WHAT EVERY WOMAN SHOULD KNOW

STARTLING, BUT TRUE!

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influ-ence incident to the enjoyment of health.

THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently in-explicably, becomes a feeble, sickly, sallow, debili-tated wife, will frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental pro-tration, griging from imprace of the circulated and tration, arising from ignorance of the simplest and plainest rules of health as connected with the mar-ringo state, the violation of which entails disease, suffering and misery, not only to the wife, bat often

"And must this continue? Must this be? Is there no remedy? No relief? No hope?" The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them.

[ON FINE PAPER, KXTRA HINDING, \$1.00.]

A standard work of established reputation, found classed to the catalogues of the great trade sales in New York, biladelphia, and other cities, and sold by the principal ooksellers in the United States. It was first published a 1847, since which time in 1847. si

BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

"Here every woman can discover, by comparing her own symptoms with those described, the nature, character causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for bids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregular Ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice Many suffering from prolapsus uteri (falling of the womb). or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine ment Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects-treated of, as they are of a nature strictly intended for the married or those contemplating marriage

Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and han piness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised postrums which otherwise would provide for declining years, the infirmities of age and the proper education of vour children.

In consequence of the universal popularity of the work as evidenced by its extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by imitations of title page, spurjous editions, and supremittious informements of convirgini, and other ight, and othe rements
