GRAIN DRILLS FOR 1855. MOOR'S PATENT GRAIN & SEED PLANTER.

For planting Wheat, Rye, Oats, Indian Corn. Timothyseed, &c. The operation of this machine has been highly satisfactory and successful wherever introduced and tested. Notwithstanding the great competition in the manufacture and varied inventions of this important agricultural implement, "Moore's Patent" continues to maintain its superiority over all others now known to the farmer.

maintain its superiority over all others now known to the farmer.

Its principal points recommending it are, 1st. Its durability. 2d. Its perfect simplicity of construction. Id The easy manner of regulating the machine to sow any dosired quantity of grain to the acre. 4th. The exactness with which it distributes the seed, operating equally well on uneven or sliding grounds as on the level surface. 5th. The easy draught, being about 25 per cent. less than any other seeding machine now in use.

The undersigned begs leave to inform the farmers of Cumberland county, that he is authorized by the manufacturer to sell the above drill. All orders will be promptly attended to and full satisfaction given, by calling upon, or writing to meat Carlisle. Send in your orders early.

Deafness and Ear Diseases Radically Cured.

DR. LeBRUNN offers to those suffering from Deafness his INEADLIBLE AURAL REMEDIES, which have been successful in nearly 3,000 cases of confirmed deafness. These remedies comprise different courses for diseases of the internal, middle and external ear, and have been pronounced by those celebrated aurists, Drs. Cramer, of Berlin, Itard, and Delan, of Paris, Curtis, Pilcher and Yearsly, of London, as being the MOST WONDERFUL and EFFECTUAL ever applied for diseases of the internal and middle ear. Dr. LeB. WAR-RANTS A CURE in every case where the ear is perfect in formation. He has eighteen certificates of cures from those who had been DEAF AND DUMB, and whose hearing is now completely restored and are now enabled to learn the language. The names of 2.700 persons who have been cured by Dr. LeB. may be seen on application. Patients, by sending a description of the case, can have remedles sont to any part of the United States.

When the auditory is dry and scaly, withlittle or no secretion; when the deafoess is accompanied with noise in the ear, like falling water, chirping o, insects, ringing of bells, rustling of leaves, continual pulsations and discharge of matter, or when in stooping, a sensation is felt as if a rush of blood to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible.

EESTIMONY.—The undersigned practioners in medicine in the city of New York, having had frequent ocasion to witness the practice of Drs. Lebrunn and Duffon, in diseases of the Ear and Eye, laying aside all professional jendousy, freely admit that the course pursued by them in treating diseases of these delicate organs, from the unparalicled success attending it, is well worth the attention of our professional brethren throughout the United States, feeling assured, as we do, that Aural Surgery has not met' with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear, by "Medicated Vapors," particularly in chronic or complicated cases, forms a new ear in the pratice of Aural Surgery; such cases yielding in almost every instance to this new and powerful agent. This practice ills up a vid which has long been felt by the general practioner, enabling him to cope successfully with every as where perfect formation exists.

dies, but, in all cases in which they are produced a drinking bad water, which is almost universally, it cause of them, it operates as a sure preventive.

The distressing effect upon the Stomach, Bowels, an Bladder, of travelers, new residents, and all persons unceustomed to them, produced by the waters of near all of our great inland rivers, like the Ohio, Mississip and Alabama, from the large quantity of decayed veg table matter contained in them, in a state of solution, well known; as is also that of the waters of limeston regions, in producing Graver, Cylcult, and stone in the BLADER. The AROMATIC SCHIEDAM SCHNAPPS an absolute corrective of all these injurious properties had water, and consequently prevents the disease which they occasion. It is also found to be a cure and preventy of Fever and Ague, a complaint caused by the cojoint effects of vegetable malaria in the atmosphere, at vegetable putrescences in the water of those districts is which it principally prevails. The Aromatic Schieda Schnapps is consequently in great demand by person traveling, or about to settle in those parts of the courtry especially; as well as by many in every communit where it has become known, on account of its variou of the remedial properties.

More than three thousand physicians, among who are numbered the greatest names belonging to the facuty of medicine in this country, have certified, over the own signatures, to the valuable medicinal properties, such an article, as the severest tests have proved. It Schiedam Aromatic Schnapps to be and have accept it as a most desirable addition to the Matrana Middle.

I beg leave to call the attention of the public to th ollowing letters from physicians:

LABORATORY.N. Y. May 2, 1823,

"Mr. Udolph Wolffe—Dear Sis: I cannot speak to highly of the purity of your Schiedam Schnapps. 11; decidedly superior to anything of the kind in the market, it is perfectly free from the admixture of fusil of, or of any of those armylic compounds which product such a mischievous and irreparable effect upon the constitution, and which very few alcoholic distilled liquor are without—most of them being largely impregnate with it. I have personly inspected the various process of distilation practiced at Schiedam, and know that un usual care is taken to separate the noxious element from the pure alcohol, and your Schnaps is a striking proof of its success. As a medicinal agent for chroniand renal affections. I have successfully prescribed it and recomend it as an agreable cordial and harmler stimulant, and shall continue to do so; as well as to use it as a source of pure alcohol for chemical investigations and experiments.

Yours obedient.

ISIAH DECK, LABORATORY. N. Y. May 2, 1823,

Consulting Analytical Chemist."

WM. T. BROWN, Pres't.

Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnapps as a remedy in chronic entarrhal complaints (c. The letter is dated July 27, 1853;

"It take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the disease for which you recomend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito urinary apparatus. With much respect your obedient servant.

CHARLES A. LEAS, M. D.

"Mr. Udolpho Welfe, No 22 Beaver st. N. Y.—Dear Mr. Last season the writer received, through your agent in this city, a bottle of your Aromatic Schiedam Schnapps, and since that period has prescribed the same in certain forms of urinary complaints; also in cases of debility in aged persons. So far, the Schnapps has been of much benefit to those using it * * * in conclusion, where a diurctic and stimulant is required, I should use the Aromatic Schiedam Schnapps. Thanking you for your kindness, I am respectfully yours,

A. D. CHALONER, M. D., 180 S. Eighth st.

The subjoined letter from Dr. Paine, of Maychester, N. H., relates to one of the most valuable medicinal properties possessed by the Aromatic Schnapps, and shows that it acts as a specific in a very painful disease—the Gravel.

Gravel:

"Mn. Wolff:—Permit me to address you a few lines.
which you are at liberty to use if you think proper, in
respect to your medicine, called Schiedam Schnapps.—
I have had a very obstinate case of gravel and stone, of
some five years' standing, causing very acute pain in every attempt to urinate. After using many remedies without much relief, I was induced to try a bottle of without much relief, I was induced to try a bottle of your medicine. In the course of three days it proved effectual, disloging large pieces of stone, some of which was as large as a marrowiat pea. I continued the cordial according to directions, and the patient continued to gain, and is fast recovering. I think amedicine of so much value in so distressing a complaint, should be known to the public, and the world at large. And I for one, must give it my approbation and signature.

THOS. PAINE, M. D."

From Dr. John S. Reese, Chemist, Baltimero, Md. Sept. 15, 1852:

 15, 1852:
 A number of our physicians are ordering the article, "A number of our physicians are ordering the article, and several have already prescribed to Persons to whom I have sold it speak very highly of its qualities. A Gentlemen of my own personal acquaintance, having suffered greatly with an affection of the kidneys and bladder took two bottles and subsequently passed a stone of considerable size, and was greatly relieved. It will no doubt go into general use,"
