THE LARGEST AND CHEAPEST NEWSPAPER IN CUMBERLAND COUNTY

Terms—Two Dollars a year, or One Dollar an Fifty Cents, if paid punctually in Advance. \$1 75 if paid within the year.

The County Statement and other advertisements have curtailed our usual amount of reading matter this week.

TEMPORAL POWER OF THE POPE.—A letter from Rev. John McClintock, of Carlisle, appears in Monday's Philadelphia Bulletin, in reply to the recent speech of the Hon. Joseph R. Chandler, in Congress, on the subject of the temporal power of the Pope. Dr. McClintock's letter is written with his usual ability, and arranges a host of authorities to show that Mr. Chandler has not stated the true position of the Pope. Brownson is most effectively quoted in refutation of Mr. Chandler's argument. The letter will be read with interest.

APPOINTMENTS.

Gov. Pollock has made the following appointment: Thomas J. Power, of Beaver county (American democrat), Adjutant General. Christian L. Magee (American Whig), Inspector of Weights and Measures for Allegheny county. Mr. Culp (American), Flour Inspector for Pittsburg. Mr. Power has accepted the Adjutant Generalship. These appointments will be generally acceptable to the people. The announcement, by several papers, of Christian Myers as Whiskey Inspector for Philadelphia, was premature and unauthorised. No appointment for Philadelphia have been made.

CONTEST IN LANCASTER

SAM—the invincible Sam—was to have his strength severely tested in the election for city officers at Lancaster yesterday. The present Mayor, Christian Keefer, has consented to run again at the request of a number of citizens of both parties, and "independent tickets" for members of Council, &c., have been formed in all the wards. The whole anti Know Nothing strength of both the old parties is to be concentrated on this "independent" ticket. The candidate of the American party for mayor, as we see by the last Lancaster Register, is Jacob Albright. A fierce excitement has prevailed for the last week and the result will be looked for with warm interest.

Our friend Baker, of the Perr, Freeman, has suddenly broken out in very bad humor against Banks. "Who is der reason mit him," as they say in Berks county. He is, as ultra as the Philadelphia Ledger on the subject. His fling at the Carlisle Deposit Bank very unjust and must have been made without reflection. Our Bank has the reputation (deservedly so, in our opinion) of being a well and fairly managed institution, whose officers endeavor to accommodate the community and benefit the interests of business men. Its character is grossly misrepresented by the Freeman.

SENATORIAL ELECTION.—Henry C. Pratt is the Whig and American candidate, and J. Murray Rush, the Democratic candidate for Senator, to supply the vacancy caused by the death of M. Foulkrod, of Philadelphia. The election takes place next Tuesday. If Mr. Pratt is elected it will give the new administration ascendancy in the Senate.

SENATORIAL CONTESTS.—The Missouri Legislature have again had an effectual trial to elect a U. S. Senator. In Wisconsin and Illinois, the Democratic members prevent a quorum in the joint conventions by absenting themselves.

THE U. S. SENATE.

Although not an advocate of Prof. O. H. Tiffany's election to the U. S. Senate—our preference having already been very distinctly avowed—we yet feel it due to him as a townsman and personal friend, to open our columns to the vindication of his character from the coarse and malevolent assaults made by the Pennsylvania and other presses. We readily give place, therefore, to the subjoined tribute to his merits, penned by a friend who knows him well, and who although not himself a member of the American Order, still feels that the malicious misstatements which have been published should not be allowed to pass without exposure. The writer well remarks that it comes with an ill grace from the friends of Richard Brodhead to depreciate the election of Prof. Tiffany, who is certainly, though young, the superior of any man sent by that party to the Senate for the last twenty years, except Mr. Buchanan.

PROF. O. H. TIFFANY.

If the Pennsylvania earnestly desires to see our townsman, Prof. O. H. TIFFANY, elected to the U. S. Senate, it could take no surer plan to aid him than by continuing to put forth such attacks upon him as are contained in its issue of the 29th inst. Its tone of vulgar abuse, its bitter and malignant spirit, and its bold and unscrupulous falsehoods, remind us more of the assaults so common twenty years ago in the local press upon our grand and gallant leader, HENRY CLAY, than of the recent and improved style of political warfare. Such assaults injure only the assailant. The lie returns, barbed anew, to the bosom of its utterer.

