MPORTANT TO FEMALES! DR. CHEESEMAN'S PILLS. The combination of ingredients in these Pills is the re-sult of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have these Pills pro-red successful. They invariably open those obstructions to which. Females are liable, and bring mature into its proper channel, whereby health is restored and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from ex-posure, edd or any othor cause, the general health in-mediately begins to decline, and the vant of such a rem-redy has been the cause of so many consumptions among young females. To ladies whose health will not remit of an increase of their family, these pills will prove a val-uable acquisition, as they will prevent pregnancy.---Headache, pain in the side, palpitation of the heart, les-thing of food, and di turbed sleep do most always arise from she interruption of nature; and whenever that is the case, the pills will ifvariably remedy all thert evils. Nor are the less afficacious in the cure of Leucerfucea, commonly called the "Whites." These pills should fiel-er be taken during pregnancy, as they would be sure to cause a miscarriage.
