NOTICE TO CONSUMERS.

The subscriber would respectfully inform his friends and the public, that he is now receiving 1000 tons of that very superior RED ASH COAL, from the Luke Fidier, mines of Boyd, Rosser & Co., the only Red Ash Coal brought from the Shamekin Basin, introduced and known in Carlisle as the Helfenstine Coal. It is entirely free from slate and all other impurities, and is perfectly adopted to all mechanical and demestly purposes. Its readiness to ignite, renders it particularly desirable for small stoves, while its intensity of heat and great durability in burning makes it equally so for large ones. He would also call the attention of farmers and others to a superior article of CHESNUT COAL, from the same mines, for steam and line purposes.

THE LIQUOR TRAFFIC.

It is generally known that the restrictive liw which goes into operation on the 1st of October next, coupled with two enactments on the same subject which went in force within the past year, will make a radical change in our system of licensing the sale of liquors .---For the purpose of giving our readers a proper understanding of the changes thus made we subjoin an abstract of the three laws which now combine to form our liquor license was-

The first is Mr. Buckalew's Law or 'An act to protect certain domestic and private rights. The second is the 'Sunday Lay,' and the third the late 'Act to restrain the sale of Intoxicating Liquors.' The provisions of these are as follows:

BUCKALEW'S LAW.

1. A fine from \$10 to \$50, and imprison ment from ten to sixty days, for wilfully furnishing intoxicating liquors, as a beverage, by sale, gift or otherwise, to minors or insane persons-to any one when intoxicated, or to one known to be intemperate. The same penalty for thus furnishing such liquors to any intemperate person to three months after notice from friends forbidding the same.

2. Any person furnishing liquor to another by gift, sale or otherwise, in violation of this, or any other act, is held responsible for damages, to persons or property, resulting there-

3. A fine of \$50 and imprisonment at the discretion of the Court, for marrying a person

4. A fine of \$50, for the unwholesome adulteration of intoxicating beveruges or the wil-tul sale of the same. For the second offence \$100 fine, and imprisonment not exceeding sixty days.

5. Expences not exceeding \$20 to be puid to prosecutor. No action to be maintained for liquor sold contrary to any law, and Courts may revoke license, &c.

SUNDAY LAW.

1. A fine of \$50 for each case of selling, trading, or bartering of spirituous or malt liquors wine or older, on Sunday. The same penalty for wilfully permitting them to be drank on, or about the premises

2. In cases of conviction for offences on two separate Sundays, a fine of from \$50 to \$100, and imprisonment from three to twelve months with los, of license.

3. On failure to pay fines and costs, imprisonment not exceeding three months, or until discharged by due course of law.

4. Constables, Sheriffs or prosecuting Attorneys are fined from \$50 to \$100 for refu- the generation of men. For my part, I think sing to inform on and prosecute offenders against this act.

5. Suits for penalties must be brought in the name of the city or county. Any citizen they are all dough; that the coarsest potter of the county may prosecute—be a witness, may mould them at pleasure to vessels of honand receive half the penalty-the other half to be paid over to the Guardians of the Pour. dishonor. Any Mayor or Judge of the Court of Quarter Sessions, may revoke a license for violation. of this act. No compromise of suits allowed.

THE ACT TO RESTRAIN THE SALE, ETC.

1. All Drinking Houses prohibited, and a fine not exceeding \$50, with imprisonment fording a place, inducement, or any other con-

nish a place for drinking or for aiding or ab-

betting. 2. All sales in less measure than a quart are prohibited. Courts of Quarter Sessions the mail was found in their possession. the United States, provided they be of temperate habits, and give bond with two good securities, in the sum of \$1000, conditioned for the faithful observance of all laws relating to the sale of the said liquors, to be filed in Court; on which bond fines and costs may be collected, upon the conviction of the principal. The applicant for license must present his petition, have it lawfully advertised, and the Court shall fix a time when objections

may be heard. 8. No hotel, tavern, eating house, oyster house or theatre, nor any other place of refreshment, or amusement, can receive license to sell by any measure whatever, and no unnaturalized person, under any circumstances.