It is not our purpose to waste words upon the opinions expressed by the Pennsylvania as to Prof. Tiffany's talents and standing before the people of Pennsylvania. The good opinion of a journal that praises the abilities of a Brodhead and belaters a Pierce with sycophantic flattery, would be dangerous to the reputation of a really able man. We would not do Professor Tiffany the injustice to say that he is superior in all the elements of intellectual power to the men whom Pennsylvania has been in the habit, under democratic guidance, of sending to the United States Senate, and whom the Pennsylvania has been in the habit of supporting. None of them, except James Buchanan, could for a moment be brought into comparison with him. His natural abilities are of a high order, and they have been cultivated by a liberal and many-sided education. As a thinker he is clear, straight-forward and direct; his mind is at once acute and comprehensive; resting its conclusions not upon mere prejudice or authority, but upon sound investigation and reasoning. His mathematical pursuits have strengthened the native vigor of his logical faculty without impairing the power of his imagination. It is the combination of these powers with all the physical requisites of the orator, a strong and manly form, a powerful and sonorous yet musical voice, and with a noble style of delivery that makes him so effective a popular speaker. The admiring thousands that have recently hung upon his words as he has expounded the true theory of American liberty in various parts of the State, will hear with composure from the oracle that "peeps and mutters" through the Pennsylvania, that they have been listening to a "weak and vain pretender." But it is not necessary, as we have said, to waste words here. The Pennsylvania is stricken with fear of the talent of Prof. Tiffany; not of his want of it. It dreads the accession of such a warrior, nobly endowed by nature and armed cap-a-pie by education, to the ranks of honest and true men in the U. S. Senate who are battling against the sham Democracy of the Administration. We can best answer the false statements of the Pennsylvania by a simple recital of facts. Instead of entering Dickinson College as a student a few years ago, the truth is that Professor Tiffany entered it as a tutor in 1817. He entered the Junior Class as a student in 1842, and since that date has been absent from the State between two and three years out of thirteen. His first vote was cast in Pennsylvania. His "Southern blood" came through Yankee channels, as his father was born in Massachusetts, where his ancestors for several generations lie buried, within forty miles of Plymouth Rock. His "aristocratic" father now lives on the West Branch of the Susquehanna, where he is engaged in the "princely" occupation of hatching on as large a scale as possible. The "aristocratic" father now lives on the West Branch of the Susquehanna, where he is engaged in the "princely" occupation of hatching on as large a scale as possible. The "aristocratic" father now lives on the West Branch of the Susquehanna, where he is engaged in the "princely" occupation of hatching on as large a scale as possible.

american" blood in his veins; the "aristocrat" would find little to feed a vulgar pride in the humble one-story home of his fathers in the old Bay State. But Professor Tiffany may cherish the noble and just pride of an unspotted name, transmitted from sire to son, on American soil, never stained by any act disgraceful to the individual or dangerous to the State. If there be an honest and honorable lineage in Pennsylvania it is his—a lineage not traced through "Irish Nobility" but through staunch and sturdy American farmers and business men, all worthy citizens of the republic of whom such men are the very life-blood.

The dastardly attacks of the Pennsylvania upon the christian and clerical character of Professor Tiffany are beneath our notice. They are of a piece with Douglass's vulgar abuse of the clergy, in the Senate, last winter; and they will tell with as fatal effect—not upon the abused, but the abusing party. The American people cherish the Christian Religion and its Ministers; and it is a just retribution upon Douglass and the lesser fry that echo his slang, that the people in almost every state that has held elections since he uttered his infamous tirades against the clergy, have chosen some members of that high profession to take part in the legislation of the country, for which they are at least as well fitted both morally and intellectually, as any other class of citizens. And if Professor Tiffany should be elected U. S. Senator we venture to predict that he will attain in that body, in the course of a very few years, a reputation for talent, industry, elevation of character and purity of conduct, unsurpassed by that of any Senator whom Pennsylvania has sent there for thirty years.

