

What Shall we Eat?

The following from the New York Trine, contains some useful suggestions the hard times, which are generally

With one of the hardest winters for e poor that has stared them in the face r many years, and now with this cold onth of December upon them in all its ,or, it behoves them to look about for nothing to cat less costly than roast of and plum pudding; for the two dols a day, that some of them seemed to ink would endure forever, has been cut suddenly. It is estimated that 50,-0 persons have been thrown out of emsyment, since the cold weather comneed, by that cause alone. An equalinber have been thrown out by failures d general stagnation of business. It to be a winter of suffering to those who edependent upon the labor of their ads for daily bread for themselves and -illies .- . Whatever will tend, not to sapen food, for that we cannot hope for, t to show them what to cat, less expento than their accustomed diet, should at once adopted. For this purpose offer a few suggestions. Fresh meat of all kinds, at the prices

which butchers retail it, is not ecounical food. "Meats will average over shilling a pound: Salted meats are seaper than fresh. In economizing food, sat should never be fried or boiled. If a would get the most substance out of sh meat, make it into soup, or stew, or t pie. In making soup soak your meat ae hours in cold water, and boil it in miny, or broken bread. "The best at is the most economical for soup .-

; not buy bones. If you boil ment to eat, never put it cold water. Let it be boiling when u put the meat in the pot. Do not y fresh meat a pound or two at a time. y a quarter or half a sheep. You get at half price. Beef or pork by the urter is a quarter cheaper.

Do not buy your bread ready baked .is sixpence a pound. Dry flour is the ne. Home-made broad is far more stritious. Make use of corn-meal, oatal, Graham flour, hominy and cracked teat for bread in preference to fine reat flour, both for health and economy. re are the relative retail prices per and for these articles: Wheat flour, : ; Grahams flour 6c.; cracked wheat ; corn-meal 2½c. hominy, 3 cents; tmeal, 4½cents. The latter is the ost nutritious breadstuff known. Look the Scotch with their out-meal por-.dge-as robust a set of men as ever

Hominy we have before given our oinion upon. It is an article that no nily, desirous of practicing economy, n do without. It is very cheap, healy, nutritious food. It costs only half e price per pound of flour, and contains moisture, while the best of flour holds om twelve to sixteen pounds of water a barrel. Cracked wheat is excellent r sedentary persons. That and Gra-am flour should be used in preference, - the same price per pound, to white our, because more healthy and nutritious. ne hundred pounds of Graham flour is stter in a family than one hundred and cirty-three pounds of superfine white ur. Corn meal costs less than half the -ice-of-flour. It is worth twice as much. is not so economical in summer beuse it takes so much fire to cook it -he first great error in commeal is in cinding it to much, and next is not cookig it enough. Corn meal mush should oil two hours; it is better if boiled four, id not fit to eat if boiled less than one our. Buckwheat flour should never be urchased by a family who are obliged to onomise food. It is dear at any price. h must be floated in dear butter to be ten, and then it is not healthy. Oatcal is as good in cakes as buckwheat, ed far more nutritous, and is particurly healthy for children, in the form of

orridge. The cheapest food is white beans. hey are worth from \$1 50 to \$2 a bush-, and retail for eight cents a quart .rof. Liebig has stated that pork and cans form a compound of substances pe-" iliarly adapted to furnish all that is... ecessary to support life and give bone id musele and fat, in proper proportions man. This food will enable one to orform more labor at less cost, than any

other substance. A quart of beans 8cts. half a pound of pork 6 cents., will feed a half a pound of pork o cents., whi reed a largerfamily for a day, with good strengthening food. And who that can raise a reminicence of good old times in New England, but, will remember that glorious in Section of the procession. All kinds of Legal Writing, Collections, Court business, &c. promptly attended to. Office opposite by Long's residence. SURVEYING in all its different branches promptly attended to.

We should call it bean soup now. Four tarts of beans and two pounds of corned over would give a good meal to fifty men cone cent a meal.

