HERALD AND EXPOSITION

REPORT OF THE SECOND ANNUAL FAIR OF THE

Big Spring Literary Institute,
HELD IN NEWVILLE, AUG. 7th to 11th, 1855.

REPORT OF THE MANAGERS.

The expectations of the managers were fully realized at the Second Annual Fair of the Big Spring Literary Institute. From our own and neighboring counties hundreds of articles were presented for exhibition, and even distant States contributed to the display. The ladies, with their accustomed readiness, cheerfully offered the products of their skill and ingenuity to render the Fair attractive and the thousands who visited it seemed delighted with the exhibition. The address by Col. A. K. McCune, of Chambersburg, was eloquently replete with useful hints and practical suggestions to farmers.
In publishing the following condensed report, the managers would merely state, that the Judges, in discriminating between articles of almost equal merit, endeavored to exercise impartial judgment.

THIS DEPARTMENT OF THE FAIR WAS COMPLETELY STOCKED WITH DOMESTIC FOWLS MANY OF WHICH WERE DESERVING OF NOTICE; BUT THE ABOVE, IN COMPETITION WITH OTHERS OF SIMILAR AGE, DESERVE PRECINENT NOTICE.

THE BIG SPRING BRASS BAND.

Was daily in attendance, and its spirit-stirring music was a most attractive feature of the Fair.
The result of this Fair has satisfied the members of the Institute that they will be sustained by the people in the great work which they have undertaken.

The Premiums for the next Fair will be published in proper time and all means in the power of the managers used to make it beneficial both to exhibitors and visitors.
The names marked thus * received Premiums and the others Diplomas.

DREADFUL EPIDEMIC.—Accounts from Norfolk, Portsmouth, and Gosport, Virginia, give a melancholy picture of the condition of those cities, occasioned by the ravages of the yellow fever. From 25 to 50 deaths occur daily at Norfolk and from 10 to 15 at Portsmouth, and this, too, though all who can possibly get away have left the infected districts. The greatest suffering prevails—many of the sick having no persons to take care of them in consequence of the panic. The streets are deserted and business for the most part suspended. Large amounts of money have been collected in various parts of the Union to administer relief. The epidemic is said to differ from the disease of the same name heretofore prevailing at the South.

OHIO POLITICS.—The opposition to Chase for Governor seems to be subsiding. Two of the papers which opposed him have come into his support. Another published at Germantown has been sold out and converted into a Democratic paper. Another published at Cleveland has also been offered for sale, as opposition does not pay there. Papers hitherto neutral are espousing the Republican cause. On the surface every thing looks fair for Chase.

SUMMARY OF NEWS

FRIDAY, August 24.

The N. Y. Democratic Hard Shell Convention met at Syracuse yesterday to form a State ticket. They call themselves National Democrats but are openly and bitterly opposed to the Pierce administration. The workmen of the great chandelier manufactory of Cornelius Baker & Co. of Philadelphia, to the number of five hundred, with their wives and children, started on an excursion to Niagara Falls yesterday. They were accompanied by bands of music and made a great sensation. There were 15 deaths in Norfolk and 20 in Portsmouth yesterday of yellow fever. President Pierce had an attack of chills and fever yesterday, similar to what he suffered last year.

SATURDAY, August 25.

A deliberate murder was perpetrated in Elm street, New York city, yesterday morning. A man named Robert Bullius shot another, named Henry Bloomer with a pistol. The charge passed through the breast of the victim, and he died soon after. Bullius confessed the deed and seemed to think it perfectly right. He charged Bloomer with having robbed his trunk two years ago, and swore falsely against him on a recent trial for assault. He is in prison. The Kansas Legislature has authorized a vote to be taken in the territory on the question of calling a convention to frame a State Constitution. A fire in St. Louis, on the 20th inst., destroyed three large four story warehouses owned by D. D. Page and L. A. Benoist, and occupied by Lyons and Sullivan and other firms. Loss \$25,000. Insurance \$20,000. A flood at Albany on Thursday, inundated cellars, streets etc., and did great damage to public and private property. The census of New York city is at last complete, and shows a total population of 623,026, being an increase of 108,232 in the last five years. During the previous five the increase was 144,171. A frame house in process of construction at Easton, Pa., fell yesterday, and fatally wounded one man and badly hurt five others. The Bucks County Agricultural Fair took place yesterday at Doylestown, and was rendered attractive by a baby show, and an exhibition of female equestrianism for prices.