FOREIGNERS IN OFFICE

In the Washington Union, we find an editorial article giving a statement of the number of natives and foreigners holding office under the United States Government, which at this time possesses interest. From the summary, it appears that the total number of persons employed under the State, Treasury and interior Departments, is 4106, of whom 3346 are Americans by birth, 430 foreigners, and 330 whose place of birth is not known. This is intended to prove that comparatively few foreigners are in office under the national Government; but a brief calculation will show that there are as many as the foreign population bears proportion to the native in the country.

At the date of the last census there were 17,737,000 native whites, and 2,210,000 foreigners. This is in the proportion of about one foreigner to eight natives, while the number of office holders as given above is in exactly the same proportion. If the 330 whose birth is not known, be foreigners, there would be an excess of them. Whether the statement has been made up in such a manner as to show just such a proportion, we do not know, but there are some facts which deserve mention. Thus, of the lighthouse keepers 138 are set down as Americans, 32 foreigners, and 132 not known; in the Customs department, 1845 Americans, 227 foreigners, and 26 not known; while in the Interior department which embraces the Land, Patent, Indian, Pension, and other divisions, there are none whose birth is not known; and the proportion is 286 Americans to 35 foreigners, exactly 8 to 1. The statement reveals that the United States despatch agent in London is an unaturalized foreigner, that twenty-seven of our Consuls or commercial agents, are also unaturalized, and that of the foreigners employed in the State department, one is not naturalized, "but soon will be."

REMOVAL OF THE FARM JOURNAL.—The "Pennsylvania Farm Journal," heretofore published at West Chester will hereafter be issued from No. 324 Second Street Philadelphia. The Journal is an excellent publication for farmers, and what is more, it is the only work of the kind published in the old Keystone. Every farmer would find it much to his advantage to subscribe for it. Terms \$1 a year. Subscribers received at this office.

FRENCH SPOILIATION.—The Washington Star intimates that there is very little doubt that the President will veto the French spoliation bill, should it pass Congress.

INCREASE OF PAY.—A bill has been introduced to increase the compensation of members of the Legislature, which has already passed to third reading in the Senate. Their pay is now three dollars per day, and the bill proposes to pay each member a salary of \$500, for the session, allowing mileage at the rate of fifteen cents a mile, besides limiting the number of officers in each House, in order that officers may not be increased indefinitely as has been practiced to some extent at the present session. It is hoped that by this arrangement all inducements to protract the session of the Legislature will be removed, and an adequate salary be allowed to members who abandon business at home, and come here to legislate.

APPOINTMENTS BY THE GOVERNOR.—We understand that Governor Pollock has made his selection of Harbor Master, Flour Inspector, and the other Philadelphia offices, but who they are we cannot say. We can say, however, without any fear of making a mistake, that the best, cheapest and most fashionable clothing for gentlemen in the United States, is to be found at Rockhill & Wilson's fine store, No. 111 Chestnut street, corner of Franklin Place, Philadelphia.

JOHN.—Good morning, Sir. How are you? STRANGER.—Good morning, sir; can you tell me where I can find the cheapest READY MADE CLOTHING, and the best?

JOHN.—Yes, sir. We have a number of good Clothing Stores in Carlisle, but Messrs. STRUBER & BROTHMAN, at the South East corner of the Public Square, has the cheapest.

STRANGER.—Well, so everybody says in the country. I did not know that they were mistaken, so I thought I would enquire of your town folks.

JOHN.—What kind of Clothing do you wish to buy? STRANGER.—Why I would like to get a good Overcoat, Dress Coat and Pants for myself, and a Coat and Pants for my boy.

JOHN.—Well, STRUBER & BROTHMAN, they say, have excellent Over Coats for \$7.00, Dress Coats for \$5.00, and Winter Pants for \$2.50 well lined.

STRANGER.—What about my Boy's Clothing? JOHN.—What about them? Why STRUBER & BROTHMAN turn out the cheapest lot of Boy's Clothing, both for Sunday and every day that you will find in Carlisle.

STRANGER.—Well, then I'm off to Steiner & Brothers. Clear the way. [Jan 10 '55]
