Deafness and Ear Diseases Radically Cured.

DR. LeBRUNN offers to those suffering from Deafness his INEADIABLE AURAL REMEDIES, which have been successful in nearly 3,000 cases of confirmed deafness. These remedies comprise different courses for diseases of the internal, middle and external ear, and have been pronounced by those celebrated aurists, Drs. Cramer, of Berlin, Itard, and Delan, of Paris, cursts. Pitcher and Yearisty, of London, as being the Must WONDERFUL and EFFECTUAL ever applied for diseases of the internal and middle ear. Dr. LeB., WAR-RANES A CURE in every case where the car is perfect in formation. He has eighteen certificates of cures from those who had been DEAF AND DUMB, and whose hearing is now completely restored and are now enafrom those who had been that AND DOMB, and whose hearing is now completely "estored and are now enabled to learn the language. The names of 2,700 persons who have been cured by Dr. LeB. may be seen on application. Patients, by sending a description of the case, can have remedies sent to any part of the United

When the auditory is dry and sealy, with little or no secretion; when the deafness is accompanied with noise in the ear, like falling water, chirping of insects, ringing of bells, rustling of leaves, continual pulsations and discharge of matter, or when in stooping, a sensation is felt as if a rush of blood to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold has been taken, this method in treating the disease is infallible.

Dr. Dufton is the only Geulist in the United States who practices the new painless, and successfull method in treating all the diseases to which the eyo is subject. Where every other means have failed toniford reliet, he asks from such a fair and impartial trial.

TESTIMONY.—The undersigned practioners in medicine in the city of New York, having had frequent eccasion to witness the practice of Drs. Lebrunn and Dufton, in diseases of the Ear and Eye, laying aside all professional jealousy, freely admit that the course pursued by them in treating diseases of these delicate organs, from the unparalleled success attending it, is well worth the attention of our professional brethren throughout the United States, feeling assured, as we do, that Aural Surgery has not met with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear, by "Medicated Vapors," particularly in chronic or complicated cases, forms a new era in the pratice of Aural Surgery; such cases yielding in almost every instance to this new and powerful agent. This practice fills up a vold which has long been felt by the general practioner, enabling him to cope successfully with every ase where perfect formation exists.