GREAT OUTRAGE.—We learn from the correspondence of the Philadelphia Ledger that a man named Patterson, twenty-one years of age, was brought to Chester county prison on Wednesday night last, upon a charge of committing one of the most fiendish outrages ever perpetrated, in attempting first to violate the person of a young female acquaintance, and then to murder her. The man resides in West Whiteland township, near the West Chester Railroad, and resides with a farmer named Thomas Hoskins. The outrage was perpetrated on the evening of Wednesday, in a lonely spot, and the female was left in a condition which he doubtless supposed to be lifeless—the murder being designed to destroy all evidence of his guilt. The female in question and who at present is lying in a most precarious position, also resides with Mr. Hoskins, as does Patterson.

It appears that on Wednesday afternoon, a female acquaintance of Miss Workman residing at the Steamboat Station, called to make a visit and remained until evening, when she returned home. Miss Workman accompanied her for some distance, and they were escorted by Patterson. After separating from her friend, Patterson and Miss Workman returned homeward. The path leads diagonally across the field east of the Steamboat and then across two or three other fields to the West Chester Railroad. Half way between the two roads, and but a short distance from a house, Patterson attempted to take liberties, but meeting resistance, he resorted to force; after a struggle he threw her to the ground, beat her on the head, bruised her neck, and whether his purpose was accomplished or not, left her in almost a lifeless condition. Patterson went back to the Steamboat Hotel on the Columbia Railroad, and there stated that as he and Miss Workman were going along, they met two men, one of whom seized him and held him while the other seized the young woman, Miss Workman; and that notwithstanding his efforts a wanton outrage was committed on Miss W., and that she was beat and murdered. Mr. Whitehill, in company with two others, went to the place described by Patterson, and there they found the young woman in a most deplorable condition. She was barely conscious of her condition and able to describe the outrageous conduct of Patterson, who will probably meet with his deserts. Her case was considered very critical from fracture of the skull and other injuries.

SPIRITUALISTS' PIC NIC.—The Spiritualists of New York had a pic nic, a few days ago, at West Flushing, L. I.; at which a large concourse of persons were present, and many extraordinary feats were performed. They sung, danced, whooped, yelled, &c., and for a time the circle seemed like a gathering of madmen.

ANTI-DYSPEPTIC GULETS.—Gulets made of quassia wood are now sold at the leading druggists' shops in New York. Water is poured into them, which, after being left for some minutes, is drunk as a cure for dyspepsia. The quassia is a valuable corrective.

STILL LATER FROM EUROPE.

ARRIVAL OF THE PACIFIC.

The steamship Pacific arrived at New York, Wednesday morning, from Liverpool, bringing dates to the 11th inst. The most important item of news is that the bombardment of Sebastopol was resumed on the 10th. Omar Pacha has been appointed to the command of the Turkish Troops in Asia. The siege of Kars continues without any definite result. Berdiansk has been again partially bombarded. It is reported that Revel has been subjected to a successful bombardment which cholera has reappeared among the allied troops. In the Black Sea, the Allies are demolishing the fortifications of Anapa, much against the wishes of the Ciscaissons.

Gortschakoff is making efforts to impress the Russians with an idea that the influence of their priests is irresistible. It is announced that Spain has joined the Allies, and will furnish contingent forces of 25,000 men, under the command of Gen. Prim. In return, it is that France and England will guarantee a Spanish loan. According to the *Daily News*, Gen. Simpson is in the command of the British forces in the Crimea. Some of the London papers speak of the Polish sympathy meeting as a failure.

