

Little Folk.

A Story for the Young.

I have a clock on my parlor mantel-... A very pretty little clock it is, with a gilt frame, and a glass case to cov- it. Almost every one who sees it, says, 'What a pretty clock!' But it has one cat defect—it will not run; and there- as a clock, it is perfectly useless.—ough it is very pretty, it is a bad clock, cause it never tells what time it is. Now my bad clock is like a great many rsons in the world. Just as my clock os not answer the purpose for which it is made—that is, to keep time—so ma- persons do not answer the purpose for hich they were made. What did God ke us for? 'Why,' you will say, 'he ide us that we might love him and serve m.' Well, then, if we do not love od and serve him, we do not answer the ipose for which he made us. We may, like the clock very pretty, and be ry kind and very obliging; but if we do not answer the purpose for which God ide us, we are just like the clock—bad. ose of my readers who live in the coun- y, and have seen an apple-tree in full ossom, know what a beautiful sight it is. But suppose it only bore blossoms, d did not produce fruit, you would say is a bad apple tree. And so it is.—verything is bad, and every person is bad, and every boy and girl is bad, if ey do not answer the purpose for which od made them. God did not make us play and amuse ourselves, but also that e might do his will. Maybe some of our readers will say, 'How can I do God's will?' I will tell ou. It is God's will that you obey your rents. It is his will that you always y to do what is right. It is his will that u believe in Jesus Christ, trust in him r the pardon of your sins, and pray for s Holy Spirit. Now be sure that you y to be not like the clock, which though is very pretty, is a bad one, because it os not answer the purpose for which it is made. Let every one, therefore, ask mself the question, 'do I answer the ipose for which God made me?'

HAPPINESS! HAPPINESS!! WHAT CAN MAKE US HAPPY?

Reason's whole pleasure, all the joys of sense, Lie in three words—Health, Peace, and Contentment. (Poet.) But when we have pains, affliction or anguish of dis- ease, is not our pleasure, our joy, our happiness thereby destroyed? Why let our sick following suffer? Does not Christ say: 'With the same measure ye mete, it shall be measured to you again?'—Mat. 7, 2.—'Who is a wise man and endowed with knowledge among you, let him also shut out of a good conversation his works with meanness and wisdom?'—James, 1, 5. SURGERY AND MEDICINE.—Doctor, P. C. CARDELLI, Surgeon and Physician, who is Botanist and Physiologist, and is Graduate of our best Medical Col- lege, and has made himself acquainted with all the vari- ous systems of Medical Science, and with the recent discoveries and improvements in the various depart- ments of the Healing Arts, faithfully attends to orders for Surgical and Medical Aid, and whose medicines are all made or composed strictly in accordance with the Science of Pathology, Botany, Hydropathy and Physiol- ogy; and whose medicines are all composed of whole- some roots, plants, and hydropathy, good in all diseases, and to whom the afflicted are invited to apply timely. Landsburg, Pa., July 15th, 1854. Copy of a letter from George Spahr, Esq., County Treasurer.—I do certify that the medical advice of Dr. P. C. Cardelli has surpassed any other which I have hitherto had in the cure of severe fever in my family.—I would therefore recommend him to such persons who may be afflicted with afebrile diseases, as follows:— GEORGE SPAHK. Bloomfield, August 20th, 1851. DR. All these remedies are made strictly in accordance with the Science of Botany and Hydropathy combined, and to pre- vent all manner of sickness and all manner of disease. New Testament. 'It is for healing that I have come into the world.'—Luke, 4, 43. IMPORTANT TO FEMALES! DR. CHENEY'S PILLS. The combination of ingredients in these pills is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have these Pills pro- duced the most beneficial effects, and restored to health to which Females are liable, and bring nature into its proper channel, whereby health is restored and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether of men- struation, cold or any other cause, the general health im- mediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. To Ladies, whose health will not remain in a state of health, these pills will prove a val- uable acquisition, as they will prevent pregnancy.—Headache, pain in the side, palpitation of the heart, fainting of head, and all turned sleep do not always arise from the Interference of nature, but at other times, in the case, the pills will invariably remedy all their evils. Nor are the less efficacious in the cure of Leucorrhoea, commonly called the 'Whites.' These pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. A warning of this kind is free from anything injurious to mind or health. Full and explicit directions accompany each box. These pills are put up in square flat boxes. Persons residing where there is no agency established, by enclosing the Dollar in a letter, or by enclosing the name of the nearest Druggist, New York, can have them sent to their respective addresses by mail.