4. Druggists are prohibited from selling intoxicating beverages except when mixed with other medicines.

5. Clerk of Quarter Sessions cannot issue a license until the bond has been filed, fees paid and the cirtificates furnished. Fees for license, three times the present amount; but no license granted for less that\$30.

6. Persons licensed to sell by the quart and greater measure, must frame their license, and place it conspicuously in their chief place of business, or forfeit it and all the sales contrary to this act, punished according to the second section.

7. Constables, for wilfully failing to return places kept in violation of this act, fined asserted at Washington, that Mr. Buchanan, not exceeding \$50, and imprisonment from on retiring from his ministerial career, will be one to three months.

8. Importers may sell in original pack-

domestic producers, brewers and distillers may sell liquor made by them in quantities not

less than five gallons.

9. Appraisers of licenses, under this not are according to former laws, except in Phila-delphia, where three reputable and temperate citizens, in no way connected with, nor interrested in the liquor business shall be ap pointed annually by the Court of Quarter Sessions.

From the foregoing synopsis of these laws, the reader will perceive that combined they aim to produce the following results:

1. Entire Prohibition on Sunday. 2. The abolition of all drinking houses, and

sales by the small quantity.

3. Entire Prohibition of sale to all persons except temperate adults. 4. The transfer of liquor-selling from hotels

and eating-houses, to stores and other places of business. 5. No liquor to be sold by unnaturalized

6. The declaration by the State, that 'intoxicating liquor is no part of entertainment for man er horse,' and the holding of persons legally responsible for the damages resulting from either gift or sale.

THE RETIRED NAVAL LIST .- The Washington Union publishes a letter to the President from Secretary Dobbin, upon the report of the Board of Naval Officers to prepare a retired list of the officers of the Navy. The great end sought to be attained by Congress was to promote the efficiency of the Navy, "by removing from active service list" all officers found incompetent to do their whole duty efficiently and promptly, both ashore and affont, and by dropping entirely from the rolls such as are to blame themselves for their incompetency .-The Secretary says the law required the Board to consist of five Captains, five Commanders and five Lieutenants, ordered by the President. The peculiar fitness of the officers selected for this delicate and arduous duty has been conceeded with remarkable unanimity, by both officers and citizens. They were in session many weeks; they applied for and had possession of the records of the Department, there were among them men of age and experience, character and intelligence, and so clear is his conviction of the correctness of their decree, that he cannot withhold his approval of the report. The President, in reply, says he also approves the finding.

Marshfield Webster in his Marshfield speech, Sept. 18, 1848, when alluding to the men who then held the same position on the question of slavery extension which is now held by Nebraska Democrats, said:

'I am afraid, fellow citizens, that the generation of 'doughfaces' will be as perpetual as that 'doughface' is an epithet not sufficiently reproachtul. I think such persons are doughfaces, and dough heads, and dough-souls and or or dishonor, but more readily to vessels of

Foster, David Wilson. Treasurer, Charles Mitzel. Commissioner, John Evans. Director, Peter Becker. Auditor, Jeremiah Brown.

The Democratic ticket of the same county is as follows:-Senator, Wm. H. Welsh. Assembly, James Ramsey, Isaac Beck, Samuel Manea. Associate Judge, John Rieman.— Theasurer, Alex, Wentz. Commissioner, Aaron G. Blackford. Auditor, Anthony Dossenburg. Director, Killian Small.

THE MAINE LAW IN MAINE .- The Portland Argus states that so far as the returns have have been received but one person who voted in favor of the present liquor law of that State has been returned to the logislature. The exception to the great revolution made in the legislature is Mr. Scammon of Saco. He will be as much an object of mark in the next General Court, as the solitary Democrat was in the Massachusetts Legislature last wenter.

Hon. James Buchanan .- It is confidently President Polk. She is, indeed, a lady for

GEN. SCOTT AND THE SECRETARY OF WAR .-The Washington correspondent of the 'Times' speaks of a sharp correspondence going on between Gen. Scott and the Secretary of Warnot as to his pay, which it is understood, the administration withholds as yet-but-

"It seems that some months since, Gen. Scott gave Gen. Hitchcock, who has long been an intimate personal friend, leave of absence for six months. The Secretary of War immediately wrote to Gen. Scott, demanding his reasons for this act of favoritism to Gen. Hitchcock, and at the same time countermanded the General's order, granting leave of absence.