The Pope has excommunicated the King and ministers of Sardinia, an account of the recent confiscations of church property, and had a sharp correspondence with Zavala, the Spanish Minister of Foreign Affairs, upon the same subject. In the British Parliament, the annual statement of affairs in India had provoked a spirited debate, in which Mr. John Bright made a conspicuous figure. Lord John Russell had made a vigorous speech against the continuance of the war, but the effort had made no impression.

STATE FROM CALIFORNIA.

By the arrival at New York of the steamer George Law, bringing \$1,285,616 in gold, we have later advices from California and the Pacific. A fire in Stockton has destroyed twenty houses. Loss \$30,000. Another fire in San Francisco has destroyed the same number of houses. An earthquake of a violent and destructive character has occurred at Los Angeles. The Allied fleet has visited Petropolowski with the intention of attacking it, but, on going in found the American flag flying, and only two Americans in the place, the Russian inhabitants having all fled to a neighboring village, and the garrison evacuated the town after removing all their guns, ammunition, &c. The Allies destroyed the fortifications, &c. The Russian escaped the vigilance of their enemy under cover of a dense fog, and sailed off to their new settlement at the mouth of the Amoor river, conveyed by two frigates and four merchant vessels. The Allies then sailed for Russian America, but did nothing there, as the place is a fur-trading post, protected by treaty between Britain and Russia. A telegraphic communication has been opened between Panama and Aspinwall.

IMPORTANT FROM MEXICO.

Abdication of Santa Anna.

NEW ORLEANS, Aug. 25.—By the arrival of the Orizaba we have advices from Vera Cruz to July 22. Santa Anna left the city of Mexico, on the 9th, under an escort of 2500 men, and upon his arrival at Perote signed his abdication of the Presidency. On the 17th he embarked at Vera Cruz, for Havana. A day or two after leaving the city of Mexico; 700 or 800 of the escort revolted, and, after killing one or two officers, proceeded to join Alvarez. General Carras has been appointed Provisional President, and General La Vega Commander-in-Chief of the Army.
The State prisoners at the city of Mexico had been liberated, and a mob committed a number of excesses; the house of Santa Anna's mother-in-law was completely gutted in the excitement.

THE APPOINTMENT OF VEDAL, WHO CAME PASSENGER IN THE ORIZABA, HAS BEEN REVOKED, AS MINISTER TO THE UNITED STATES.

RUSSIA AND A PROTRACTED WAR.—A writer in the *Journal of Commerce*, who has been a resident of Russia, says that in a long war the Allies have much the best chance; that Russia has been accumulating material for the war for the last quarter of a century, but that in a campaign or two more her resources will be exhausted. He says that Russia pays \$15 for every hundred weight of gunpowder transported from Moscow to Perekop, a distance of 1000 miles, and for other munitions in proportion. It is argued that such a drain upon the Russian treasury as is now going on will force her to yield at last. Perhaps so, but in a war of this kind both parties are likely to lose more than they can ever hope to gain.

BALTIMORE, August 27.—President Pierce held a public reception at White Sulphur Springs, during which he made a speech in which he complimented ex-President Tyler on the 'purity of his administration' and for the 'high purposes which he so bravely conceived and wisely executed.' He denounced Americanism as in direct antagonism to the doctrines and principles of the Constitution. He hoped note of the modern issue, so potent for evil and powerless for good, had representatives present, and urged his hearers to avoid the heresies which are in direct antagonism with the doctrines and principles of the Constitution.

"The Terrible Tragedy," which the *London Literary World* says occurred at Lyons in France, wherein a bridegroom is represented as having been seized with hydrophobia on his bridal night, and with tearing his bride to pieces, devouring portions of her flesh, &c., is pronounced a French hoax.

Hon. Edward Bates is to deliver an agricultural address at the Missouri State Fair in October.
