A number of new advertisements unavoidably omitted this week.

Our thanks are due to the Hon. Wm. H. Kurtz, of the U. S. House of Representatives, whose courtesy we have frequently experienced, for bound volumes of the President's Message and Reports.

ADJOURNMENT.

The Senate last week passed a joint resolution fixing the 17th of April for the final adjournment of the Legislature. On Monday last it came up in the House and various attempts were made to amend it, one of which, to substitute the 24th for the 17th of April, finally prevailed. The resolution as amended then coming up, Mr. Cummings, a friend of Gen. Cameron, moved to strike out the words sine die and insert a provision to the effect that when the house adjourns on the 24th of April it will adjourn to meet on the first Monday in October, in pursuance of the action of the joint convention of February last, for the purpose of going into an election for a U. S. Senator. This caused a warm debate which lasted until the adjournment, without any vote being taken.

THE LIQUOR LAW.

The bill abolishing tavern licenses is still pending in the State Senate. The committee to whom it was referred reported it on Thursday last, with an amendment authorizing the granting of licenses to sell in quantities not less than a quart, on the payment of three times the rates now required by law, and requiring all licenses to be granted by Courts of Quarter sessions. The bill was further amended by a provision that it should not go into effect until the 1st of July next. The first section then passed by a vote of 18 yeas to 9 nays, after which the bill was postponed for the present. Mr. Wherry of this district voted for the bill.

APPLICATION FOR PARDONS.—The liability of the Executive to imposition by the friends of applicants for pardons, we learn, has induced Gov. Pollock to adopt certain rules in relation to applications of this character, which it will be well for the people generally to acquaint themselves with. Satisfactory evidence will be required that at least five days previous notice of intended application for pardons was given to the District Attorney of the city or county in which the conviction took place; and that at least ten days previous notice of the same was given in a newspaper published where the conviction took place.

ON THE FENCE.—Our new neighbor, the American, we see by the last number is rather "on the fence" as respects the proposition for open organization of the American party. It is an important question and he is going to take time to consider it. The feeling in favor of open organization is rapidly increasing. The Lancaster Register warmly advocates it.

Prepare to Pre-pay your Postage.—Our readers will bear in mind that after the first of April, according to a recent act of Congress, all letters sent by mail must be pre-paid in stamps or otherwise, before they can be forwarded by Uncle Sam. This is an important change in the postage laws, and ought to be borne in mind by all who use the mails.

GOV. POLLOCK'S VETO.

The reckless manner in which the Legislature has been "putting through" Bank charters has given rise to no little alarm and apprehension. The moderate views of the Governor's inaugural address in respect to Banks, seems to have been construed by the Legislature to mean that he was disposed to sanction any thing in the shape of a Bank character of which reckless speculators might be able to secure the passage, and accordingly some dozen have been enacted in hot haste within the last two weeks, in utter disregard of the public welfare. In his message, which we publish to-day, returning with his objections the bill incorporating the Pottstown Bank, the Governor takes occasion by firm action and clear language to disabuse the minds of the members of the Legislature of their erroneous impressions. He has therefore vetoed this particular bill, and admonishes them in strong terms that charters of a like character, designed to increase without any public necessity the already sufficient banking capital of Pennsylvania, will meet with the same fate. The document expresses just and sound views of the principles which should govern our legislation respecting banks and banking;—points out the discriminations which should be made between those institutions which are needed by the public, and are properly guarded and regulated, and those which are unnecessary, unsubstantial, and pernicious, and indicates a line of policy which all intelligent and honest citizens will at once cordially approve and desire to see carried out by the government. The message gives general satisfaction in all quarters, though many would like to see the Governor go a step farther and veto all bank bills passed this winter, as totally unnecessary.

SALE OF THE MAIN LINE.

It is stated that a company has been formed who offer about three quarters of a millions of dollars more than the Central Rail Road Company.