Gen. Scott replied that he had granted the leave of absence because he had the right to do it, and was convinced of its proprietythat he was not responsible to the Secretary of War for his action in such cases; and that he would be obliged to him if he would here: after have occasion to address him, write in the name of the President of the United States -as he was the only official superior whom he acknowledged. The General's letter was quite as sharp as the Secretary's.

Secretary Davis, in reply, entered into a very elaborate and detailed exposition of all the alleged breaches of order and violations of propriety committed by General Scott during his whole military career! His letter is very long, and filled with the severest criticism of the General's conduct!" It is intended to annihilate him completely in the confidence and respect of the American people-which may prove to be a more 'serious undertaking than Secretary Davis imagines.

AGRICULTURAL IMPLEMENTS .- In its report of the Agricultural Exhibition just closed, the Philadelphia Sun remarks: "Among the most prominent in this department, those exhibited by Messrs. Paschall Morris & Co. These gentlemen exhibited a hay and straw cutter, (Daniels' patent,) of the improved construction, which can be operated either by hand or horse power. They also exhibited Dedrich's Parallel Lever and Horizontal Hay Presses; (2 kinds,) Pennock's Drills; Atkin's Automaton Reaper and Raker; Cooper's Improved Lime and Guano Spreader; Gilbert & Ritten-house's Horse Power, a new and evidently a desirable article; a new pattern of a self-shutting gate; Krauser's Patent Cider and Wine Mill, which can be operated either by hand, or horse power. These gentlemen have also a very large variety of superior agricultural implements of every description, such as rakes, forks, spades and shovels."

LYNCH LAW IN ILLINOIS .- A lynching case has recently occurred in Illinois, just over the line from Big Foot, Wisconsin. On Sunday, the 9th instant, a young man named Coxen, was nearly murdered by his father in-law, named McLane, and robbed of \$375. The assult was committed in the woods, and Coxen was left for dead; but he revived, and managed to crawl to the house, both the parties residing together. McLane was immediately arrested, and the examination took place on Monday. Notwithstanding Coxen's wounds and his direct testimony as to the assault, McLane persisted in denying the whole story. A large number of excited people were in attendance, and, although they were satisfied that the law would punish McLane for the assault, they were determined that he should give up the money. McLane was accordingly taken out of the hands of the officers, a rope tied about his neck, and he was suspended in the air several times, when, more dead than alive, he confessed his guilt and restored the money .-The culprit was then given up to the officers, and by them conveyed to jail.

THE NEW YORK FLOUR MARKET,-A letter to the Philadelphia Inquirer, dated New York, Thursday evening, says:

The flour market has been quite excited today, and prices of common and medium grades have advanced 1 a 2 shillings, Considerable orders came out by the Baltic, and over 10,-000 barrels were purchased by shippers. Six thousand barrels of common State were bought, to arrive next week, 2,000 barrels Ohio, to arrive within two weeks, the former at \$8 and the latter at \$8,121. At the close holders were firm, and insisted upon still higher prices.

GETTING ALARMED.—At Philadelphia the tock of the Camben and Amboy Railroad has declined \$10 on a share, under the apprehension that the company will have to pay heavy damages for the injuries suffered by the Bur-lington accident. We hardly wonder at the fact when we perceive that one of the sufferers by the Burlington disaster says that as he lay beneath the ruins, parched with heat, a 'hot liquid' came pouring down within reach of his mouth, and he sipped it up eagerly .-His physician has not yet deemed it advisable to inform him that the 'hot liquid' which he drank, was the blood of one of his fellow passengers who was lying above him, dead, crashed almost to jelly. Such experience demands compensation from the monopoly; and the stockholders are becoming naturally alarmed for their good, fat dividends.

PARTY COLORED POLITICS .- The "Liberty immediately married to the widow of the late | Party" of New York, have nominated two white and two black men for State officers, ages, without appraisement and license; com- whom one might gladly resign even so long a Party politics never before included so many shades of color.

