In Gravel, Gott, and Ruelmatism; in obstructice to the Bladder and Kidneys, and debility of the uring functions, its effects are prompt, decided and invaring reliable. And it is not only a remedy for sthese male dies, but, in all cases in which they are produced by drinking bad water, which is almost universally, the cause of them, it operates as a sure preventive.

The distressing effect upon the Stomach, Bowels, and Bladder, of travelers, new residents, and all persons unaccustomed to them, produced by the waters of nearly all of our great Inland rivers, like the Ohio, Mississippl, and Alabama, from the large quantity of decayed vegatable matter contained in them, in a state of solution, is well known; as is also that of the waters of limestone regions, in producing Gravela, Cytecka, and stone in the Brander. The AROMATIC SCHIEDAM SCHINAPPS is an absolute corrective of all these injurious properties of lad water, and consequently prevents the disease which they occasion. It is also found to be a cure and preventive of Fever and A zue, a complaint caused by the conjoint effects of vegetable malaria in the atmosphere, and vegetable putrescences in the water of those districts in which it principally prevails. The Aromatic Schiedam Schappis is consequently in great demand by persons traveling or about to settle in those parts of the country especially; as well as by many ingevery community where it has become known, of account of TEV various other remedial properties.
