

The Markets.

PHILADELPHIA MARKET.

PHILADELPHIA, Monday, Jan. 29. Flour—There is little or no demand for export, and the market continues very dull. The only sale made public is 300 bbls. Baltimore City mills at \$8.75. Standard Penna brands are offered at the same price, without finding buyers; some holders ask more, but there is nothing doing except in small lots for home use at from \$6.75 to \$9.50 per bbl or common retailing to choice brands and extra. Rye Flour is also dull, with a small business doing at \$6.25 per bbl which is a decline. Corn Meal is inquired for but at a price below the views of holders. Grain comes forward slowly, and Wheat, particularly red, is scarce and in demand to-day at all rates. About 2000 bush., mostly prime Southern, brought 208c., and 500 a 600 bush. Penna. white 214 a 217c., as in quality. Rye is steady, with further small sales at 125c. Corn is about stationary, and sales of 4000 a 5000 bushels Southern yellow are reported, part at 91c. afloat, and a part at a price to be fixed. Oats are without change and dull, at previous quotations.

MUCH INFORMATION IN FEW WORDS.—As an evidence of what has led to foreign indebtedness and domestic extravagance, we quote from the Secretary of the Treasury the following facts:—In 1844 the population of the Union was 19,241,000; the importations for that year amounted to the sum of \$96,150,000 being a trifle over five dollars to each inhabitant. In 1854 the population is estimated (allowing for the increase since the last census) at 25,500,000; the importation for the year amounted to \$279,712,000—being nearly eleven dollars to each man, woman and child. That is we have more than doubled the average portion of our importations for each individual in the country. The Secretary of the Treasury also tells us that in our last financial year we imported thirty-three millions worth of silks. These facts need no comment.

MOTHERS MADE THANKFUL.—The local editor of the Buffalo Republic has made himself one of the immortal, by the publication of a discovery which he has made of great importance to mothers. It is an infallible means of keeping babies, from two to ten months old, perfectly quiet for hours. The modus operandi is as follows:— "As soon as the squaller awakes, get the child up, propped by pillows if it cannot sit alone, and smear its fingers with thick molasses. Then put half a dozen feathers into its hands, and the young one will sit and pick the feathers from one hand to the other, until it drops asleep. As soon as it wakes, more molasses and more feathers, and in place of nerve astounding yells, there will be silence and enjoyment unspokeable.

"OLD BULLION" made terrible havoc in the House, the other day, on the French spoliation Bill. The claims that are set up, that "schemo," he characterized as "unbounded" and "impudent"—devices only to plunder the federal treasury, and fill the pockets of the birds of prey, who hover over the Capitol to rob and devour it! The bill has passed, however.

THE ANTI-KNOW NOTHING caucus at Washington had another meeting. A correspondent of the Baltimore Sun says, "it is much doubted whether any strong resolutions will be passed, there being evidently many gentlemen, even in the highest places, who, whatever the papers may say to the contrary, are sitting on the fence."
