TOR COUNTY TREASURER JOHN G. WILLIAMS, of Carlislo. Carlislo, June 13."

DERRY CO'Y. WARM SPRINGS PENNSYLVANIA,
Will be open for visiters from the 5th day of June.

II. II. ETTER, Proprietor.

This most desirable watering place is situated on the banks of Shorman's Creek, which flows at the base of Pregab Mountain, some five hundred foct above the level of the creek, in front of the dwellings. This stream allowly pleakment the guests, as there are bents upon it to pass up and down, also a beautiful Island in it, well shaded with large forest trees: the walks up and down the creek are delightful, while there is pleasure for these who desire to fish in the streams. The springs are numerous, and cannot be surpassed for bathing: there are bath houses separate for ladies and gentlemen, also large plunge pools for each, with an abundance of pure spring water. H. H. ETTER, Proprietor.

plunge pools for each, with an abundance of pure spring water.

There is an extensive view of rich and rare scenery of mountains and valleys, being the most picturesque in the state. Among the attractions of the Warm Springs there are numerous shady and romantic summer roads, making it very pleasth for drives. Horses and vehicles will be kept this season to hire.

Having taken prins in making a selection of first. Fite servants, I feel confident, they will give general satisfaction to the guests. There shall be no pains spared in supplying my table with the luxuries of the markets.

All persons leaving Philadelphia or Baltimore, in the morning train to Duncannon, on the Central Railroad, fourteen miles north-west of Harrisburg, then taking a ceach which is always in readiness, will arrive at the springs about 4 of colock, the fare being but \$400 through to the Springs.

All communications intended for the springs should be addressed Duncannon Post Office, for the springs, and

MAN KNOW THYSELF!

Your head is the type of your mind. Self-knowledge is the essence of all knowledge. Worth always harmonizes with itself. All the known phenomena of the universe may be referred to three general principles, viz: Matter Metion and Spirit.

DR. C. H. B)DUE, Practical Phrenologist, has taken a Phreno Medical office on South Hanover street, Carlislo, Pa., where he is prepared to make professionel examinations with verbal and written descriptions of human character, talents and disposition, as phrenologibally and physically developed, including directions to the most soitable occupations, selections of partners in business, or genial companions for life, or how to choose a husband or wife; together with advice as to the proper regulation of the temperaments, propensities, appetites and habits. In sickness how to guin health again when lost by exposure to bad habits. He will make charts of character so that persons having a chart can learn this wonderful science without a teacher. To teach learners those organic conditions which indicate character is the first object of this great book on mind and matter, and in order to render it necessible to all it condenses facts and conditions rather than claborates arguments, because to expound Phrenology is its highest proof. It is tites laws and results and leaves them upon their naked me its; embodies recent discoveries and crowds into the fewest p ssible pages and words just what learners need to know, and hence requires to be studied rather than merely read. "Short yet clear," is its motto. Its numerous iljustrative engravings give the results of very extensive professional observation and experience. To record character is its second object. In fact it is just what every body want. Price \$2. For examination and Chart marked \$2. Verbal examinations 25 cents. Carlisle, June 13, 1805.

IN "LITERARY HALL," NEWVILLE, ON TUESDAY, AUGUST 7.th 1855.

To this Exhibition, Farmers, Manufacturers, Mechanics, Artists, Inventors and all others desiring to display the results of their labor, skill, ingenuity and taste, are cordially, invited to contribute. The success of their first exhibition warrants the expectation that the second will not be inferior to any ever held in this, or any of the adjoining countles. The Managers, therefore, feel, that in inviting contributions from this and the adjoining countles to their second annual exhibition, they are offering to the producer of excellent articles a valuable upportunity of making known to the country their novelty and utility, the superior style of their workmaship, and their adaptation to the purposes for which they may be intended. Materials. Machinery mild Manufactures, which have elicited commendation at similar displays alsewhere, may here find new admirers and a new market. The managers would respectfully solicit the Ladies to contribute specimens of clegant handiwork, which heretofore have formed so attractive and important a feature of these displays.

In Gravel. Gort, and Rightmatism: in obstructions of the Bladder and Kidneys, and debility of the urinary functions, its effects are prompt, decided and invaribly reliable. And it is not only a remedy for these maladies, but, in all cases in, which they are produced by drinking bad water, which is almost universally, the cause of them, it operates as a sure preventive.

The distressing effect upon the Stomach, Bowels, and Bladder, of travelers, new residents, and all persons unactustomed to them, produced by the waters of nearly all of our great/linkand rivers. like the Ohio, Mississippi and Alabama, from the large quantity of decayed vegatable matter contained in them, in a state of solution, is well known; as is also that of the waters of limestone regions, in producing Gravel. "Mn. Under Wolfelder Sis: I cannot speak too highly of the purity of your Schiedam Schinapps. It is decidedly superior to anything of the kind in the market, it is perfectly free rom the admixture of fusitioil, or of any of those arrylle compounds which produce such a mischievous and irreparable offect upon the constitution, and which very few alcoholic distilled liquors are without—most of them being largely supergented with it. I have personly inspected the various process of distillation practiced at Schiedam, and know that unusual care is taken to separate the noxious elements from the pure alcohol, and your Schinaps is a striking proof of its success. As a medicinal agent for chronic and renal affections, I have successfully prescribed it, and recomend it as an agreable cardial and harmless stimulant, and shall continue to do so; as well as to use it as a source of pure alcohol for chemical investigations and experiments.

"Mn. Wolff:—Permit me to address you a few lines, which you are at liberty to use if you think proper, in respect to your medicine, called Schiedam Schnapps.—I have had a very obstinate case of gravel and stone, of some five years' standing, causing very acute pain in every attempt to urinate. After using many remodies without much relief, I was induced to try a bottle of your medicine. In the course of three days it proved effectual, disloging large pieces of stone, some of which was as large as a marrowfat pea. I continued the cordial according to directions, and the patient continued to gain, and is fast recovering. I think a medicine of so much value in so distressing a complaint, should be known to the public, and the world at large. And I for one, must give it my approbation and signature.

ARRIVAL OF THE ATLANTIC!

#### Desperate Conflicts and Victories of the Allies!

By the arrival of the steamship Atlantic at New York this, Wednesday morning, we have ntelligence from England to the 2d of June.

From the Crimea there are account of three everal victories obtained by the Alies. First, the French, in a sanguinary conflict, lasting he whole night of the 22d and 23d of May, took and retained an important position before s Sebastopol, giving them the most important advantages in future operations. The fight is epresented to have been the most desperate that has taken place since the battle of Alma About 8,000 men were killed or wounded,

mostly by bayonet. Secondly the Allies made rapid advances nd seized and retained the Russian lines on the Tchiermayen, without much loss, the Russians retreating to the hills.

Thirdly, the Secret Expedition of the Allies as made an easy conquest of Kertsch, which commands the sea Azorf, in which there are now 14 Allied steamers The Russians on the approach of the Allies blew up the Forts and burned four steamers.

From England we learn that the French and English government both decline entering into further negotiations at the Vienna Conference
