"Provincialisms of English Language.

Be Careful of Small Things.

When one considers the vast number of human beings that use the English Language as the medium of communication of ideas, of the different circumstances in which they live, the different employments to which they devote themselves, the different stocks from which they have sprung, and the various langnages which the English has taken upon itself to absorb and assimilate, it will not surprise him if he shall find the well of the pure old English very much defiled in many instan

One of the greatest difficulties with which the pure English has to contend is the heritige, of ignorance which children receive from their parents. Peculiarities in pronunciation, blunders in orthography or accentuation, misconception of the meaning of words themselves, pass down from father to son, with as much regularity and as constant an accumulation as the farm or the family mansion. This is peculiarly observable in the old English districts where life for centuries has been cast in the same mould, and old forms and customs have become as natural and familiar as the hills that hem in the population from the world around. A few years since a Mr. Halliwell of London, published a Dictionary of Archaic and Provincial Words, obsolete phrases, proverbs, and ancient customs from the fourteenth century. We extract examples of the dialect of Staffordshire and Sussex in England.

STAFFORDSHIRE.

" Conversation between a Canal Boatman co.d. his wife.

Wife. Dun you know Suden Mouth, Jemmy?

Boatman. Ees; an' a neation good feller he is tew.

Wife. A desprit quoiet man, but he loves a sup o' drink. Dùn yo know his woif?

Boatman. Know her ? ay. Her's the very devil ware perits up.

Wife. Her is. Her uses that man sheamfull; Her rags him every neet of her loif .--Who was her feyther?

Boatman, Whoy, Singing Jemmy.

Wife. Oi don't think as how oi ever know-

ed Singing Jemmy. Was he old Soaker's brother?

Boatman. Ees he was. He lived a top o Hell Bank. He was the wickedest, swearinest mon as ever I knowed. I should think as how he was the wickedest mon in the world, and they say he had the rheumatiz so bad."

SUSSEX.

Irving, in his life of Washington, dwells on the particularity with which the great hero attended to the minutest affairs. The Father of his country, as his correspondence and ac count books show, was "careful in smal things" as well as of great, not disdaining to scrutinize the most petty expenses of his household; and this even while acting as the first magistrate of the first republic in the world. In private circles in this city, tradition preserves numerous anecdotes of this characteristic, which, if necessary, we could juote.

The example of Washington, in this respect, The example of Washington, in this respect, might toach an instructive lesson to those who scorn what they call "petty" details. There are thousands of such individuals in every community. We all know more or less of them. Nothing is worthy of attention, in their opinion, unless it can be conducted on a large scale. They will not condescend to the pennies, it is only the dollars to which they will attend. They spurn a small business.-They talk superciliously of those who overlook the little leakages that waste so much money in every concern. To hear them, one might think they were above the ordinary affairs of life, and that nothing was worthy of e, except discouring a California or their couge Ering a kingdom.

Areful of small things." As the beach is composed of grains of sand, as the ocean is made up of drops of water, so the millionaire is the aggregation of the profits of single ventures, often inconsiderable in amount ---Every eminent merchant, from Girard and Astor down, has been noted for his attention to details. Few distinguished lawyers have ever practised in the courts, who have not been remarkable for a similar characteristic. It was one of the most striking peculiarities of the first Napoleon's mind. The most petty details of his household expenses, the most trivial facts relating to his troops, were, in his opinion, as worthy of his attention. as the tactics of a battle, the plan of a campaign, or the revision of a code. Demosthenes, the

world's unrivalled orator, was as arxious bout gestures or his intonation, as about the texture of his argument or its garniture of words. Before such great examples, and in the very highest walks of intellect, how contemptible the conduct of the small minds who despise small things!

COOL IMPUDENCE .--- 'Will you oblige me with a light, sir ?' 'Certainly, with the greatest pleasure,' says stranger, knocking off the ashes with his little finger, and presenting

puffing, till the fresh cigar ignites, when they ADIES! please call at RAWLINS' separate with a suave bow and wave of the hand. Smith chucks his friend, who was near splitting with laughter, under the ribs with—'There'1-didn't I tell you I would get it? That's the way to get along in the world.
