

Attack on Sebastopol Continued. The steamship Amorica, arrived at Halifax. on Thursday, with Liverpool dates to the 81st ult Her news was in mediately telegraphed to the city papers.

THE VIENNA CONFERENCE.

The steamer Baltic brought intelligence that the first of the four bases of peace was uncon-ditionally accepted by-Russia, and that the second was proceeding favorably. Since then, the second has likewise been accepted, but difficulties of a serious nature have occurred on the third.

The Western Powers, foreseeing trouble, did not propose the demolition of Sebastopol, but modified their demands into a roduction of Russian power in the Black Sea-in reconpense for which, they offer to evacuate the Russian territory. The Russian Plenipotenti-aries reply that they are not authorized to noceed to any such terms, and must remit the matter to St Petersburg. Hence the Confer ence stands still

All the pelenipotentiaries have sent to their government for instructions, and the Conterence will probably be adjourned until final authority shall arrive. Meantime, the fourth point is under discussion. Prince Gortscha-toff. on the 20th, moved for the admission of russia

FROM THE SEAT OF WAR.

The special correspondence of the London Times describes the condition of the army as much improved. Weather fine, health and pirits of the troops better, provisions abun lant, and sanatary regulations strictly enturced; but the actual works of the siege make no progress to justify favorable prophe ies. Actual increase of the lines and bateries there is, but it exists on both sides, and there has been no comparative advantage gained by the Allies. The effective force of the British army is now reported at 26,000 m n Another account says-"We have now 40 000 men and more alive; and of t eso be tween 15,000 and 20,000 of the noblest and strongest troops that ever handled muskets."

The Paris coreespondent of the London Post saya: "Before the month of April is a week old, another 10,000 of the elite of the French army will have left for the seat of war. The latest official intelligence from the Crimen informs us that Gen. Canrobert would bombard and storm a portion of the town of Sebastopol as soon as the English army were ready to do so, which it would be within a week at the latesı."

Accounts from the Crimen up to the 24th ult, state that the hombardment had not commenced, although the batteries had been finish ed since the 16th.

A camp letter says the Russian works ap pear in splendid condition, and quite crowded with troops. The heavy fire which they kept up had materially abated.

NAPOLEON'S VISIT TO ENGLAND.

The arrangements for the visit of the Emperor of the French and the Empress Eugenie to England are now said to be complete, and on the 16th of April the Imperial Court of France is expected to arrive on a visit to her Majesty the Queen, either at Windsor Cast e or in London. It would seem from this that the projected visit of the Empiror to the Crimea has been abandoned.

It is understood that the Emperor and Empress will remain in England about a fortnight. They will visit London, Osborn, Wo lwich, Portsmouth, Greenwich, and other places, but reside principally at Windsor Castle. The York and Lancaster Towers are being fixed up for that purpose, and the whole of the apart-ments in the Round Tower will be placed at the disposal of the attendants of the Emperor

BY DR. A. M. MAURICEAU, PROFESSOR OF DISKASPS OF WOMEN

One Hundredth Edition, (500,000), 18mn, pp. 250. [ON FINE PAPER, EXTRA BINDING, \$1.00]

A standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal conceclers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES bave been sold, of which there were upwards o ONE HUNDRED THOUSAND SENT BY MAIL. attesting the high estimation in which it is held as a re-liable popular Medical

BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, sauses of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uters (falling of the womb), or from fluor allow (weakness, debility, &c.) Many are in constant agony for many months preceding confinement Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various inbjects treated of, as they are of a nature strictly inended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a nother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, in consequences of the extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, introptitions infringements

PARLIAMENTARY INVESTIGATION.

The Schastopol Inquiry Committee on the management of the war, continues its sittings, and the revelations made become every day more and more appaling. Mr S. G. Osborne wes examined on the 24th of March, and as an eye witness of the scenes which he describes, gives the last touch to the dreadful picture by informing the country that the wounded and sick soldiers, by hundreds and by thousands, were literally starved to death.