The COLE Attorney at naw, with according to the room family occupied by William Irvine, Esq., North Hanover street, Carlisle.

April 20, 1852. We should call it bean soup now. Four welf would give a good meal to fifty men

Potatoes should be utterly abandoned y the poor this winter. They cannot ford to eat them. Potatoes are selling wholesale for \$1 a barrel, that is \$1.78 bushel. At retail the poor people pay 2 50 a bushel, or about five cents a ound; twice the price of corn meal, ve sixths as much as fine flour, one fifth fore a mushel than beans, while one mshel of the latter are worth for food as such as a cart load of potatoes. All other vegetables are still more economical han potatoes. Carrots are the cheapest of all roots. But they are but little ed as human food, though very nutrithey are particularly used in They are good simply boiled and ten with a little butter or meat gravy. hey should always form an ingredient of up. They are sold by the quantity at

10 cents a bushel. Turnips are dear at any price. There more nutriment in a quart of carrots ian in a bushel of turnips. They are 2 per cent. water. Cabbage is nutritiis, but very expensive. Buy very little of it if your money is short. Dried sweet corn is an article that all persons ure fond of: It sells for \$1 to \$5 a bushel, which weighs 42 lbs., and would retail at bout 10 cents a pound. We don't know about the economy of eating it, as compared with other breadstuffs, but as compared with coarse vegetables, it is immeasurably cheaper. A pound of sweet corn, cooked to be eaten with nreat, is worth more than three pounds of extra meat. It is also very excellent and nu-

tritious mixed in the bean soup. Another very excellent, nutritous, economical article of food is dried peas. They are generally a little more costly than beans, but some think they will go further. At my rate, they are good for a change. It would be good for a change to those who are put to their wits end to know how to get food enough to feedtheir families, if anything that we have said shall put them in a way of changing some of their old habits, so as to buy such articles as will satisfy hunger, while giving them health and strength, for less than half the money they are now expending, though living only half comfortably.

Educotion.

WHITE HALL ACADEMY, three miles west of Harrisburg. The eighth Session of this popular and flourishing Institution will commence on Monday, the 6th of November next, under the most favorable auspices. During the present year such improvements, and additions have been mande as its increasing patronage demanded. SAFE-SPEEDY-SURE!-Some-APPE—SPERIM —SURE WAS RESERVED. A Medicine adapted to general case, greatly superior to there and within the means of overy individual.

100 PILLS for twenty-five cents. No extortion in price—no Calonel—no mineral peisen whatever.

DR. Townsend's Health Fills fully merit the great reputation they have acquired. They are called for from all parts of the land, because they are called for from all parts of the land, because they are by period and they fill of the land, because they are Dyspersia and Indication, they create an Appetite, they cure Sick Headache, Dizzhess and Low Spirits, they arrest Fevers, they promote a healthy action of the liver, they are a sure cure for Costiveness and Habitual Constipation, they are highly efficacious in Female Complaints, they strengthen and give tone to the System. They are the best Family Medicine known.

It is an obvious inquiry, how one medicine can cure so many different complaints. These Pills, however, are so compounded of curistive materials that persons have only to TRY THEM and the answer will be found in a restored body and an initiocrated constitution.

Each Box contains 100 Fills, at the astonishingly low price of 25 cents. Every individual should have them. For sale by the Pruggists and Storkeepers generally: F. A. Palmer, general Agent. Stonington, Ct.

DATENT SELF-SHARPENING YANKEE FRED CUTTERS, manufactured for ALDRICH & SARGENT, No. 410 Market street, Phillada This cutter is superior to any now in use, for strength durability, and simplisity of construction; it cuts faster, and is the only self-sharpening Hay, Straw and Corn Stake Cutter ever made. It has but ONE STRAIGHT KNIPE, which any person can grind and set with ease, but in ordinary case, is ground in the machine. Thousands have already been sold, and the demand is daily increasing. In most cases an examination is sufficient to convince one of its superiority. No one after a short trial would part with it for any other. All sizes of the above constantly on hand and for sale by