Several bills are before the Legislature making provision for the sale of the Maine Line, but the bill now pending in the House seems to be of a most extraordinary character. It provides that if the purchasers pay less than 7 1/2 millions, they shall pay 20 per cent. within 90 days, and the remainder in ten annual instalments. If sold at eight millions or less than eight and a half millions, the purchasers shall not make any payments except interest for ten years, and then in ten annual instalments. If sold at eight and a half millions or less than nine millions, the purchasers shall make no payments except interest for fifteen years, and then in ten equal annual instalments. If sold at nine millions, or exceeding that, the purchasers shall make no payments except interest for twenty years, and then in ten equal annual instalments. This bill strikes us as admirably designed to put the Public Works in the hands of a company of speculators until they can make enough out of them to satisfy their rapacious cravings, when they will throw them back, worn-out and used up, on the hands of the Commonwealth. We trust that no such bogus bill as this will pass, or that it will not be supported by the Cumberland County members.

APPROPRIATION BILL.—The annual appropriation bill has been reported in the House or Representatives at Harrisburg. Its appropriations amount to about \$4,000,000, of which about a million and a half are to the Public Works.

The Governor has appointed the Hon. Thomas S. Bell, of Chester county, President Judge of the District composed of the counties of Monroe, Carbon, Pike and Wayne, in place of the Hon. Jas. M. Porter, resigned.

REVOLT IN AUSTRALIA.—The latest news from Australia is that the people have revolted and declared their independence of the British Home Government. Troops had been sent to put down the insurrection and sanguinary engagements ensued.

STILL TALKING SAVAGE.

It appears that the Spanish Government has not only consented to allow indemnity for the outrage on the Black Warrior steamer, but has also agreed to remove all persons now in office who were implicated in the seizure, thus making every reparation in their power. The Washington Union however intimates that the President will not be satisfied with this single concession. There must not only be atonement for other wrongs in the past, but security for the future against all aggressions and insults. All of which means in plain English that our government must by some hook or crook get up a pretext to seize Cuba by force.

NEXT CONGRESS.

The result of the New Hampshire election adds three to the opposition force in the House. There is of course some dispute as to the classification of a portion of the members already elected. A few are Democrats who have left their party and its recognized organization on the Nebraska issue. Including these gentlemen in the opposition to the present Administration, the member elected may be described as follows:

Whigs, Know Nothings, Republicans and Opposition Democrats, 123 Administration and Nebraska Democrats, 28 Total number elected from 18 States, 151 Remaining to be chosen, 83

Of these latter, Virginia, Kentucky, Tennessee, Louisiana, Georgia, and North Carolina, will choose Whigs and Know Nothings, with a small leaven of regular Democrats. If we allow the latter thirty members from all the States which have yet to elect we shall be liberal. We may allow them, therefore, in the whole House fifty-nine members, or enough to call the yeas and nays. That is a privilege which ought not to be denied to persons so fond of taking the responsibility as the Democracy boasts of being.

The uncertain and fleeting nature of political popularity is exemplified in the case of Franklin Pierce and his own State of New Hampshire. His administration opened with the warm support of every representative in Congress from New Hampshire, both in the House and Senate. It will close with both Senators and all the Representatives hostile to him, as well personally as politically.—The spectacle is rare, if not unprecedented, that a State which furnishes the President should not send a single Senator or Representative to sustain his administration.

NEW HAMPSHIRE ELECTION.—Full returns elect Metcalf, American, Governor, by a majority of about 1000 votes over all others, and 2,800 over the administration candidate, Baker. The American candidates for Congress are all elected by majorities ranging from 3,000 to 3,500 To the lower house of the Legislature, only 80 administration Democrats are elected out of a total of 306. The Senators elected are all Opposition, except one.

A Colonization meeting was held at Harrisburg, Pa., on Monday a week Gov. Pollock presided, and made an address in favor of the cause, and was followed by the Rev. R. R. Gurley, of Washington, and the Rev. Mr. Quay, agent of the Pennsylvania Colonization Society. A resolution was adopted to raise, in Pennsylvania, during the present year, at least \$10,000 in aid of colonization in Liberia.

CANADA.—The republican spirit seems to be rife in Canada. Secret societies, aiming at the political independence of the Colonies have been formed throughout the provinces.

THE WHEAT CROP.—The Ohio Cultivator publishes letters from various counties in Ohio, embracing the principal wheat-growing sections, and the letters all concur in saying that the breadth of ground covered with wheat is from one-third to one fourth less than an average. This is accounted for by the fact that the long drouth of last summer and fall prevented the ploughing of soil lands, and fall sowing was therefore confined to stubble and on a lands. Resort will be had, as far as possible, to the sowing of spring wheat; but as the growing of that variety of wheat has not been common in Ohio, seed is scarce.

