SCHIEDAM AROMATIC SHNAPS.

LO THE CITIZENS OF PENNSYLVANIA .-I beg leave to call the attention on the citizens of Pennsylvania to the above article, manufactured by my self exclusively, at my factory in Schiedam, Hol-

land, expressly for medical purposes It is made from the best Barley that can be selected in Europe and the essence of aromatic Italian berry, of acknowledged and extraordinary medicinal preperties; and it has long since acquired a higher reputation both in Europe and America, than any other dietetic begerage.

in Europe and America, than any other diecetic beginning.

In Gravel, Gout, and Rheumatism; in obstructions of the Bladder and Kidneys, and dobility of the urinary functions, its effects are prompt, decided and invaribly reliable. And it is not only a remedy for these manders, but, in all cases in which they are produced by drinking bad water, which is almost universally, the cause of them, it operates as a sure preventive.

The distressing effect upon the Stomach, Bowels, and Bladder, of travelers, new residents, and all persons unaccustomed to them, produced by the waters of incarry all of our great filand rivers, like the Ohio, Missishippi and Alabama, from the large quantity of decayed vegatable matter contained in them, in a state of solution, is well known; as is also that of the waters of linestone regions, in producing Gravel, Cylcull, and stone in the Bladders. The AROMATIC SCHILDAM SCHIAAPIS is an absolute corrective of all these injurious properties of lad water, and consequently prevents the disease which they occasion. It is also found to be a cure and preventive of Fever and Ague, a complaint caused by the conjoint effects at vegetable malaria in the atmosphere, and vegetable putres chees in the water of those districts in which it principally prevants. The Archaele extrements. which it principally prevans. The Archanic collegen Schnapps is consequently in great demand by persons traveling, or about to settle in those parts or the country especially; as well as by many in every community where it has become known, on account of its various

where it has become known, on account of its various other remedial properties.

More than three thousand physicians, among whom are numbered the greatest names belonging to the faculty of medicine in this country, have certified, over their own signatures, to the valuable medicinal properties of such an article, as the severest tests have proved the Schiedam Aromatic Schingps to be and have accepted it as a most desirable addition to the MATIRIA MEDICA.

ollowing letters from physicians: LABORATORY.N. Y. May 2. 1823,

"MR. Ubolfr Wolfe—Dear Sis: I cannot speak too highly of the purity of your Schiedam Schnapps. It is decidedly superior to anything of the kind in the market. It is perfectly free from the admixture of tusil oil, or of any of those arnylic compounds which produce such a mischievous and irreparable effect upon the constitution, and which very low alcoholic distilled liquors are without—most of them being largely impregnated with it. I have personly inspected the various process of distillation practiced at Schedam, and Know that unusual care is taken to separate the noxious elements from the pure alcohol, and your Schnaps is a striking proof of its success. As a medicinal agent for chronic from the pure alcohol, and your Schnaps is a striking proof of its success. As a medicinal agent for chronic and renal affections, I have successfully prescribed it, and recomend it as an agreable cordial and harmless stimulant, and shall continue to do so; as well as to use it as a source of pure alcohol for chemical investigations and experiments. Yours obedient, ISIAH DECK, Consulting Analytical Chemist."

Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnapps as a remedy in chronic catarrhal complaints, &c. The letter is dated July 27, 1853:

"I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the disease for which you recomend it. Having a natural tendency to the nuccous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito urinary apparatus.
