SCHIEDAM AROMATIC SIÎNAPS, TO THE CITIZENS OF PENNSYLVANIA .-

I beg leave to call the attention or the citizens of Pennsylvania to the above article, manufactured by my self exclusively, at my factory in Schiedum, Hol. land, expressly for medical purposes.

and it has long since acquired a higher reputation both in Europe and America, than any other dietetic beverage,

In Gravel, Gout, and Ruhmantism; in obstructions of the Bladder and Kidneys, and debility of the urmany functions, its effects are prompt, decided and invaribly reliable. And it is not only a remedy for these mandies, but, in all cases in which they are produced by drinking lead water, which is almost universally, the cause of them, it operates as a sure preventive.

The distressing effect upon the Stomach, Bowels, and Bladder, of travelers, new residents, and all persons unaccustemed to them, produced by the waters of nearly all of our great Inland rivers, like the Ohio, Mississippi and Alatama, from the large quantity of decayed vegatable matter contained in them, in a state of solution, is well known; as is also that of the waters of limestone regions, in producing Gravell, Cylechl, and stone in the Bradder. The Alomatic Schilledam Schinappe in the disease which they occasion. It is also found to be a cure and preventive of Fever and Ague, a complaint caused by the conjoint effects of vegatable material in the atmosphere, and vegetable patrescences in the water of those districts in which it principally prevails. The Alomatic Schiedam Schnapps is on sequently in great demand by persons traveling, or about to settle in these parts of the country where it has become known, on faccount of its various other remedial properties.

More than three thousand physicians, among whom are numbered the greatest names belonging to the faculty of medicine in this country, have certified, over their own signatures, to the valuable medicinal properties of such an article, as the severest tests have proved the Schiedam Aromatic Schinapps to be and have accepted it as a mest desirable addition to the Matrian Medica.

Put up in quant or pint bottles, enveloped it yellow paper with my name on the bottle, cork and seal. For sale by all respectable Druggists and Grocers.

LABORATORY, N. Y. May 2, 1823,

"MR. Upotpu Wolff-Dear Sis: I cannot speak tro
highly of the purity of your rehiedam Schnapps. It is
declaredly superior to anything of the kind in the market. It is perfectly from a run the admixture of tusif oil,
or of any of these armylic compounds which produce
such a mischievous and irreparable effect upon the constitution, and which very lew alceholic distilled higners
are without—mest of them being largely impregnated
with it. I have personly inspected the various process
of distillation practiced of Schnedum, and know that unusual care is taken to separate the noxious elements
from the pure alcohol, and your Schnaps is a striking
proof of its success. As a medicinal ament for chronic
and renal affections, I have successfully prescribed it,
and recomend it as an agreeable cerdini and harmless
stimulant, and shall continue to do so; as well as to
use it as a source of pure alcohol for chemical investigations and experiments.

Yours obedient.