TOWN AND COUNTY MATTERS.

CARLISLE DEPOSIT BANK.—For the convenience of those who may have business to transact in the Bank during the next two weeks, we are authorized to state that the bank will remain open from 9 o'clock A. M. until 3 o'clock P. M. and longer if necessity requires it.

Interest will be allowed on all special deposits for any length of time over four months at the rate of four per cent per annum.

GAS LOAN.—We are glad to learn that the prospect of securing the \$20,000 loan to the Carlisle Gas Company is highly favorable. A number of applications have been already made for portions of it, and there is no doubt the whole loan will soon be taken.

ROBBERY.—A man named Adolph Righter was arrested in Philadelphia, on Monday, upon the charge of robbing Mr. Wm. Baughman, of Shippensburg. Righter it appears had taken the morning cars for Philadelphia and immediately upon arriving in the city was nabbed by the police officers who were apprised of his coming by a telegraph despatch. He confessed to the robbery. Five dollars of the money, a pistol and a bundle of clothes were recovered from him.

PHILADELPHIA, March 26.—The Whig delegates who seceded from the Whig City Convention last week, because it refused to repudiate the Know-Nothing party, held a convention of their own on Saturday evening, and issued a call for ward meetings. From 75 to 100 persons were present, and resolutions were adopted denouncing the secret party, charging the present Legislature with combining to offer the Presidency of the United States to "a New York adventurer," at whose feet are to be laid the interests of Pennsylvania to be trampled on. They also reprobate the Legislature for passing numberless bank charters, thus inflating the currency, and generally denounce both the State and Municipal governments, and declare for freedom of conscience and fidelity to the constitution.

THE SUNDAY LIQUOR LAW.—The law prohibiting the sale of liquor on the Sabbath day, goes into effect on the first of April. Under this law any tavern keeper, beer house keeper, tipping shop keeper of any eating house, who sells, or knowingly permits any spirituous or malt liquor, wine or cider, to be drunk on his premises, can be fined fifty dollars—one half to the informer and the other half to the overseers of the poor. The violator may also in addition to the above penalty, be presented for a misdemeanor, and be fined not less than \$10 nor more than \$100, and be imprisoned from ten to sixty days.

ENLISTMENTS FOR THE EASTERN WAR.—It is settled beyond a doubt that recruiting offices are now actually open in Philadelphia, New York, and other American cities, to procure soldiers for the British "foreign legion," to serve in the pending war against Russia. The agent in New York has shipped off eighty persons already to Halifax, where they are sworn and regularly mustered into service, and he says he could procure five hundred men in New York in a week, if he had the means of shipping them.

INSANITY OF QUEEN VICTORIA.—It is said in diplomatic circles at Washington, that a private dispatch has reached that city, saying that Victoria was fast going the way of her ancestors, that is, becoming deranged, the symptoms having shown themselves in her recent illness.

BY LAST MAILS.

LATER FROM EUROPE!

ARRIVAL OF THE ATLANTIC.

Drath of the Czar of Russia Confirmed.

THE WAR TO GO ON!

Further Decline in Breadstuffs.

New York, March 27.—The steamship Atlantic has just reached her wharf, with one week's later advices.

Her advices confirm the death of the Czar Nicholas, and announce that on the 2d inst. the Emperor Alexander the Second ascended the throne, having peacefully succeeded his father. He has issued a manifesto stating that he will adhere to the policy of his father. The Duke Constantine and other brothers and officers have taken the oath of allegiance to the Emperor.

A speak of disagreement has arisen between England and France. Napoleon declared the two armies should not act together if the investigations of the English Parliament were proceeded with. Lord Clarendon went by express to France to set the matter straight, and it is thought Parliament will be dissolved in order to stop the investigation and obviate the difficulty.

The confirmation of the news of the death of Nicholas created the utmost excitement all over Europe.

Hopes were entertained at first that peace would be the consequence of Alexander's succession. But these hopes were dampened by the announcement that he would follow the course of his father.

The debates in Parliament and the columns of the English press have been almost exclusively occupied with discussions on the great event.

There has been more fighting in the Crimea. The French stormed a redoubt skillfully erected by the Russians during the night, and several hundred were killed.
