the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character,

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice, Many suffering from prolapsus uleri (falling of the womb), or from fluor allows (weakness, debility, &c.) Many are in constant agony for many months preceding confine ment Many have, difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and hap-

piness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advortised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.
