sold at wholesale by Z. The Healthy Gums and a Sweet Breath—Ah who me desirous of obtaining these benefits should use Zell-MAN'S CELEBRATED TOUTH WASH. This deficient article combines so many meritorious qualities that it has now become a standard favorite with the citizens of New York, Philadelphia and Balemore. Dentists prescribe it in their practice most successfully, and from every source the most flattering laudations are awarded it.

Inflatned and bleeding gums are immediately, lengthted by its use; its action upon them is mind scotling and effective. It cleanses the teeth so throughly, that they are made to rival pearl in whiteness, and diffuses through the mouth such a delightful fryshness that the breath is rendered exquisitely sweet. It dissintest those impurities which tond to produce decky, and, as a consequence, when these are removed the teeth must always remain sound. Read the following from Dr. J. A. Carman:

Dr. Giles, Newton Hamilton, Pa., May, 1951, said: "I have used myself half a dozon bettles of your German littere for Liver Complaint and diseases of a nervous character, resulting from the abuse of mercury. I was poisoned and afflicted with spasms from the use of this latter article. The German litters is the first article from which I obtained any relief.
