To teach learners those organic conditions which indicate character is the first object of this great book on mind and matter, and in order to render it accessible to all it condenses facts and conditions rather than elaborates arguments, because to expound Phrenology is its highest proof. It states laws and results and leaves them upon their maked merits: embodies recent discoveries and crowds into the fewest possible pages and words just what learners need to know, and hence requires to be studied rather than merely read. Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnapps as a remedy in chronic catarrhal complaints, &c. The letter is dated July 27, 1853;

"I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the disease for which you recomend it. Having a natural tendency to the muccous surfaces, with a slight degree of stimulation. I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito urinary apparatus. With much respect your obedient servant.

"Mr. Udolpho Wolfe, No 22 Beaver st. N. Y.—Bear sir: Last season the writer robelved, through your agent in this city, a bottle of your Aromatic Schiedam Schuapps, and since that period has prescribed the same in certain forms of urinary complaints; also in cases of debility in aged persons. So far, the Schnapps has been of much benefit to those using it * * In conclusion, where a diuretic and stimulant is required, I should use the Aromatic Schiedam Schnapps. Thanking you for your kindness, I am respectfully yours.

A. D. CHALONER, M. D., 180 S. Eighth st.

The subjoined letter from Dr. Paino, of Manchester, N. H., relates to one of the most valuable medicinal properties possessed by the Aromatic Schnapps, and shows that it acts as a specific in a very painful disease—the Grand's Gravel:
"Mr. Wolfe:—Permit me to address you a few lines.

"MR. Wolfe:—Pormit me to address you a few lines, which you are at liberty to use if you think proper, in respect to your medicine, called Schiedam Schnapps.—I have had a very obstinate case of gravel and stone, of some five years' standing, causing very acute pain in every attempt to urinate. After using many remedies without much relief, I was induced to try a bottle of your medicine. In the course of three days it proved effectual, disloging large pieces of stone, some of which was as large as a marrowfat pea. I continued the cordina to directions, and the pationt continued to gain, and is fast recovering. I think a medicine of so much value in so distressing a complaint, should be known to the public, and the world at large. And I for one, must give it my approbation and signature.

From Dr. John S. Reese, Chemist, Baltimore, Md. Sept.

"A number of our physicians are ordering the article, and several have already prescribedit. Persons to whom I have sold it speak very highly of its qualities. A Gentlemen of my own personal acquaintance, having suffered greatly with an affection of the kidneys and bladder took two bottles and subsequently passed astone of considerable size, and was greatly relieved. It will no doubt go into general use,"

The most important news from the Crimea is that Lord Ragian is dangerous'y ill and asks to be recalled. The total allied loss in the action of the 18th is ascertained to be over 5000 men including 93 officers. The army is nevertheless reported to be in good spirits and preparing for another assault:-No further battles have occurred on land or

Austria continues to disband her army.

Gen, Pellisler telegraphs from the Crimea on the 26th, Othere is nothing new. We are pushing our approaches against Malakoff.

Rumors were circulated in Paris as to the causes of the defeat, one of which attributes errors to the British Commander. The Enghish on their side say they took Redan but could not hold it because the French failed to si ence Malakeff.

THE OUTRAGE ON GOV REEDER -A correspondent of the New York Journal of Commerce gives more completely the facts of this affray then we have before seen. It appears that the Governor was sitting alone in his office, his Secretary, Mr. Lowry, being sick and confined to his room at the time, when the well known -Gen. Stringfellow entered. He was courteously received, but soon raised an exciting dispute in relation to the governor's course, which at length became so violent as to attract several persons standing in front of the door; and he on the spot gave the Governor a verbal challenge, which was immediately declined. the Governor saying that he was no subscriber to the dulling code. At this time the Governor was carelessly sitting with his chair balanced upon the two hind legs. Stringfellow ad-vanced, and by putting his hand upon his hand upon his shoulder, pushed him over, at the same time falling upon him, and scratching him deeply in the cheek with his nails. The Governor kicked him off, and rose to his feet, both gentlemen drawing their pistols, when Stringfellow was scized by Attorney General Isaacks and Mr. Halderman, and the Governor dropped the muzzle of his weapon, saying that he scorned to attack a min who was prevented from defending himself. By the interference of the two gentlemen, the matter was calmed down. Stringfellow, who thus begins by attempting to intimidate the Governor of Kansas Territory, and failing in that personally assaults him, is a resident of Weston, Mo., and makes no pretence of living in the Territory. It is generally belived that the Missourians have direovered that they will be unable to manage two-thirds of the Legislature, and thus avoid the Governor's veto; and therefore the conduct of their acknowledge leader. During the late affair the Governor had twice good epportunity to shoot Stringfellow, and the friends of order, and his friends, a are very thankful that he refrained; for had any injury, even the slightest, occurred to Stringfellew, in two hours a crowd would have been raised on the border, against which resistance would have been useless, and no one can imagine what would have been the ultimate consequence.

DERRY CO'Y. WARM SPRINGS. PENNSYLVANIA, Will be open for visiters from the 5th day of June. H. H. ETTER, Proprietor.

H. H. ETTER, Proprietor.

This most desirable watering place is situated on the banks of Sherman's Creek, which flows at the base of Pisgah Mountain, some five hundred feet above the level of the creek, in front of the dwellings. This stream affords pleasure to the guests, as there are beats upon it to pass up and down, also a beautiful Island in it, well shaded with large forest trees; the walks up and down the creek are delightful, while there is pleasure for those who desire to fish in the strems. The springs are numerous, and cannot be surpassed for bathing; there are bath houses separate for ladies and gentlemen, also large plunge pools for each, with an abundance of pure spring water.
