SCHIEDAM AROMATIC SCHNAPS.

TO THE CITIZENS OF PENNSYLVANIA.— I beg leave to call the attention of the citizens of Pennsylvania to the above article, manufactured by my self exclusively, at my factory in Schiedam, Holland, expressly for medicinal purposes.

It is made from the best barley that can be selected in Europe and the essence of aromatic Italian berry, acknowledged and extraordinary medicinal properties; and it has long since acquired a high reputation, both in Europe and America, than any other distillate beverage.

In GRAVEL, GOUT, and RHEUMATISM: In obstructions of the bladder and kidneys, and obstructions of the urinary functions, its effects are prompt, decided and invariably reliable. And it is not only a remedy for these maladies, but, in all cases in which they are produced by drinking bad water, which is almost universally the cause of them, it operates as a sure preventive.

The distressing effect upon the stomach, bowels, and bladder, of travelers new residents, and all persons unaccustomed to them, produced by the waters of nearly all our great inland rivers, like the Ohio, Mississippi and Alabama, from the large quantity of decayed vegetable matter contained in them, in a state of solution, is well known: as is also that of the waters of limestone regions. In producing Gravel, Gout, and Stone in the Bladder, the AROMATIC SCHIEDAM SCHNAPS is an absolute corrective of all these injurious properties of bad water, and consequently prevents the disease which they occasion.

It is also found to be a cure and preventive of Fever and Ague, a complaint caused by the joint effects of vegetable malaria in the atmosphere, and vegetable putrescences in the water of those districts in which it principally prevails. The Aromatic Schiedam Schnaps is consequently in great demand by persons traveling, or about to settle, in those parts of the country especially; as well as by many in every community where it has become known, on account of its various other remedial properties.

More than three thousand physicians, among whom are numbered the greatest names belonging to the faculty of medicine in this country, have certified, over their own signatures, to the valuable medicinal properties of such an article as the Aromatic Schiedam Schnaps, to which an article so highly recommended to be used and have accepted it as a most desirable addition to the MATERIA MEDICA.

Put up in quart or pint bottles, enveloped in yellow paper with my name on the label, cork and seal. For sale by all respectable Druggists and Grocers.

UDOLPH WOLFE, 15, 20 and 22 Beaver street, New York.

25 South Front street, Philadelphia.

I beg leave to call the attention of the public to the following letters from physicians:—

LANCASTER, N. Y., May 2, 1854. Sir, I cannot speak too highly of the purity of your Schiedam Schnaps. It is decidedly superior to anything of the kind in the market. It is perfectly free from the admixture of fusil oil, or of any of those arid compounds which produce a violent inflammation of the bladder, and which very few alcohol distilled in Europe are without—most of them being largely impregnated with it. I have personally inspected the various processes of distillation practiced at Schiedam, and know that the utmost care is used to separate the noxious elements from the pure alcohol, and your Schnaps is a striking proof of its success. As a medicinal agent for chronic and renal affections, I have successfully prescribed it, and recommend it as a genuine cordiac and tonic stimulant, and shall continue to do so; as well as to use it as a source of pure alcohol for chemical investigations and experiments.

Yours obediently, Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnaps as a remedy in chronic catarrhal complaints, &c. The letter is dated July 27, 1853.

"I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the disease for which you recommend it. Having a natural tendency to the same surface, with a slight degree of stimulation, I regard it as the most important remedy in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect your obedient servant, CHARLES A. LEAS, M. D.

Philadelphia, July 15, 1853. Dear Sir, Last season the writer received, through your agent in this city, a bottle of your Aromatic Schiedam Schnaps, and since that period has prescribed the same in certain cases of urinary complaints; also in cases of debilitated aged persons. So far, the Schnaps has been of much benefit to those using it. In conclusion, where a diuretic and stimulant is required, I should use the Aromatic Schiedam Schnaps. Thanking you for your kindness, I am respectfully yours, A. D. CHALONER, M. D., 180 S. Eighth st.

The subjoined letter from Dr. Paine, of Manchester, N. H., relates to one of the most valuable medicinal properties possessed by the Aromatic Schiedam Schnaps, and that it acts as a specific in a very painful disease—the Gravel.

"Mr. Wolfe.—Permit me to address you a few lines, which you are at liberty to use if you think proper in respect to your medicine, called Schiedam Schnaps. I have had a very obstinate case of gravel and stone, of some five years' standing, causing very acute pain in every attempt to urinate. After using many remedies without much relief, I ventured to try a bottle of your medicine. In the course of three days it proved effectual, discharging large pieces of stone, some of which was as large as a narrow file. I continued the cordial according to directions, and the patient continued to gain, and is fast recovering. I think a medicine of so much value in so distressing a complaint, should be known to the public, and the world at large. And I for one, must give it my approbation and signature. THOS. PAINE, M. D.

From Dr. John S. Reese, Chemist, Baltimore, Md. Sept. 15, 1852: "A number of my physicians are ordering the article, and several have already prescribed it. Persons to whom I have sold it speak very highly of its qualities. A gentleman of my own personal acquaintance, having suffered greatly with an affection of the kidneys and bladder, took your medicine, and subsequently passed a stone of considerable size, and was greatly relieved. It will no doubt go into general use."