STILL LATER FROM EUROPE.

ARRIVAL OF THE BALTIC.

New York, Sept. 20 .- The steamship Baltic arrived from Liverpool with dates to the 8th, being one week later advices. The papers by the Baltie are extraordinarily destitute of news. There is not a single incident worth reporting.
Generals Simpson and Pellissier telegraph

on the 3d that there is nothing new respecting the siege. The Russians are again threatening an attack on the Tchernaya, hence the allied army are continually on the alert, and the parties remain constantly under arms.-The auestion is whether the Russians will attack the Tchernaya lines or Balaklava, via Biadar Vally. General Simpson says that the Russians are actively engaged in bridging the harbor, and fortifying the north side and have received reinforcement.

There is nothing from the Black Sea or Bul-tic. The Turkish Bulletin says that the Russians have not the means to attack Kars and that in a recent partial attack they suffered

There is no reliable information respecting the negotiation, but it is reported that the German powers are preparing a new programme to confine the war to its ostensible bjects.

There is not a word of political news of nterest if we except the rumor current in the clubs that Great Britain intends to call Naples to account, and will make the recent insult of the Neapolitan police to an attache of the

British embassy the groundwork of a quarrel. The news of the death of the Hon. Abbot Lawrence was received in England with every expression of sympathy; on the 7th the American ships in port at Liverpool displayed their flags at half-mast as a mark of respect to the deceased.

The harvest throughout England is about an average, being neither positively good nor the

FLOUR SPECULATIONS.

Efforts are making, says the Ledger in the markets for Breadstuffs and Produce to maintain prices. The rot in the potato crop is started at one point, at one time, and in others, at another, calculations are presented, showing that the supply of wheat and tye will not exceed the demand at present prices. The demand likely to exist in Europe for large quantities of bread and pork is also steadily kent before the public, and very ingeniously inserted paragraphs in the foreign news have their influence in keeping up the same impression. It is probable that France and England will be purchasers, if the war against Russia is continued, for a considerable portion of our surplus of wheat and flour; but to what extent is not yet apparent. The last news from the other side is of a mixed character, and is not yet fully digested. Most of the letters from France contain orders for breadstuffs, and these are couched in very excitable terms, characteristic of the Frenchman. The orders from Great Britain are less numerous, but most of the letters and circulars speak of the probable necessity for large importations, notwithstanding the favorable weather for harvest, much of the wheat having been winter killed. The Bank of England seems to look on all these premonitory symptoms as the result of design, and has raised its rate of interest from 8½ to 4 per cent., an advance of ½, not on account of the scarcity of money, but to prevent speculation in breadstuffs; a further advance will doubtless take place if this should not prove sufficient.

Kansas.-The Kansas Herald of Freedom. September 8th contains a full account of the Kansas Free State Convention which assembled at Big Springs on the 5th inst. The resolutions declare that the interests of the inhabitants require that Kansas should be a Free State: that free labor will best promote its happiness, the rapid population, the prosperity and the wealth of Kansas. They approve the admission of free negroes and mulattoes into the territory, declare that they owe no obedience to the acts of the present spurious Legislature, and call the citizens to meet and hold an election on the second Tuesday of ()ctober, to choose a Delegate to Congress. The Convention nominated Gov. Reeder for the Territorial Delegate, and that gentleman has accepted the nomination.

WHAT SHOULD TEACHERS EAT .- At the American Association for the advancement of education, Prof. Haldeman advocated the use of highly phosphorized food for teachers, they having much expenditure of brain. The reason why the Scotch were so intellectually acute and active, he attributed to the use of oatmeal in their youth. Oats contained more phosphorus than any other vegetable. He also recommended eggs as excellent for teachers, in order to increase their intellectual ca-

MGEN, SCOTT'S BACK PAY .- The War Department, it is reported, has refused to Gen. Scott the back pay attached to the post of Lieutenant General. This was to be expected .--Months have been taken to decide a point that should never have been raised; and now the veteran is denied the slight remuneration which Congress designed to give him.
